Minor Organizational Subdivision: Office of Workers' Compensation Programs

Name of Unit: Division of Federal Employees' Compensation

Access Constraints: This is a system of records under the Privacy Act. Information in the system may be exempt from disclosure under provisions of the Privacy Act.

Use Constraints: None

Abstract: The Federal Employees' Compensation System is a system of records in support of the Federal Employees' Compensation Act. The system of records contains data on claims filed under the Act and on benefit payments made to or on behalf of eligible injured workers who have filed claims under the Act.

Purpose: The FECS was developed to store data related to the filing of claims under the Federal Employees' Compensation Act. This system of records is used in the daily processing of claims and for the production of both management and operational reports related to the processing of injury compensation claims.

Agency Program: The FECS was developed to support the adjudication of claims filed under the Federal Employees' Compensation Act.
