element		
Modified categories for 1 data element	Initial Mammogram Screening Result (6.05)	Combining 2 categories to simplify reporting
Modified categories for 1 data element	MDE Version Number (6.09)	Added a category for MDE version 7
Added		
Added 6 data elements to report breast and cervical cancer stage groups	Breast TNM Pathologic stage group (new) Cervical TNM Pathologic stage group (new) (NAACCR #1014) Breast TNM Clinical stage group (new) Cervical TNM Clinical stage group (new) (NAACCR #1004) Breast TNM Edition number (new) Cervical TNM Edition number (new) (NAACCR #1060)	NPCR required fields as of 2016 cases
Added 2 data elements to assess woman's risk for cancer	Risk for Breast Cancer (new) Risk for Cervical Cancer (new)	Reporting will provide context needed to assess who the program serves and evaluate service outcomes
Added 1 data element to collect data on women receiving patient navigation	Patient Navigation Service paid (new)	Reporting will provide details on women receiving patient navigation services
Added 1 data element to assess purpose of HPV test	Indication for HPV test (new)	Distinguish cervical screening test as outlined by clinical guidelines.
