SUPPLEMENTARY INFORMATION: The Office of Emergency Communications (OEC), formed under Title XVIII of the Homeland Security Act of 2002, 6 U.S.C. 571 *et seq.*, as amended, provides emergency communications-related technical assistance at no charge to State, regional, local, and tribal government officials. To receive this technical assistance, stakeholders must submit a request form identifying their priorities. In order for OEC to assess the value of the services it provides through technical assistance, an evaluation form is also requested of those receiving technical assistance.

OEC uses the Technical Assistance Request Form (DHS Form 9043) to identify the number and type of technical assistance services needed by the State, territory, local, and tribal agencies. This information enables OEC to plan and align resources accordingly. OEC considers each request based on the priority indicated by the State, as well as the anticipated impact of the service offering on the implementation of the Statewide Communication Interoperability Plan (SCIP) and the applicability to National Emergency Communications Plan (NECP). The evaluation form (DHS Form 9042) is completed by stakeholders at the completion of OEC technical assistance services and enables OEC to assess the quality of technical assistance services provided and, in a holistic fashion, measure the value of the services. The information collected through these evaluations is used by OEC for continued improvement planning.

Approximately 100 percent of request and evaluation forms are submitted

electronically by logging into the portal at <https://www.dhs.gov/ictapscip-resources>. From the website, users are able to select the appropriate form, either the Technical Assistance Requests (DHS Form 9043) and/or the TA Evaluation forms (DHS Form 9042), to complete as a fillable PDF. Each form is then submitted by email to either TARequest@hq.dhs.gov or TAevaluations@hq.dhs.gov, respectively.

The changes to the collection since the previous OMB approval include: Updating the web address, decreasing the estimated number of responses, decreasing the burden time, and increasing the cost estimates.

This is a renewal of an information collection.

OMB is particularly interested in comments that:

1. Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
2. Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
3. Enhance the quality, utility, and clarity of the information to be collected; and
4. Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submissions of responses.
