INSTRUCTIONS FOR COMPLETING THE ATLANTIC HMS TOURNAMENT SUMMARY REPORT

Tournament Name: Name of the fishing tournament as it was reported on the [HMS tournament registration form](#).

Port Location (City, State): City and state from which the fishing tournament was held.

Catch and Release Only? (Y/N): Answer “Y” (yes) if this tournament has a policy of catch and release only (no kill) for target species.

Total # Boats Registered: Total number of boats that are participating in the tournament.

Fishing Club Affiliation: Name of the fishing club that held or sponsored the tournament, if any.

Fishing Date(s): Actual fishing dates of the tournament (do not include lay days or days canceled due to bad weather).

Number of Boats Fishing: Number of boats that fished each day.

Fishing Time (00:00 – 00:00): Tournament start time and end time for each day of fishing.

Recorder’s Name, Phone, and E-mail: The name, phone number, and e-mail address of the person who completes this form.

*** White Marlin/Roundscale Spearfish (not differentiated):** These species are very similar in appearance. If the tournament did not identify the species separately, record them as a group in this space. NMFS encourages tournaments to differentiate between white marlin and roundscale spearfish. For an identification guide, please visit <http://www.sefsc.noaa.gov/labs/miami.htm> (under “How do I...”).

Number Kept: The total number of fish kept for each species.

Number Released Alive: The total number of fish that were released alive for each species.

Number Released Dead: The total number of fish thrown back dead (dead discards) for each species.

FISH KEPT – INDIVIDUAL SIZES – ALL SPECIES: The **weight** (in pounds) and **length** (lower jaw fork length (LJFL); curved fork length (CFL); straight-line fork length (SFL); or total length (TL)) of each fish kept for all of the species listed on page 1. **All billfish are measured in LJFL.** Attach additional pages if needed.

PAPERWORK REDUCTION ACT NOTICE: Atlantic Highly Migratory Species tournament information is required by NOAA Fisheries under authority of the Magnuson-Stevens Fishery Conservation and Management Act and the Atlantic Tunas Convention Act, as amended. Catch and effort information will be used in stock assessments, to monitor total catch of species under quota management, and in reports to international commissions with respect to catch sharing agreements. It is NOAA policy to preserve the confidentiality of information submitted under this reporting requirement, except that NMFS may release such information in aggregate or summary form, such that individual identifiers are not disclosed (NAO 216-100). Upon request, some individual responses, stripped of personal identifiers, may be released to the public. Notwithstanding any other provision of the law, no person is required to respond to, nor shall any person be subject to a penalty for failure to comply with, a collection of information subject to the requirements of the Paperwork Reduction Act, unless that collection of information displays a currently valid OMB Control Number. Public reporting burden for this collection of information is estimated to average 20 minutes per respondent, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information.
