**Suggestions**

### Welcome to eWell Permitting and Reporting System

BSEE is entering the world of online data exchange with business partners across the country. Electronic data submissions are a growing, vital part of the BSEE's mission.

The use of electronic business (E-business) tools will greatly reduce the time involved in processing information, reduce the errors incurred during the data input process, and reduce the overall cost of doing business for both the Oil and Gas Industry and the Federal Government.

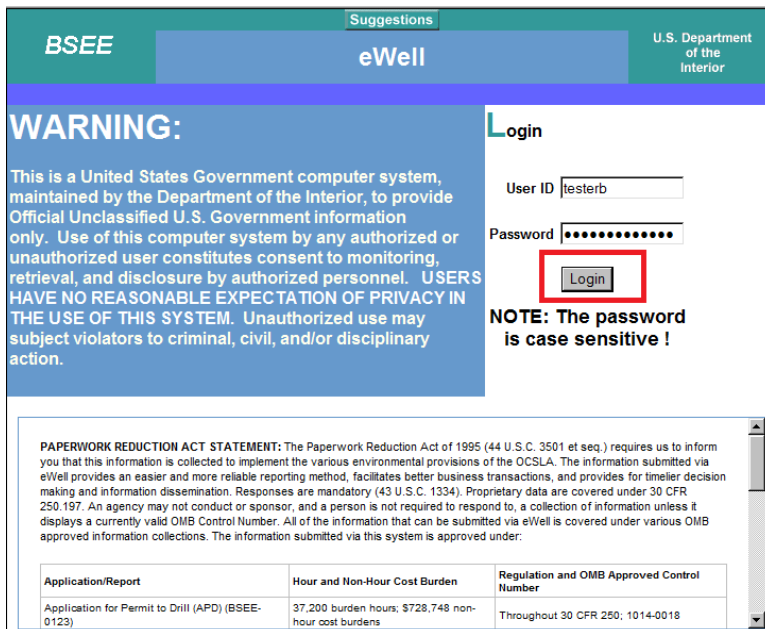

Many types of information (business objects) are submitted to the government agency on a daily basis, requiring significant human intervention. Working jointly with industry representatives and other regulatory agencies, BSEE is testing solutions that provide both a standard regulatory reporting format and a more direct interface with our databases.

**PAPERWORK REDUCTION ACT STATEMENT:** The Paperwork Reduction Act of 1995 (44 U.S.C. 3501 et seq.) requires us to inform you that this information is collected to implement the various environmental provisions of the OCSLA. The information submitted via eWell provides an easier and more reliable reporting method, facilitates better business transactions, and provides for timelier decision making and information dissemination. Responses are mandatory (43 U.S.C. 1334). Proprietary data are covered under 30 CFR 250.197. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB Control Number. All of the information that can be submitted via eWell is covered under various OMB approved information collections. The information submitted via this system is approved under:

Application/Report	Hour and Non-Hour Cost Burden	Regulation and OMB Approved Control Number
Application for Permit to Drill (APD) (BSEE-0123)	37,200 burden hours; \$728,748 non-hour cost burdens	Throughout 30 CFR 250; 1014-0018

Select the OCS Region and lease operator for which you need to conduct business.

Hurricane Platform Damage Report

## Platform Damage Reports

Incident Date	Storm ( year )	Area/Block	Structure Name	Complex Id Number	Structure Number	Structure Type	Status	Status Date
---------------	----------------	------------	----------------	-------------------	------------------	----------------	--------	-------------

### Select Platform Structure

( NOTE: You MUST select a platform in order to create the Platform Damage Report )

	Area/Block	Complex Id Number	Structure Number	Structure Name	OCS Authority	Structure Type
<input style="border: 2px solid red;" type="radio"/>	MC 409	25	1	#2 (JC)	G25088	Fixed Leg Platform
<input type="radio"/>	MC 409	24110	1	A	G25088	Fixed Leg Platform
<input type="radio"/>	MC 409	21	1	D	G25088	Tension leg platform

( NOTE: You MUST select a platform structure in order to create the Platform Damage Report )

NOTE: Platform structures are sorted by area, block, complex id number, and structure number. Please select the platform structure and press [Select] button to continue.

### Select Storm NOTE: You MUST select a storm to create a new report (it can be changed once the report is created).

( NOTE: You MUST select a storm in order to continue )

Storm Year	Storm Name	Select
2013	Unnamed Storm	<input style="border: 2px solid red;" type="radio"/>

( NOTE: You MUST select a storm in order to continue )

NOTE: Storms are sorted by year in Alphabetical order. Please select the storm and press [Select] button to continue.

General Information									
Date of Incident ( mm/dd/yyyy )*				4/11/2014					
Name of Hurricane or Tropical Storm*				Unnamed Storm (2013)					
Water Depth*				5650 feet					
Distance from Shore*				18 miles					
Name:*									
Phone:*				Cell <input type="text"/>					
				<input type="button" value="Contact Information"/>					
Platform Identification*				Platform Location*					
Complex ID	Str NO	Name	Type	Lease	Area	Block	Latitude	Longitude	
25	1	#2 (JC)	Fixed Leg Platform	G25088	MC	409	28.55632182	-89.31442927	
Platform Destroyed?		Platform Fully Submerged?		Fire on the Platform?		Damage to any Process Equipment?
