

Descriptive Study of the URM Program: Communications to Survey Respondents: State Refugee Coordinators

Advance email to State Refugee Coordinators

Dear [Name of State Refugee Coordinator],

MEF Associates and its partner, Child Trends, have been contracted by the Administration for Children and Families (ACF) in the U.S. Department of Health and Human Services to conduct a study to better understand the range of child welfare services and benefits provided through the Unaccompanied Refugee Minors (URM) program. The overarching goal of this project is to help inform program planning by the Office of Refugee Resettlement (ORR) and to lay the groundwork for a future evaluation of the impacts of the URM Program on youth who participate, including an exploration of long-term outcomes for URM youth. Understanding the services and benefits provided to URM youth is a critical step in this process.

A key part of this study is an online survey of all State Refugee Coordinators (SRCs) in states with a URM program to help us better understand services for URM youth in your state. We expect you will need to collaborate with 1-2 other people in your office to complete the survey, and we encourage you to do so! Your and your staff's participation in completing the survey will take about 30 minutes each, plus 10 minutes for each of you to review correspondence and instructions. It asks about URM program administration, partnerships, promising approaches, as well as data and evaluation efforts. Information you provide will **not** be shared with other SRCs or with URM programs, but the researchers **will** share responses with ACF and the Office of Refugee Resettlement. Your participation in this survey is completely voluntary, but it is important that we have as much input as possible to ensure an accurate portrait of URM programs across the country.

You can expect to receive an email from the study team soon providing you with a link to a web-based survey form. The email will be sent from [sender] with the subject line [subject line]. The email will also contain contact information for the study team in case you have any questions or concerns about the survey. Thank you in advance for your assistance in completing this survey. With your help, we will have better information about the services and benefits provided to URM youth across the nation.

Sincerely,

[Name, title]
