INTRODUCTION

The Office of Planning, Research, and Evaluation within the U.S. Department of Health and Human Services, Administration for Children and Families (ACF) has contracted with Mathematica Policy Research to complete an evaluation of programs offered by selected Healthy Marriage/Relationship Education (HMRE) grantees funded by the Office of Family Assistance. The evaluation will describe the interventions that grantees put into place, the resources available to support them, and their impacts.

You are asked to complete this survey because you were identified as a staff member who works directly with HMRE participants. Your participation is important to helping us understand the characteristics of the staff and organizations implementing HMRE programs.

Participation in the survey is completely voluntary and you may choose to skip any question. Your responses will be kept private and used only for research purposes. They will be combined with the responses of other staff and no individual names will be reported. While there are no direct benefits to participants, your participation will help the U.S. Department of Health and Human Services learn how to better teach youth and adults healthy relationship skills. There is minimal risk related to taking part in this study. In the unlikely event of a data breach, your participation in the evaluation could become known.

The length of this survey is different for different people, but on average it should take about 30 minutes. Not all response options may apply to you or your organization. Please choose the best answer to each question. You may also choose not to answer any question.

If you have any questions about the survey, please contact the team at Mathematica by calling 1-xxx-xxx-xxxxx (toll-free) or emailing xxxxxxxx@mathematica-mpr.com.

Thank you for taking part in this survey. By completing the survey and submitting your responses, you are confirming that you understand the information you provide will be kept private, used only for research purposes, and that your answers will be combined with the responses of other staff so that no individuals are identified. Please print a copy of this consent screen for your future reference.

11. Could you please confirm whether you work for [HMRE PROGRAM] at [ORGANIZATION]?

MARK ONE ONLY

1 Yes, I work for [HMRE PROGRAM] at [ORGANIZATION]

B. USING AN EVIDENCE-BASED PROGRAM

B1. The following statements give feelings someone might have about using a new intervention. By an intervention, we mean a program with specific components or guidelines that are meant to be followed in a set way. An intervention could be described in a manual and protocols or explained in a training.

How much do you agree with each statement about using new interventions?
