
**Justification for an Information
Collection under the U.S. Department of
Agriculture, Forest Service's Federal
Lands Transportation Generic Clearance
(OMB Control No. 0596-0236)**

April 2015

Introduction: Federal Lands Transportation Generic Clearance Submission, OMB Control Number 0596-0236

The Federal Lands Transportation Generic Clearance is intended to help Federal Land Management Agencies (FLMAs) measure visitors' transportation-related experiences in order to improve on any transportation-related issues or problems and to promote planning across land units, regionally and nationally. Each FLMA (U.S. Forest Service (USFS), National Park Service (NPS), U.S. Fish and Wildlife Service (FWS), Bureau of Land Management (BLM), and U.S. Army Corps of Engineers (USACE)) has representatives on the planning team formed to establish the generic clearance.

A brief overview of the steps involved in submitting an Information Collection Request (ICR) is provided below. For more detailed information, along with a list of bureau/office contacts, please see the Best Practices and Guidance document developed specifically for this generic clearance [\[INSERT LINK\]](#).

1. If more than one bureau/office (e.g., FWS and BLM) is collaborating on an IC, the partners must select a "lead" bureau/office to spearhead the effort, along with a contact person from the lead bureau/office.
2. The Information Collection Clearance Officer (ICCO) from the lead bureau/office must review the ICR and provide feedback to the lead bureau/office contact.
3. After the ICCO review has been completed (including a review by the DOI Information Collection Clearance Coordinator), the ICCO must forward the ICR to the USDA Forest Service and copy the FLMA Generic Clearance Coordinator (for contact information, see: [\[INSERT LINK TO BEST PRACTICES\]](#))
4. After the Forest Service ICCO review, the USDA Departmental Clearance Officer submits the ICR to the OMB desk officer for the Forest Service via ROCIS.
5. The OMB desk officer reviews the ICR and provides comments. The lead bureau/office revises the ICR as necessary. Upon approval by OMB, a Notice of Action is issued.

Instructions for Completing the Justification Form

1. Information Collection (IC) Title/Date Submitted to the U.S. Department of Agriculture (USDA) Forest Service, Office of Regulatory and Management Services: Insert title for the proposed IC (e.g., survey, focus group, comment card, etc.). Insert date that the expedited approval package will be submitted to Forest Service. Reminder: Please submit the package through the lead bureau/office Information Collection Clearance Officer and copy the FLMA Generic Clearance Coordinator.
2. Lead Bureau/Office: Insert the name of the lead bureau/office conducting the survey.
3. Abstract: Summarize the proposed study with an abstract not to exceed 150 words.
4. Bureau/Office Point of Contact Information: Complete the bureau/office contact information. Forest Service will communicate with OMB initially and then direct them to the point of contact listed here (and to the IC Clearance Officer listed in #6 below) throughout the remainder of the approval process. Forest Service should be included on any correspondence pertaining to this IC.
5. Principal Investigator (PI) Conducting the IC: Complete information about the PI who will be conducting the IC, if different than Point of Contact listed in #4. Otherwise note: Same as #4.
6. Lead bureau/office IC Clearance Officer Reviewing the IC: Provide the name and contact information for the ICCO from the lead bureau/office who reviewed the IC.
7. Description of population/potential respondents: Provide a brief description of the population/potential respondents from whom the information will be collected.

8. IC Dates: List the time period in which the IC will be conducted, including specific starting and ending dates. The starting date should be at least 45 days after the submission date. The request for expedited approval, and submission of a complete and accurate approval package, must be made at least 45 calendar days prior to the first day the PI wishes to begin the IC.
9. Type of IC Instrument: Check the type(s) of information collection instrument(s) that will be used. If other, please explain.
10. Data Collection Instrument: Explain how the data collection instrument (e.g., survey, interview guides, discussion guides, etc.) was developed. With whom did you consult during the development on content? Who were the social science and/or statistical experts who reviewed the instruments? How did you address any concerns raised or improvements suggested? Did you pretest the data collection instrument? If yes, how did you address any concerns raised or improvements suggested? (Note: A description of any pre-testing and peer review of the methods and/or instrument is highly recommended.)
11. Which of the five topic areas from the Compendium of Questions will be addressed in your IC? Check all that apply. For each question in your survey (or discussion guide or comment card), please indicate the Compendium Topic Area and the unique question identifier from the Compendium. For any questions that are not taken from the Compendium, please indicate "NEW" in the table.

Sample table:

Survey Question Number	Compendium Topic Area	Compendium Question Identifier
Q1	#1- Respondent characteristics	GROUP1
Q2	#1- Respondent characteristics	VHIS7
Q3	#2 Traveler Information	TINFO1
Q4	#2 Traveler Information	NEW
Etc.		

12. Methodology: Explain how the IC will be conducted. Provide a description of the methodology including: (a) How will the users/visitors be sampled? (if fewer than all users/visitors will be surveyed); (b) What percentage of users/visitors asked to participate will respond, and (c) What actions are planned to increase the response rate? If statistics are generated, this description must be specific and include each of the following:
 - The respondent universe,
 - The sampling plan and all sampling procedures;
 - How the instrument will be administered;
 - Expected response rate and confidence levels; and
 - Strategies for dealing with potential non-response bias.

Note: Web-based surveys are not an acceptable method of sampling a broad population. If a survey is completely web-based, it must be limited to services provided by the web site. However, it is appropriate to use web-based surveys in combination with other methods, such as an in person intercept.
13. Total Number of Initial Contacts and Expected Number of Respondents: Provide an estimated total number of initial contacts and the total number of expected respondents.

14. Estimated Time to Complete Initial Contact and Time to Complete Survey Instrument: Estimate the time to complete the initial contact and the time to complete the information collection (e.g., survey, comment card, focus group, etc.)(in minutes).

15. Total Burden Hours: Provide the total number of burden hours. The total burden hours should account for the amount of time required to instruct the respondents and the amount of time required for the respondent to complete the survey (or other data collection mechanism).

16. Reporting Plan: Provide a brief description of the reporting plan for the data being collected.

17. Justification, Purpose and Use: Provide a brief justification for the information collection, its purpose, goals, and utility to managers. Specifically, describe how data will be tabulated and what statistical techniques will be used to generalize the results to the entire user population. Describe how data from the survey will be used. Describe how you will acknowledge any limitations related to the data, particularly in cases where we obtain a lower than anticipated response rate. Note whether or not the information collection is intended to measure a Government Performance and Results Act (GPRA) performance measure.

Instructions for Checklist

Review the checklist to ensure you have met the requirements for submission and that your approval package includes the required items.

Instructions for Certification Form:

Complete the Form and include the names of those who certify that the Justification Form meets the requirements of the generic clearance (OMB control number 0596-0236).

Justification for Submission under Federal Lands Transportation Generic Clearance (OMB Control Number 0596-0236)

U.S. Department of Agriculture-Forest Service Office of Regulatory and Management Services	Forest Service Tracking Number: (for internal use only)
--	---

		Date Submitted to Forest Service/USDA:	8/14/17
1.	IC Title:	Presidio Residential Transportation Survey 2017	
2.	Bureau/Office:	Presidio Trust	

3.	<p>Abstract: (not to exceed 150 words)</p> <p>The purpose of this survey is to measure the travel patterns of the 3,000 residents that lease housing in the Presidio. The Presidio is a former army base and now is a 1,491 acre park, part of the Golden Gate National Recreation Area. The Presidio Trust, a Federal Land Management Agency, oversees 80% of the Presidio (Area B) and the coastal areas are managed by the National Park Service (Area A). All the residential properties in the Presidio are a part of Area B.</p> <p>A similar survey was conducted in 2000 and since then, several transportation projects have been completed including a parking management system and shuttle with regional transportation connections. The survey will be conducted using an online survey builder, Survey Monkey. The survey link will be distributed to residents via email. The Presidio Residents email list, managed on MailChimp, has approximately 2,200 subscribers with a 39% open rate. The results of this survey will help measure the success of current programs and will help inform future projects and funding. These future projects may include the expansion of dynamic parking pricing, shuttle schedules and routes, carpooling and vanpooling incentives and pedestrian and cyclist infrastructure or facilities.</p>

First Name: Amy					
Last Name: Marshall					
Title: Transportation Manager					
Phone: 415-561-5393					
Email: amarshall@presidiotrust.gov					
7.	Description of Population/Potential respondents	The Presidio Trust, through their leasing office Presidio Residences, leases out restored Army housing to the public. There are 1,100 residences in 22 different neighborhoods around the park. The housing units range between single occupancy rooms to large, detached homes. A small amount of housing is reserved for Presidio-based employees at a discounted rate. During the last survey, 20% of respondents lived and worked in the Presidio. The rest of the housing is leased to the public at a market rate price. There is also a community of about 100 formerly homeless veterans that will be included in the survey.			
8.	IC Dates	(mm/dd/yyyy)	to	(mm/dd/yyyy)	
		09/18/17		10/18/17	
9. Type of Information Collection Instrument (Check ALL that Apply)					
<input type="checkbox"/> Intercept	<input type="checkbox"/> Telephone	<input type="checkbox"/> Mail	<input checked="" type="checkbox"/> Web-based	<input type="checkbox"/> Focus Groups	<input type="checkbox"/> Comment Cards
<input type="checkbox"/> Other	Explain:				

10. Instrument Development:

(Who assisted in content development? Statistics? Was the instrument pretested? How were improvements integrated?)

This survey was modelled off the last residential survey that was conducted in 2000. This was done intentionally so that the results could be compared, specifically the results as they relate to the transportation mode split. The results of the previous survey were analyzed and influenced the decision to develop a parking management program and the shuttle service to downtown San Francisco. The downtown shuttle now has an average weekday ridership of 1500 passengers, which has presumably reduced the number of drive-alone trips to/from the Presidio.

The newest version of this survey was developed by the Presidio Trust Transportation Department and it was reviewed by several key members of the Presidio Trust. It has been pre-tested by seven Presidio Trust employees that also live within the Presidio. Margaret Petrella of the Volpe Center also provided pivotal feedback during the development of this survey.

11. Which of the five areas from the Compendium of Questions will be addressed in your IC? (Check all that apply).

- ✓ Topic Area #1: Respondent characteristics
- ✓ Topic Area #2: Traveler Information
- ✓ Topic Area #3: Trip behaviors
- ✓ Topic Area #4: Assessment of Visitor Experiences and Transportation-Related Facilities, Conditions, and Services
- ✓ Topic Area #5: Economic Impact and Visitor Spending/Costs

In addition, for each question in your survey instrument (or discussion guide, comment card, etc), please indicate the Compendium Topic Area and the unique question identifier from the Compendium. If the question is not taken from the Compendium, indicate "NEW". See the instructions for a sample table.

Survey Question Number	Compendium Topic Area	Compendium Question Identifier
Q1	#1 Respondent characteristics	NEW
Q2	#1 Respondent characteristics	HOU1*: Original Question: How many people are in your household? This question has been modified to specifically ask about how many adults live in the household.
Q3	#1 Respondent characteristics	HOU4
Q4	#2 Traveler Information	NEW
Q5	#2 Traveler Information	NEW
Q6	#2 Traveler Information	NEW
Q7	#1 Respondent characteristics	EMP3
Q8	#3 Trip Behaviors	NEW
Q9	#2 Traveler Information	RES7*: Original Question: Home postal or ZIP CODE: _____ This question has been changed to ask about the respondent's work zip code.
Q10	#2 Traveler Information	RES8*: Address: _____ This question has been modified to ask about the respondent's work address (if they live in the Presidio).
Q11	#3 Trip behaviors	RES11*: Original question: About how far from home did you travel for this trip? This question has been modified to ask about the distance between the employee's

		workplace and home.
Q12	#3 Trip behaviors	NEW
Q13	#3 Trip behaviors	TRANUSE4* Original question: How did you reach [site name]? (check only one) This question has been changed to specifically ask about the mode of travel the respondent used for the great distance below. It also asks the respondent to report for each day of the week to account for those who may vary their commute day by day.
Q14	#3 Trip behaviors	TRANUSE4* Original question: How did you reach [site name]? (check only one) This question has been modified to specify the respondent's second mode of transportation (if applicable).
Q15	#3 Trip behaviors	TDUR10*: Original question: At approximately what time did you arrive at [X today? (Enter time) This question has been modified to ask about when the respondent usually arrives at work.
Q16	#3 Trip behaviors	NEW
Q17	#3 Trip behaviors	NEW
Q18	#4 Assessment of Visitor Experiences	NEW
Q19	#2 Traveler Information	SHPREF1*: Original question: Overall, what is your attitude toward the use of alternative transportation for visitor travel once inside [X], which includes modes of travel other than private automobiles, such as bicycle, bus, boat, carriage, ferry, train, tram, trolley, or van? This question has been modified to specify which mode of travel the respondent would be most likely to try.
Q20	#3 Trip behaviors	NEW
Q21	#2 Traveler Information	NEW
Q22	#3 Trip behaviors	GROUP7*: Original question: How many people (including you) traveled here in the same vehicle as you? This question has been modified to ask about carpools/vanpools for an entire work week.
Q23	#3 Trip behaviors	SHPREF16*: Original question: What THREE improvements would make you more likely to use this shuttle again in the future? (choose no more than 3) This question has been changed to ask about the primary public transportation

		agency in San Francisco, MUNI.
Q24	#3 Trip behaviors	SHPREF16* This question has been changed to ask about the PresidiGo shuttle.
Q25	#4 Assessment of Visitor Experiences	SAFE12* Original Question: How safe did you feel traveling by non-motorized mode today in [Grand Teton National Park]? This question has been changed to ask about how residents feel on a day to day basis about alternative transportation options in the Presidio.
Q26	#3 Trip behaviors	NEW
Q27	#1 Respondent characteristics	NEW
Q28	#1 Respondent characteristics	NEW
*indicates that the question has been reworded to better fit the purpose of this survey but still maintains the same general purpose		
12. Methodology: (Use as much space as needed; if necessary include additional explanation on separate page).		
Respondent Universe	Adults that reside in the Presidio. A large majority of residents are otherwise unaffiliated with the Presidio: they commute out of the park for work. In 2000, the percentage of Presidio residents that drove to work alone was higher than the surrounding neighborhoods. Residents in the Presidio are also more likely to have children than the surrounding neighborhoods.	
Sampling Plan/Procedure	Of the 1,100 housing units in the Presidio, there are over 2,200 emails on the residential email list. Some units, especially those with unaffiliated adults, may have more than one email on the list but every unit has at least one email registered.	
Instrument Administration	The survey will be administered by distributing the link via email. The email will ask that the link be forwarded to all adults in the household to complete the survey.	
Expected Response Rate and Confidence Levels	The last residential survey had a 24% response rate but was administered via mail. Since this survey is electronic, we are expected a 30% response rate, or 900 respondents.	
Strategies for dealing with potential non-response bias	If 900 responses are not received, another email reminding residents to take the survey will be sent out. If another email is not success, Emily Beaulac will consult the leasing department for alternative strategies for getting in contact with residents.	
Description of any pre-testing and peer review of the methods and/or instrument (recommended)	This survey was tested by seven Presidio Trust employees in different departments. Attention was given to test this survey with people that had varying modes of transportation to work. Our sustainability department suggested that a question about what type of vehicles are driven in the Presidio be added to our survey in order to measure transportation's carbon footprint (this is question 13). All the other feedback was grammar and wording errors, which have been corrected.	
13.	Total Number of Initial Contacts and Expected Number of Respondents	3,000 people Expected 900 respondents
14.	Estimated Time to Complete Initial Contact and Time to Complete Instrument	10 minutes
15.	Total Burden Hours Contacts Respondents ----- Total	10 minutes 900 respondents 9,000 minutes or 150 hours

16. Reporting Plan: The results will be analyzed using the SurveyMonkey data analysis tools. Some of the data may be exported to another program (e.g., spreadsheet) to perform more advanced statistical analysis depending on the results. The analyzed survey results of the survey will be published in a report on the Presidio Trust website. The report will not include any personal information, such as respondents' names, addresses, workplaces or emails.

17. Justification, Purpose, and Use:	
IC Justification and Purpose	The purpose of this survey is to measure the commute patterns of people who work in the Presidio and to formulate a mode share. The Presidio Trust Management Plan identifies a long-term goal to reduce vehicle trips so that only 50 percent of external trips and 35 percent of internal (intra-Presidio) trips are made by automobile. This survey will measure effectiveness of Transportation Demand Management (TDM) programs in meeting this goal.
IC Goals	The survey results will help guide future adjustments to existing TDM programs and development of new TDM programs. For example, using the zip codes of employees who expressed interest in carpooling will help determine the potential success of a new carpooling program. If there is particular interest in specific TDM measures or adjustments to existing TDM measures (e.g., longer shuttle operating hours), more funding and time can be allocated to developing those programs.
Utility to Managers	The survey results will be shared with the Presidio Trust senior management, as it will guide future funding decisions.
How will the results of the IC be analyzed and used?	The results will be used to more effectively reduce single-occupant automobile use in the Presidio through new or modified TDM programs, shuttle schedule adjustments, modified or new shuttle routes, improved bicycle and pedestrian infrastructure, new carpooling and vanpooling programs, and/or changing the transportation communication methods for tenants.
<p>How will the data be tabulated? What Statistical Techniques will be used to generalize the results to the entire customer population? How will limitations on use of data be handled? If the survey results in a lower than anticipated response rate, how will you address this when reporting the results? (Use as much space as needed; if necessary include additional explanation on separate page).</p> <p>The data will be tabulated using SurveyMonkey's software. After analyzing the data, a summary of survey results will be made available to the public. No identifying information will be shared – work addresses, employer names, and emails will be kept private. The raw data will be managed by the Presidio Trust transportation department and will not be shared outside the Trust. If the results are lower than expected, more effort will be put in to increase the number of respondents. The survey link can be included in other forms of tenant communications to as a reminder.</p>	
<p>Is this survey intended to measure a Government Performance and Results Act (GPRA) performance measure? If so, please include an excerpt from the appropriate document. (Use as much space as needed; if necessary include additional explanation on separate page).</p> <p>n/a</p>	

Checklist for Submitting a Request to Use USDA-Forest Service Federal Lands Transportation Generic Clearance

- *All* questions in the survey instrument are within the scope of one of the USDA-Forest Service Generic Clearance topic areas (see Compendium of Questions).
- The approval package is being submitted to the Forest Service Office of Regulatory and Management Services at least 45 days prior to the first day the PI wishes to administer the IC to the public.
- [IF SURVEY] A qualified statistician has reviewed and approved your request.
- Your bureau/office Information Collection Clearance Officer has reviewed and approved the approval package.
- When you forward the approval package to USDA Forest Service, copy the FLMA Generic Clearance Coordinator

The approval package includes:

- A completed Justification
- A signed Certification Form
- A copy of the survey instrument
- Other supporting materials, such as:
 - Cover letters to accompany mail-back questionnaires
 - Introductory scripts for initial contact of respondents
 - Necessary Paperwork Reduction Act compliance language
 - Follow-up letters/reminders sent to respondents

The survey methodology presented in the Justification includes a specific description of:

- The respondent universe
 - The sampling plan and all sampling procedures, including how respondents will be selected
 - How the instrument will be administered
 - Expected response rate and confidence levels
 - Strategies for dealing with potential non-response bias
 - A description of any pre-testing and peer review of the methods and/or the instrument is highly recommended.
-
- The burden hours reported in the Justification include the number of burden hours associated with the initial contact of all individuals in the sample (i.e., including refusals), if applicable, and the number of burden hours associated with individuals expected to complete the survey instrument.
 - The package is properly formatted (Word) and submitted to the Office of Regulatory and Management Services electronically.

Certification Form for Submission Under OMB Control Number 0596-0236

This form should only be used if you are submitting a collection of information for approval under the USDA-Forest Service Federal Lands Transportation Generic Clearance.

If the collection does not satisfy the requirements of the Generic Clearance, you should follow the regular PRA clearance procedures described in 5 CFR 1320.

Bureau/Office Presidio Trust			
IC Title <i>(Please be specific)</i> Presidio Residential Transportation Survey 2017			
Estimated Number Contacts Respondents	3,000 900	Time per Response Contacts Respondents	Sent by email 10 minutes
