Attachment 4 Chemical Exposure Question Bank

Items from the question bank can be used to develop a survey for each submission.

All forms will display OMB Control Number, Expiration Date, and Public Reporting Burden

Example Script for Environmental and/or Biologic Sampling Events

Sample Introduction for Environmental Investigation:

Hello, my name is {SAY NAME}. We are doing an Exposure Investigation for the Agency for Toxic Substances and Disease Registry, or ATSDR. ATSDR is a sister agency to the Centers for Disease Control and Prevention. As part of the investigation, we will be asking you some common questions like your name and address. We will also ask questions about your contact with chemicals. We are asking these questions to better understand all the data we collect.

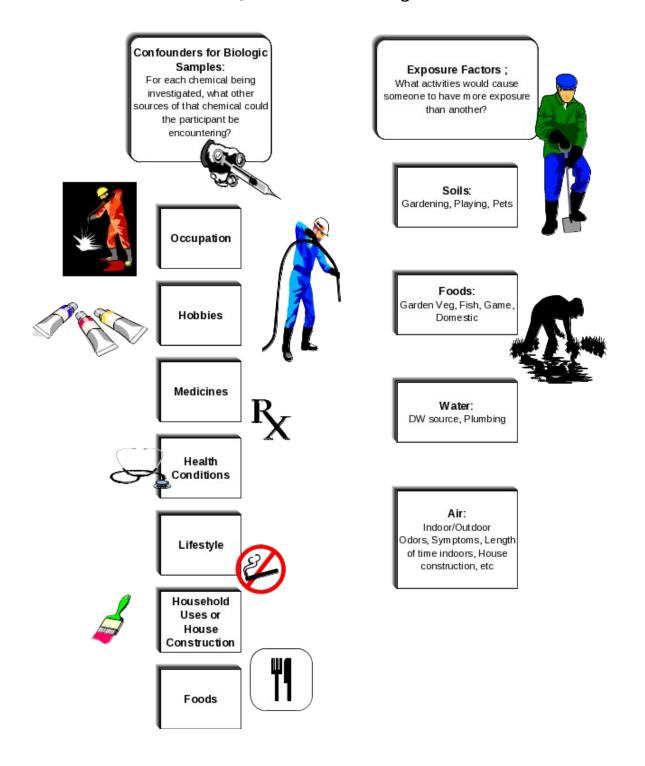

The questions should take less than thirty minutes. After that, we will be offering free $\{FILL\ IN\ TYPE(S)\} = [FOR\ ENVIRONMENTAL-air, soil, water, foods testing]$ Once we are done with this investigation, you will be given a copy and details of -your location or the exposure location test results. Generally, we are able to get results to you within $\{FILL\ IN\ ADJUSTED\ TIME\ FRAME\ OR\ INSERT\ 4-8\ WEEKS\}$.

General Information Questions

Example Script: Now I want to ask you questions about how I can contact you. I may also be asking how long you have lived at or visited certain places. This is needed to find out how long you may have had contact with chemicals and how long it may have lasted. We may also ask your age, race, weight and height, and about your jobs. This is useful to put your test results side by side with others like you to see what is typical.

NOTE: It is recommended that you ask the general questions <u>last</u>.

It should be edited to only include jobs of interest to your investigation (e.g., jobs that may include chemical use similar to what you are investigating. If you want to include an exhaustive list of occupations or industries, you can use the U.S. Census list found at http://www.census.gov/hhes/www/ioindex/overview.html

If you want to narrow the list to jobs or industries with chemical of interest, consider searching "agents" @ http://hazmap.nlm.nih.gov/, then look at processes, industries, and activities with risk of exposure. You can also search it backward when you know a job and it will tell you the hazards associated with that job.)
