* This symbol indicates that the information is required by 10 CFR 37.77(b). The other items are voluntary but are requested by the U.S. Nuclear Regulatory Commission (NRC) to enable it to provide more accurate and detailed information for any emergency response.

Note that the preferred notification method to the NRC is through the Operations Center by e-mail or facsimile at least 4 days before the scheduled shipping date. The notification to the NRC may be made by e-mail to RAMQC_SHIPMENTS@nrc.gov or by fax to (301) 816-5151. Shippers should coordinate with States as indicated in 10 CFR 37.77(a). The NRC requests that the shipper also notify the agency with a confirmation of the departure date within 1 day after the actual shipment departure and with a confirmation of the arrival date within 1 day after the actual arrival.

Under 10 CFR 37.77(c)(1), any change in the shipment information supplied above must be provided to the States and the NRC as soon as the information becomes available but before the commencement of the shipment. Under 10 CFR 37.77(c)(2), notification of changes to the shipment schedule while the shipment is in transit must be made immediately to the NRC Operations Center and the appropriate States.
