Access Preferences

Thank you for taking time to complete this survey. Your input is critical to ensuring that access to and transportation within National Wildlife Refuges are designed to accommodate the preferences of a user like you. Your participation is voluntary. You can skip any question you want, and you can stop at any time. Thank you for taking the time to provide information for this valuable study. If you have any questions or problems completing the survey, please contact Natalie Villwock-Witte, PhD, PE at 505-414-8935 or n.villwockwitte@montana.edu

Paperwork Reduction Act Statement: The U.S. Fish and Wildlife Service has contracted with the Western Transportation Institute at Montana State University to conduct a study to better understand transportation preferences to access and travel within National Wildlife Refuges. Your participation is voluntary. We estimate that it will take you about 15 minutes to complete the survey. We may not conduct or sponsor and you are not required to respond to a collection of information unless it displays a currently valid OMB control number. You may send comments on the burden or any aspect of this information collection to the Service Information Collection Clearance, U.S. Fish and Wildlife Service, Attn: BPHC, 5275 Leesburg Pike, Falls Church VA 22041-3803.

Survey introduction.

QUESTION 1

1. What is your age?

AGE1: What is your age?

_ Under 18

_ 18 - 24

_ 25 - 44

_ 45 - 54

_ 55 - 64

_ 65+

We removed the categories. Instead, we asking the respondent to type in their age. A significant importance of this study is to understand what generational cohort a respondent fits into. Generational cohorts have some variation, so asking the age instead of providing a category will allow us to understand if one generational definition better explains the responses.

QUESTION 2

2. Where do you live?

- California
- Colorado
- Texas
- Other (please specify)

n/a

This is a screening question. It will allow us to filter out potential respondents who are NOT from one of three target states (California, Colorado or Texas). Those choosing "Other" will be directed out of the survey. Additionally, the provider of survey respondents will be directing only individuals that live in these states to this survey, thereby reducing the burden of response.

QUESTION 3

3. What is the 5-digit zip code of the area where you currently live?

RES1: Where do you live?*

City _____ State ___ ZIP ____

Country (if not US) _____

RES2: Do you live in the United States or Canada?

_Yes → What is your home state/province _____

What is your zip code/postal code _____

_No → What country do you live in? _____

RES3: Do you live in the United States?

_Yes (What is your Zip Code? _____)

_No (What country do you live in? _____)

RES4: For you and your personal group on this visit, please provide the following information. (If you do not know the answer, leave blank.)

	U.S. Zip Code	Or name of country other than U.S.
Yourself		
Member #2		
Member #3		
Member #4		
Member #5		
Member #6		
Member #7		

RES5: Are you a permanent resident or citizen of the U.S.?

_No – What is your country of origin? _____

_Yes – What is your zip code and state of residence? Zip Code ____ State _____

RES6: In which village or town do you live? _____

What is your home zip code? _____

RES7: Home postal or ZIP code: _____ (write in)

This question is most like RES6. However, as shown on the right, there are many variations of questions that ask about one's zip code. Our question just reiterates that we're looking for five digits and to clarify that it's where the respondent currently lives, not the zip of where they're at the time they are responding to the survey.

QUESTION 4

Access Preferences

4. In what type of community do you currently live?

- In a small town (< 2,500 people)
- In a town or small city (2,500 to < 25,000 people)
- In a city (25,000 to < 100,000 people)
- In a large city (100,000 to < 1,000,000 people)
- In a major city or metropolitan area (1,000,000 people or more)

Prev

Next

RES15: In what type of community do you now live?

_In a small town (less than 2,500)

_In a town or small city (between 2,500-25,000 people)

_In a city (between 25,000 and 100,000 people,

_In a large city (100,000 to 1 million people)

_In a major city or metropolitan area (over 1 million people)

We reduced the burden of the respondent by using visual "<" as compared with "less than." In addition, we added consistency to the categories by always having the second one be < or equal to the number (compare "In a large city").

QUESTION 5

5. Which of the following categories best describes how often you use public transportation (e.g., bus, train, etc.) at home?

- Never
- Less than once a month
- At least once a month
- At least once a **week**
- Almost everyday

Prev

Next

TRANSIT1: How often do you use public transportation at home?

_Never _Hardly ever _At least once a month _At least once a week _Almost everyday

Hope requested that we better define "Hardly Ever" as listed in the original approved question. This category is expected to represent riders who know how to use transit, but rarely do. We also underlined month and bolded week to ease the burden on the respondent by more clearly conveying that they were different time frames (month vs. week)

QUESTION 6

6. In the past year, did you participate in any of the following activities, and if so, with whom: (Please check all that apply.)

	Alone	With Family or Friends	Not Applicable

This question is similar to a number of questions as shown. The cross-tabulation format will allow us to compare types of activities with the type of party (alone, family/friends, not applicable). Millennials were reported in the literature to prefer to travel with family and friends instead of alone.

We've added "Unable to work due to disability," which is a Social Security approved description. We've also added "Stay-at-home parent" which reflects that some people stay home to care for their children (e.g., a father), yet they do not view themselves as a "Homemaker." This is a very traditional term and based on the primary audience of the survey, Millennials, would likely result in response refusals.

QUESTION 17

17. Including yourself, how many people currently live in your household?

We've added a drop down of numbers from 1 to More than 6. This should ease the burden of response.

n/a

We are looking at generations, and in particular, Millennials and a sub-group of Baby Boomers that have moved west after they retired. They have been called the "Silver Tsunami." Therefore, we want to know if a respondent is a Baby Boomer and if they have recently moved. As a result, we have added the above question.

QUESTION 20
