	Question				Answe	er			
1	OPDIV:		CDC	CDC					
2	PIA Unique Identifier:			ТВО					
2a	Name:		Mini	mum Data Eleme	ents (MDEs) fo	or the	National Br	east and C	er
3	3 The subject of this PIA is which of the following?			 General Support System (GSS) Major Application Minor Application (stand-alone) Minor Application (child) Electronic Information Collection Unknown 					
3a	Identify the Enterprise Performance Lifecycle Phase of the system.			Initiation					
3b	b Is this a FISMA-Reportable system?				○ Yes● No				
4	Does the system include a Website or onli application available to and for the use of public?				○ Yes ● No				
5	Identify the operator.				Agency Contract				
6	Point of Contact (POC):			POC Title POC Name POC Organizati POC Email POC Phone	Health So Dara Sch on NCCDPH sax9@cdo 404-498-	luete P/DC c.gov	r PC		
7	Is this a new or existing system?				NewExistir	ng			
8	Does the system have Security Authorizat	ion (SA)?	_		○ Yes● No	_			
8b	Planned Date of Security Authorization			tbd	🗌 Not Appl	licable	e		

8c	Briefly explain why security authorization is not required	
10	Describe in further detail any changes to the system that have occurred since the last PIA.	N/A, there was no prior PIA.
11	Describe the purpose of the system.	CDC will collect "Minimum Data Elements" (MDEs) from the 70 grantees participating in the CDC-funded National Breast and Cervical Cancer Early Detection Program (NBCCEDP). The MDEs are patient-level data on the delivery of screening and diagnostic clinical services through the program. Information will be used by CDC to monitor and evaluate the NBCCEDP, provide feedback to grantees for program improvement, provide summary data to stakeholders on outcomes, and inform program planning.
12	Describe the type of information the system will collect, maintain (store), or share. (Subsequent questions will identify if this information is PII and ask about the specific data elements.)	The MDEs include seven categories of elements: 1. Patient demographics (race/ethnicity, date of birth (to calculate age), location codes of residence) 2. Breast cancer screening 3. Cervical cancer screening 4. Breast and cervical cancer diagnoses 5. Breast and cervical cancer treatment 6. Timeliness of services 7. Patient navigation
13	Provide an overview of the system and describe the information it will collect, maintain (store), or share, either permanently or temporarily.	Grantees report aggregate cancer screening and diagnostic follow-up data. Data elements are limited to those needed to adequately monitor program performance in screening and timely links to treatment for the populations served by NBCCEDP. Analysis of the data is conducted to assess how well the program is meeting its goals. CDC uses this information for decision-making in program management. Grantee respondents receive customized feedback from CDC. Program summary information and NBCCEDP aggregate results (e.g., performance ranges) will be shared across programs for grantees to compare performance to the NBCCEDP as a whole. CDC will periodically prepare reports on aggregated data for Congress and publication. Individual-level data will not be reported.
14	Dess the system collect maintain use or show DUD	 Yes
14	Does the system collect, maintain, use or share PII ?	⊖ No
