Good morning Tessa,

Thanks! We have reviewed the attachment and have determined that both Privacy Act and PII are not applicable. Please let us know if you have any questions or need any additional information.

Very Respectfully,

Subject: IT review for OMB Fast Track

Hi Danny,
I'm requesting review of the attached OMB fast track package. The purpose of this information collection is for usability testing of NCIPC websites. We will not collect PII, including IP addresses. The usability test will be run by a third party vendor through their platform that will not interface with any CDC platforms.

If you have any questions, please let me know.
