

EMAIL RECRUITMENT SCRIPT

The National Institute of Standards and Technology (NIST), is seeking individuals to participate in a survey. This study is being performed to understand how organizations design and implement cryptography applications. It will investigate organization's use of cryptography by determining: sources of crypto implementations, testing and evaluation approaches, challenges when incorporating crypto in products, and standards used in developing products.

Specifically we are looking for individuals who:

1. Are at least 18 years old.
2. Have experience developing products that include cryptography

The survey will be available on line from [dates]. The survey will take approximately 30 minutes. For additional information please see the information sheet at [link].

To participate in the survey please go to [link]

We appreciate your participation.

Thank you!
