MA plans may choose to tier the cost-sharing for contracted providers as an incentive to encourage enrollees to seek care from providers the plan identifies based on efficiency and quality data. The tiered cost-sharing must satisfy the following standards:

- The plan fully discloses tiered cost-sharing amounts and requirements to enrollees and plan providers;
- The providers at each tier of cost-sharing are available to all enrollees;
- Enrollees may not be limited to obtaining services from providers/suppliers assigned to a particular tier; and
- All enrollees are charged the same amount for the same service provided by the same provider.

The following are not considered to be tiering of medical benefits when enrollee cost sharing varies based on:

- The facility or place of service in which the service is furnished.
- Which manufacturer (e.g., preferred vendor) the enrollee uses for supplies.
- In-network versus out-of-network services.

Select the Non-Medicare-covered benefits that have tiered cost sharing:
