**Sources of Codes:**

- International Classification of Diseases, 2019, (ICD-10-CM). [National Center for Health Statistics \(NCHS\)](#).
- Current Procedural Terminology (CPT), 2019. [American Medical Association \(AMA\)](#).
- Current Dental Terminology (CDT), 2019 – Dental Procedure Codes. [American Dental Association \(ADA\)](#).

*Note: “X” in a code denotes any number including the absence of a number in that place. “–” (Dashes) in a code indicate that additional characters are required. ICD-10-CM codes all have at least four digits. These codes are not intended to reflect if a code is billable or not. Instead they are used to point out that other codes in the series are to be considered.*

# Appendix D: Health Center Health Information Technology (HIT) Capabilities and Quality Recognition

## Instructions

The Health Information Technology (HIT) Capabilities and Quality Recognition Form includes a series of questions on health information technology (HIT) capabilities, including electronic health record (EHR) interoperability and eligibility for Meaningful Use. The HIT and Quality Recognition Form must be completed and submitted as part of the UDS submission. The first part includes questions about the health center's implementation of an EHR, certification of systems, how widely adopted the system is throughout the health center and its providers.

## Questions

The following questions appear in the EHB. Complete them before you file the UDS Report. Instructions for the HIT questions are on screen in EHB as you are completing the form. Respond to each question based on your health center status as of December 31.

1. Does your center currently have an Electronic Health Record (EHR) system installed and in use?
  - a. Yes, installed at all sites and used by all providers
  - b. Yes, but only installed at some sites or used by some providers

If the health center installed it, indicate if it was in use by December 31, by:

- a) **Installed at all sites and used by all providers:** For the purposes of this response, "providers" mean all medical providers, including physicians, nurse practitioners, physician assistants, and certified nurse midwives. Although some or all of the dental, mental health, or other providers may also be using the system, as may medical support staff, this is not required to choose response a. For the purposes of this response, "all sites" means all permanent sites where medical providers serve health center medical patients and does not include administrative-only locations, hospitals or nursing homes, mobile vans, or sites used on a seasonal or temporary basis. You may check this option even if a few, newly hired, untrained employees are the only ones not using the system.
- b) **Installed at some sites or used by some providers:** Select option b if one or more permanent sites did not have the EHR installed, or in use (even if this is planned), or if one or more medical providers (as defined above) do not yet use the system. When determining if all providers have access to the system, the health center should also consider part-time and locum providers who serve clinic patients. Do not select this option if the only medical providers who did not have access were those who were newly hired and still being trained on the system.

- c. No

Select "no" if no EHR was in use on December 31, even if you had the system installed and training had started.

This question seeks to determine whether the health center installed an EHR by December 31 and, if so, which product is in use, how broad is access to the system, and what features are available and in use. While they can often produce much of the UDS data, do not include practice management systems or other billing systems. If the health center purchased an EHR but had not yet placed it into use, answer "No."

If a system is in use (i.e., if a or b has been selected above), indicate if your system has been certified by the Office of the National Coordinator - Authorized Testing and Certification Bodies (ONC-ATCB).

1a. Is your system certified by the Office of the National Coordinator for Health IT (ONC) Health IT Certification Program?

- a. Yes
- b. No

Health centers are to indicate in the blanks the vendor, product name, version number, and ONC-certified health IT product list number. (More information is available at [ONC-ATCB at http://onc-chpl.force.com/ehrcert.](http://onc-chpl.force.com/ehrcert)) If you have more than one EHR (if, for example, you acquired another practice which has its own EHR), report the EHR that will be the successor system.

2. Does your center send prescriptions to the pharmacy electronically? (Do not include faxing.)
- a. Yes
  - b. No
  - c. Not sure
3. Does your center use computerized, clinical decision support, such as alerts for drug allergies, checks for drug-drug interactions, reminders for preventive screening tests, or other similar functions?
- a. Yes
  - b. No
  - c. Not sure
4. Which of the following key providers/ health care settings does your center electronically exchange clinical information with? (Select all that apply)
- Hospitals/ Emergency Rooms
  - Specialty Clinicians
  - Other Primary Care Providers
  - None of the Above

## Instructions

Health centers are becoming increasingly diverse and comprehensive in the care and services provided. These questions capture the changing landscape of healthcare centers to include expanded services and delivery systems.

## Questions

Report on these data elements as part of their UDS submission. Topics include medication-assisted treatment, telehealth, and outreach and enrollment assistance. Respond to each question based on your health center status as of December 31.

1. Medication-Assisted Treatment (MAT) for Opioid Use Disorder
  - a. How many physicians, certified nurse practitioners and physician assistants<sup>1</sup>, on-site or with whom the health center has contracts, have obtained a Drug Addiction Treatment Act of 2000 (DATA) waiver to treat opioid use disorder with medications specifically approved by the U.S. Food and Drug Administration (FDA) for that indication?
  - b. How many patients received medication-assisted treatment for opioid use disorder from a physician, certified nurse practitioner, or physician assistant, with a DATA waiver working on behalf of the health center?
2. Did your organization use telehealth in order to provide remote clinical care services?

(The term “telehealth” includes “telemedicine” services, but encompasses a broader scope of remote healthcare services. Telemedicine is specific to remote clinical services whereas telehealth may include remote non-clinical services, such as provider training, administrative meetings, and continuing medical education, in addition to clinical services.)

  - a. Yes
    - i. Who did you use telehealth to communicate with? (Select all that apply)
      - (1) Patients at remote locations from your organization (e.g., home telehealth, satellite locations)
      - (2) Specialists outside your organization (e.g., specialists at referral centers)
      - (3) Professional organizations for staff training (e.g., continuing medical education, administrative, meetings, etc)
    - ii. What telehealth technologies did you use? (Select all that apply)
      - (1) Real-time telehealth (e.g., video conference)
      - (2) Store-and-forward telehealth (e.g., secure email with photos or videos of patient examinations)

---

<sup>1</sup> With the enactment of the Comprehensive Addiction and Recovery Act of 2016, [Public Law 114-198](#), opioid treatment prescribing privileges have been extended beyond physicians to include certain qualifying nurse practitioners (NPs) and physicians' assistants (PAs).

(3) Remote patient monitoring

(4) Mobile Health (mHealth)

iii. What primary telehealth services were used at your organization? (Select all that apply)

(1) Primary care

(2) Oral health

(3) Psychiatry

(4) Mental health

(5) Substance abuse

(6) Dermatology

(7) Chronic conditions

(8) Disaster management

(9) Consumer and professional health education

(10) Ophthalmology

(11) Other, please specify \_\_\_\_\_

b. If you did not have telehealth services, please comment why (Select all that apply)

i. Have not considered/unfamiliar with telehealth service options

ii. Lack of reimbursement for telehealth services

iii. Inadequate broadband/telecommunication service (Select all that apply)

(1) Cost of service

(2) Lack of infrastructure

(3) Other, please specify \_\_\_\_\_

iv. Lack of funding for telehealth equipment

v. Lack of training for telehealth services

vi. Not needed

vii. Other, please specify \_\_\_\_\_

3. Provide the number of all assists provided during the past year by all trained assisters (e.g., certified application counselor or equivalent) working on behalf of the health center (employees, contractors, or volunteers), regardless of the funding source that is supporting the assisters' activities. Outreach and enrollment assists are defined as customizable education sessions about affordable health insurance

coverage options (one-on-one or small group) and any other assistance provided by a health center assister to facilitate enrollment through the Marketplace, Medicaid or CHIP.

Enter Number of Assists \_\_\_\_\_

Note: Assists do not count as visits on the UDS tables.

## APPENDIX F: Workforce

### Instructions

It is important to understand the current state of health center workforce training and different staffing models to better support recruitment and retention of health center professionals. Appendix F includes a series of questions on health center workforce.

### Questions

Respond to each question based on your health center's status as of December 31.

1. Does your health center provide health professional education<sup>1</sup>/training?
  - a. Yes
  - b. No
  
2. If yes, which category best describes your health center's role in the health professional education/training process?
  - a. Sponsor<sup>2</sup>
  - b. Training Site Partner<sup>3</sup>
  - c. Other
  
3. Please indicate the range of health professional education/training offered at your health center and how many individuals you have trained in each category within the last year.
