

PRIVACY THRESHOLD ANALYSIS (PTA)

This form serves as the official determination by the DHS Privacy Office to identify the privacy compliance requirements for all Departmental uses of personally identifiable information (PII).

A Privacy Threshold Analysis (PTA) serves as the document used to identify information technology (IT) systems, information collections/forms, technologies, rulemakings, programs, information sharing arrangements, or pilot projects that involve PII and other activities that otherwise impact the privacy of individuals as determined by the Chief Privacy Officer, pursuant to Section 222 of the Homeland Security Act, and to assess whether there is a need for additional Privacy Compliance Documentation. A PTA includes a general description of the IT system, information collection, form, technology, rulemaking, program, pilot project, information sharing arrangement, or other Department activity and describes what PII is collected (and from whom) and how that information is used and managed.

Please complete the attached Privacy Threshold Analysis and submit it to your component Privacy Office. After review by your component Privacy Officer the PTA is sent to the Department's Senior Director for Privacy Compliance for action. If you do not have a component Privacy Office, please send the PTA to the DHS Privacy Office:

Senior Director, Privacy Compliance
The Privacy Office
U.S. Department of Homeland Security
Washington, DC 20528
Tel: 202-343-1717

PIA@hq.dhs.gov

Upon receipt from your component Privacy Office, the DHS Privacy Office will review this form and assess whether any privacy compliance documentation is required. If compliance documentation is required – such as Privacy Impact Assessment (PIA), System of Records Notice (SORN), Privacy Act Statement, or Computer Matching Agreement (CMA) – the DHS Privacy Office or component Privacy Office will send you a copy of the relevant compliance template to complete and return.

Specialized Template for Information Collections (IC) and Forms

The Forms-PTA is a specialized template for Information Collections and Forms. This specialized PTA must accompany all Information Collections submitted as part of the Paperwork Reduction Act process (any instrument for collection (form, survey, questionnaire, etc.) from ten or more members of the public). Components may use this PTA to assess internal, component-specific forms as well.

SPECIFIC IC/Forms PTA QUESTIONS

1. Purpose of the Information Collection or Form

- a. Describe the purpose of the information collection or form. *Please provide a general description of the project and its purpose, including how it supports the DHS mission, in a way a non-technical person could understand (you may use information from the Supporting Statement).*
If this is an updated PTA, please specifically describe what changes or upgrades are triggering the update to this PTA.

USCIS is submitting this PTA to document a new information collection instrument – H-1B Cap Registration Tool.

Overview:

USCIS receives and adjudicates petitions and applications for all immigration benefits, including petitions by U.S. employers seeking nonimmigrant worker status for aliens. More specifically, USCIS administers and adjudicates H-1B nonimmigrant petitions, which are filed by employers (hereinafter referred to as petitioners) to employ foreign workers in specialty occupations that require theoretical or practical application of highly specialized knowledge and attainment of a bachelor’s or higher degree in the specialty. Typical H-1B occupations include architects, engineers, computer programmers, accountants, doctors, and college professors, among others.

Petitioners seeking benefits for an alien (hereinafter referred to as beneficiary) under the H-1B nonimmigrant classification are subject to congressionally-mandated annual numerical limits, known as the H-1B cap. Caps control the number of workers that can be issued a visa and/or receive H-1B classification in a given fiscal year. By law, USCIS cannot grant more than 65,000 new H-1B visa petitions per fiscal year subject to certain limited exceptions (“65,000 cap”). An exemption applies to the first 20,000 H-1B petitions filed on behalf of an alien who has attained a U.S. master’s degree or higher (“20,000 cap”). This means, in effect, 85,000 visas are available.

Historically, USCIS received more petitions than available slots and reached the H-1B cap within days of opening the H-1B filing period for the new fiscal year. In the event USCIS anticipates that the H1B filings will exceed the cap, USCIS announces to the public a final date on which it will accept H-1B petitions from petitioners. This date has been as early as the first day after USCIS began accepting H-1B petitions for the upcoming fiscal year. USCIS then administers a random lottery to ensure the fair and orderly distribution of available H-1B cap numbers. Properly submitted petitions undergo a random selection process to determine which petitions can be processed to completion and, if otherwise eligible, which beneficiaries are able to receive a new H-1B visa number.

H-1B Registration Tool

USCIS plans to implement a mandatory registration process known as the H-1B Registration Tool. Petitioners will be able to register prospective beneficiaries for random selection instead of filing a full petition through the myUSCIS Account Experience. USCIS amended its regulations via the rulemaking process to provide an alternate H-1B petition filing procedure to streamline and simplify the process for petitioners subject to H-1B numerical limits. This amendment establishes the mandatory electronic registration requirement requiring petitioners to register in order to participate in the random selections.

The H-1B Registration tool will allow petitioners to register for the lottery, while being less cumbersome and require fewer beneficiaries PII than filing a complete H-1B petition. USCIS plans to collect information about the H-1B petitioner, designated user, and prospective beneficiary. The H-1B Registration Tool [OMB Control No.1615-0144] is to collect the following information:

The H-1B petitioner is an employer seeking to hire a beneficiary under the H-1B classification. The petitioner or the petitioner's agent may complete the H-1B Cap Registration. Information about the H-1B petitioner and/or its designated agent includes the:

- Organization name
- Full name of contact person
- Title of contact person
- Email address
- Telephone number
- Mailing address (includes street address, city, state, province, and zip code)
- Employee Identification Number (EIN)

The H-1B beneficiary is the alien seeking H-1B classification. Information about the beneficiary includes his or her:

- Full name
- Date of birth
- Country of birth
- Country of citizenship
- Passport number
- Gender
- Category – cap or exemption

Petitioners of selected registration forms will be eligible to file complete H-1B petitions for the upcoming fiscal year on behalf of the beneficiary named in the registration.

The H-1B Registration Tool does not alter the process for processing and adjudicating H-1B petitions (i.e., Form I-129), which USCIS will continue to process and adjudicate as described in the Computer Linked Application Information Management System and Associated Systems (CLAIMS 3) PIA and Benefits Information System (BIS) system of records notice (SORN).

Relevant IT System:

The H-1B Registration Tool will be available for electronic submission of information and is the only method by which information can be transmitted to USCIS.

- b. List the DHS (or component) authorities to collect, store, and use this information. *If this information will be stored and used by a specific DHS component, list the component-specific authorities.*

USCIS needs the information collected through this form and accompanying supplements to determine whether the petitioner and foreign national beneficiary(ies) is (are) eligible for the nonimmigrant classification. The statutory authority is section 101(a)(15) and 214(c)(1); 8 U.S.C. 1101(a)(15) and 1184(c)(1) of the Immigration and Nationality Act (Act) and the regulatory authority is 8 CFR 214.2 (h)(2)(i)(A). A U.S. employer, or agent in some instances, may file a petition for nonimmigrant worker to employ foreign nationals under the H-1B nonimmigrant classification.

Component Privacy Office Recommendation: <i>Please include recommendation below, including what existing privacy compliance documentation is available or new privacy compliance documentation is needed.</i>	
<p>The USCIS Office of Privacy plans to memorialize the H-1B Cap Registration initiative in three separate PTAs to independently evaluate the Final Rule, the information collection Request, and the IT system being developed to support the H-1B Cap Registration initiative. This privacy compliance approach is to fulfill the privacy requirements for the respective rulemaking, Paper Reduction Act (PRA), and Federal Information System Management System Act (FISMA) processes. The purpose of this PTA is to assess the privacy impact of the information collection request and describe the PII that is collected and how that information is used by USCIS.</p> <p>The USCIS Office of Privacy recommendation is to designate the H-1B Cap Registration Tool as a privacy sensitive information collection instrument requiring PIA and SORN coverage. The USCIS Office of Privacy recommendation is to require a PIA Update to the myUSCIS Account Experience PIA. Further, the DHS/USCIS-007 BIS SORN covers the collection and use of information. USCIS plans to update the PIA prior to the implementations of the H1-B cap registration and implementation guidelines.</p>
