CLICK FOR DESCRIPTION OF BENEFIT

Does your plan offer a Medicare Prescription drug (Part D) benefit?

Select the type of drug benefit:

Defined Standard Benefit
 Actuarially Equivalent Standard
 Basic Alternative
 Enhanced Alternative

Describe the components of your network (select all that apply):

Standard Retail Cost-Sharing
 Standard/Preferred Retail Cost-Sharing
 Out-of-Network Pharmacy
 Standard Mail Order Cost-Sharing
 Standard/Preferred Mail Order Cost-Sharing
 Long Term Care Pharmacy

A plan should specify both standard and preferred mail order cost-sharing if it will require different cost sharing amounts at different mail order locations, even if both standard and preferred mail order pharmacies are not currently included in its network.

Unless sponsor's compliance is waived by the regulation, sponsor must comply with 42 CFR § 423.154 beginning January 1, 2013 regarding the appropriate dispensing of prescription drugs in long-term care (LTC) facilities. This section requires, among other things:

- 1) that certain drugs be dispensed to Part D enrollees in LTC facilities in no greater than 14-day increments;
- 2) that the use of uniform dispensing techniques as defined by each of the LTC facilities be permitted;
- 3) that information be collected and reported in a form and manner specified by CMS on the dispensing methodology used for each applicable dispensing event and on the nature and quantity of unused brand and generic drugs dispensed to Part D enrollees in LTC facilities;
- 4) that the total cost-sharing for a Part D drug to which the LTC dispensing requirements apply must be no greater than the total that would be imposed if the requirements did not apply; and
- 5) that the terms and conditions offered by the sponsor to a network pharmacy must include provisions that address the disposal of drugs that have been dispensed to Part D enrollees in LTC facilities but not used and returned to the pharmacy, including whether credit and reuse is authorized.

Sponsor attests that it will comply with 42 CFR 423.154.

Does plan utilize floor pricing?
 Yes
 No
Floor pricing is used when a sponsor negotiates a minimum price, such as for very low cost generics, that a pharmacy(ies) will be paid for filling a prescription.

Does plan utilize ceiling pricing?
 Yes
 No
Ceiling pricing is used when a sponsor negotiates a maximum price that a given pharmacy will be paid for a specific NDC. Ceiling pricing is often used for high cost generics.

Do you offer a free first fill (i.e. \$0 copayment) for any drugs?
 Yes
 No
Example: If your plan offers a \$0 copay for the first fill of a Lipitor prescription, you should answer 'yes' to 'Do you offer a free first fill for any drugs' and indicate the RxOU for Lipitor in the flat file which must be uploaded through the Formulary Submission Module by Friday, June 7, 2019 at 11:59 am Eastern Time.

Are there quantity limits on certain prescription drugs?
 Yes
 No

Is prior authorization required for certain prescription drugs?
 Yes
 No

Will your plan be limiting on-formulary coverage of drugs to certain indications (i.e., are you implementing indication-based formulary design)?
 Yes
 No

Do any drugs in your formulary require a step therapy plan?
 Yes
 No

Do you pay for Over-the-Counter medications (OTCs) under the Utilization Management Program?
 Yes
 No
If you select "Yes" to "Do you pay for Over-the-Counter medications (OTCs) under the Utilization Management Program?", you must indicate these specific medications in a flat file which must be uploaded through the Formulary Submission Module by Friday, June 7, 2019 at 11:59 am Eastern Time.

OTC Medication Attestation statement
 Per Chapter 4 of the Medicare Managed Care Manual, an MAO cannot offer the same OTC drug under both its Part C supplemental benefit and its Part D benefit. I attest any OTC drugs that are covered under Part C are separate and distinct from OTC drugs covered under Part D.

Do you offer OTCs as a part of a formal Step Therapy Protocol submitted for review and approval by CMS?
 Yes
 No
With respect to OTCs, a Step Therapy protocol is one that requires the use of the OTC product prior to receiving a prescription formulary drug. This is in contrast to a general utilization management strategy that offers OTCs as alternatives to prescription formulary drugs but without a requirement to try the OTC first. All OTC drugs used in either a Part D Step Therapy Protocol or a general utilization management strategy must appear in an OTC supplemental file. However, only those OTCs used in a Step Therapy Protocol must be documented in the Step Therapy Criteria text files submitted with the formulary files.

Indicate number of Tiers in your Part D benefit:

Each plan must indicate one specific cost-sharing tier from its PBP at which it will adjudicate all non-formulary drugs approved through the formulary exceptions process.

What is your Formulary Exception Tier?

Although CMS generally allows Part D sponsors to apply only one level of cost sharing from an existing formulary tier to all approved formulary exceptions, sponsors may also elect to apply a second less expensive level of cost sharing for all approved formulary exceptions for generic drugs, so long as this second level is also associated with an existing formulary tier and is uniformly applied to all approved formulary exceptions for generic drugs.

Do you apply a second less expensive cost sharing level for all generic drugs approved for formulary exceptions?
 Yes
 No

What is the lower level cost sharing Formulary Exceptions Tier?

Actuarially Equivalent Benefit Screens

Medicare-defined Part D Deductible Amount

Indicate the Out-of-Network cost sharing structure for this plan:

- Standard Retail Copay/Coinsurance(no differential)*
- Standard Retail Copay/Coinsurance plus a differential between the OON billed charge and the Standard Retail allowable**
- Standard Retail Copay/Coinsurance with limited days supply

*If a plan chooses this option and does not utilize either a differential in cost-sharing or a differential in days supply for OON coverage, CMS' expectation is that the plan is monitoring for appropriate OON use with either a post authorization process or alternative review tool.

**CMS will pay the OON differential, as applicable, for appropriate OON purchases of covered Part D drugs for individuals receiving the low-income subsidy.

Basic/Enhanced Alternative Benefit Screens

Do you charge the Medicare-defined Part D Deductible amount?

Yes
 No, enter amount
 No Deductible

Enter Deductible Amount:

Does the Deductible apply to all tiers?

Yes
 No

Indicate each tier for which the deductible will NOT apply (select all that apply, please note that the deductible will not apply to any of the drugs on each tier selected):

Tier 1
 Tier 2
 Tier 3
 Tier 4
 Tier 5
 Tier 6

During the deductible phase, is the cost-sharing for drugs to which the deductible does not apply, the same as the Pre-ICL cost-sharing for all locations?

Yes
 No

Indicate the type of cost sharing structure for these drugs until the deductible is reached:

Coinsurance
 Copayment
 Greater of Coinsurance and Copayment
 Lesser of Coinsurance and Copayment

Enter Coinsurance percentage: Enter Copayment amount:

Indicate the Out-of-Network cost sharing structure for this plan:

Standard Retail Copay/Coinsurance (no differential)*
 Standard Retail Copay/Coinsurance plus a differential between the OON billed charge and the Standard Retail allowable**
 Standard Retail Copay/Coinsurance with limited days supply

*If a plan chooses this option and does not utilize either a differential in cost-sharing or a differential in days supply for OON coverage, CMS' expectation is that the plan is monitoring for appropriate OON use with either a post authorization process or alternative review tool.

**CMS will pay the OON differential, as applicable, for appropriate OON purchases of covered Part D drugs for individuals receiving the low-income subsidy.

Previous Next Exit (Validate) Exit (No Validate)

Do you offer reduced Part D cost sharing as part of your supplemental Part D Benefit?

Yes
 No

Indicate the area(s) throughout the Part D benefit where the reduced Part D cost sharing is reflected (select all that apply):

Reduced deductible
 Reduced pre-ICL cost shares
 Raised ICL
 Reduced post-threshold cost shares

Do you cover excluded drugs as part of your supplemental coverage (e.g., drugs used to treat erectile dysfunction)? (Enhanced Alternative ONLY).

Yes
 No

If you select "Yes" to "Do you cover excluded drugs as part of your supplemental coverage (e.g., drugs used to treat erectile dysfunction)?", you must indicate these specific medications in a flat file which must be uploaded through the Formulary Submission Module by Friday, June 7, 2019 at 11:59 am Eastern Time.

Do you offer additional cost-sharing reductions in the coverage gap?

Yes
 No

The beneficiary cost-sharing for the Defined Standard (DS) gap coverage benefit in CY 2020 is 25% for non-applicable (i.e., generic) drugs and 25% for applicable (i.e., brand) drugs. The coverage gap discount applies to applicable drugs for all benefit types and must be reflected in each plan's bid. The gap coverage section of the PBP is intended only for those enhanced alternative (EA) plans offering additional cost-sharing reductions in the coverage gap through a supplemental Part D benefit. Other benefit types will NOT enter gap coverage information in the PBP.

Additional reductions in gap cost-sharing offered by EA plans through a supplemental benefit represents cost-sharing that is significantly better than the defined standard cost-sharing benefits for generic and/or brand drugs that must be offered by all plans. When offering additional cost-sharing reductions for applicable drugs in the gap, the plan liability is first applied to the plan-negotiated price, followed by the manufacturer coverage gap discount for applicable beneficiaries.

Example: A sponsor intends to offer additional coverage in the gap such that the plan's liability for applicable drugs is 50% (100% minus 50% coinsurance). For drug with a plan-negotiated price of \$150, the plan liability is \$75, and the remaining \$75 will be shared by the manufacturer at 70% (\$52.50) and the beneficiary at 30% (\$22.50). By comparison, under the DS gap coverage for the same applicable drug, the manufacturer discount of 70% (\$105) is applied first, the beneficiary cost-sharing is 25% (\$37.50), and the plan's liability is 5% (\$7.50).

Consistent with guidance issued in the June 2, 2010 HPMS memo "Medicare Coverage Gap Discount Program Beginning in 2011: Additional Guidance Concerning Part D Supplemental Benefits, Employer Group Waiver Plans, Platino Plans, and Subrogation Claims," PBPs may not incorporate the coverage gap discount into their benefit design. Manufacturer payments count toward a beneficiary's out-of-pocket costs and as such are to be included in the cost-sharing entered into the PBP. In the case of either a coinsurance or copayment design, the amount the beneficiary pays at point of sale would be approximately 50% of the expected cost-sharing entered in the PBP for applicable drugs.

The maximum additional gap beneficiary cost-sharing for non-applicable drugs in CY 2020 is 15%. Since the manufacturer discount does not apply, the amount entered in the PBP and experienced by the beneficiary at point of sale is the same. The CY 2020 maximum additional gap cost-sharing for applicable drugs is 50%, which is inclusive of the 70% manufacturer discount. While the maximum beneficiary cost-sharing that should be experienced at the point of sale would be 15%, based on the above guidance, the PBP entry should reflect 50% cost-sharing, inclusive of the manufacturer discount.

Tier Label Description(s)

Standard Retail Cost-Sharing Component

Day Supply	1-Month	2-Month	3-Month	Extended Day Supply Applies to All Drugs?*	Limited First Fill for Extended Day Supply
Tier 1				Are all of the drugs on your formulary for this tier available with an extended day supply? <input type="radio"/> Yes <input type="radio"/> No	Are any of the drugs available at an extended day supply for this tier limited to a 1-month supply for the first fill? <input type="radio"/> Yes <input type="radio"/> No
	Standard Retail				
	Standard Retail/Preferred Retail				
Tier 2				Are all of the drugs on your formulary for this tier available with an extended day supply? <input type="radio"/> Yes <input type="radio"/> No	Are any of the drugs available at an extended day supply for this tier limited to a 1-month supply for the first fill? <input type="radio"/> Yes <input type="radio"/> No
	Standard Retail				
	Standard Retail/Preferred Retail				
Tier 3				Are all of the drugs on your formulary for this tier available with an extended day supply? <input type="radio"/> Yes <input type="radio"/> No	Are any of the drugs available at an extended day supply for this tier limited to a 1-month supply for the first fill? <input type="radio"/> Yes <input type="radio"/> No
	Standard Retail				
	Standard Retail/Preferred Retail				
Tier 4				Are all of the drugs on your formulary for this tier available with an extended day supply? <input type="radio"/> Yes <input type="radio"/> No	Are any of the drugs available at an extended day supply for this tier limited to a 1-month supply for the first fill? <input type="radio"/> Yes <input type="radio"/> No
	Standard Retail				
	Standard Retail/Preferred Retail				
Tier 5				Are all of the drugs on your formulary for this tier available with an extended day supply? <input type="radio"/> Yes <input type="radio"/> No	Are any of the drugs available at an extended day supply for this tier limited to a 1-month supply for the first fill? <input type="radio"/> Yes <input type="radio"/> No
	Standard Retail				
	Standard Retail/Preferred Retail				
Tier 6				Are all of the drugs on your formulary for this tier available with an extended day supply? <input type="radio"/> Yes <input type="radio"/> No	Are any of the drugs available at an extended day supply for this tier limited to a 1-month supply for the first fill? <input type="radio"/> Yes <input type="radio"/> No
	Standard Retail				
	Standard Retail/Preferred Retail				

*For example, if you chose a 2-month or 3-month supply at the Standard/Preferred Retail Cost-Sharing or the Mail-Order Pharmacy, you must answer "yes" to the question "Are all drugs on your formulary for this tier available with an extended day supply?" if all of the drugs on that tier are available at the extended day supply.

CY 2020 PBP Data Entry System Screens

Alternative – OOP Threshold

The screenshot shows a web-based data entry interface. At the top, the title bar reads "PBP Data Entry System - Section RX, Contract X0001, Plan 001, Segment 000". Below the title bar is a navigation menu with "File" and "Help" options. The main navigation area includes "Previous" (left arrow), "Next" (right arrow), "Exit (Validate)" (green checkmark), and "Exit (No Validate)" (red X). A "Go To:" dropdown menu is set to "Alternative - OOP Threshold".

The main content area is titled "Medicare-defined Part D Annual Out-of-Pocket Cost Threshold". Below this title is the question: "How do you apply your cost sharing beyond the Medicare-defined Part D Annual Out-of-Pocket Cost Threshold?". There are three radio button options: "No cost sharing", "Medicare-defined Post Threshold Cost Shares", and "Cost Share Tiers".

Below the radio buttons is another question: "Does this apply to the excluded drug only tier?". There are two radio button options: "Yes" and "No".

Are all of the drugs on your formulary available with an extended day supply?

 Yes
 No

Are any of the drugs available at an extended day supply limited to a 1-month supply for the first fill?

 Yes
 No

When you select a 2-month and/or a 3-month supply at a retail or mail order pharmacy, you must indicate whether or not all drugs on the entire FORMULARY are available with an extended day supply.

The beneficiary cost-sharing for the Defined Standard (DS) gap coverage benefit in CY 2020 is 25% for non-applicable (i.e., generic) drugs and 25% for applicable (i.e., brand) drugs. The coverage gap discount applies to applicable drugs for all benefit types and must be reflected in each plan's bid. The gap coverage section of the PBP is intended only for those enhanced alternative (EA) plans offering additional cost-sharing reductions in the coverage gap through a supplemental Part D benefit. Other benefit types will NOT enter gap coverage information in the PBP.

Previous Next Exit (Validate) Exit (No Validate)

Sponsors who utilize a coinsurance cost-share structure are required to enter the Average Expected Cost Sharing amount. The average expected costshare amount represents the average expected cost-sharing amount in dollars that a beneficiary would be expected to pay at a network retail pharmacy for a one month supply of drugs.

Average Expected Costsharing Attestation:

I attest that the value(s) entered have been reviewed by the plan's certifying actuary and are accurate.

Sponsors who choose to offer a dual eligible SNP with zero dollar cost-sharing under Part D must buy down the entire 25% actuarial equivalent cost-sharing amount using MA rebate dollars in the bid. Per Chapter 13 of the Medicare Prescription Drug Benefit Manual, sponsors do not have an option of only applying MA rebate dollars to the statutory patient pay amounts and receiving federal cost-sharing subsidies for the remainder.

Zero Dollar Cost Sharing Attestation:

I attest that it is the plan sponsor's intention to buy down the entire cost-sharing amount for the zero dollar cost-share tier(s) and this has been confirmed with the plan's certifying actuary.
