8c	Briefly explain why security authorization is not required	This is a new electronic data collection.
10	Describe in further detail any changes to the system that have occurred since the last PIA.	N/A
11	Describe the purpose of the system.	The Raising Healthy Boy's (RHB) data collection is used for recruitment and screening to determine if participants meet study criteria. The contractor and data owner will collect the de-identified data, consisting of questions and answers pertaining to what it takes for parents to raise health boys in a household. This data is collected in a focus group conducted by the contractor.
12	Describe the type of information the system will collect, maintain (store), or share. (Subsequent questions will identify if this information is PII and ask about the specific data elements.)	All data collected during the focus group will be de-identified and will not contain PII. It will contain focus group questions based off of a study on the duties, responsibilities, events, and situations families experience while raising healthy males in a household. The data has already been collected by the contractor, we will just be analyzing that data. The data will not be kept; it will be disposed of after the analysis is done. The data is already de-identified when we receive it.
13	Provide an overview of the system and describe the information it will collect, maintain (store), or share, either permanently or temporarily.	The data collection (RHB) will be collecting de-identified data consisting of focus group questions pertaining to what it takes to raise healthy boy in a household. All data has been collected and stored on the contractor's servers. The contractor will store it in a database on a secure server with password protection, and can only be accessed by employees. The contractor will destroy all data after focus groups are finished and the study is over, and will not contact participants following the focus group. There is no PII being collected in this data collection.

14 Does the system collect, maintain, use or share PII? Yes No
