

2018 IHA to the POK. Also in compliance with NEPA and the CEQ regulations, as well as NOAA Administrative Order 216–6, NMFS made a FONSI on October 24, 2016, for issuance of the 2017–2018 IHA. These NEPA documents are available at <https://www.fisheries.noaa.gov/national/marine-mammal-protection/incidental-take-authorizations-construction-activities>.

Since this IHA covers the same work covered in the 2017–2018 IHA, NMFS has reviewed our previous EA and FONSI, and has determined that our current action is consistent with categories of activities identified in CE B4 of the Companion Manual for NOAA Administrative Order 216–6A, which do not individually or cumulatively have the potential for significant impacts on the quality of the human environment and for which we have not identified any extraordinary circumstances that would preclude this categorical exclusion. Accordingly, NMFS has determined that the issuance of the IHA qualifies to be categorically excluded from further NEPA review. We have reviewed all comments submitted in response to this notice prior to concluding our NEPA process and making our final decision on the 2018–2019 IHA request.

Endangered Species Act (ESA)

Section 7(a)(2) of the Endangered Species Act of 1973 (ESA: 16 U.S.C. 1531 *et seq.*) requires that each Federal agency insure that any action it authorizes, funds, or carries out is not likely to jeopardize the continued existence of any endangered or threatened species or result in the destruction or adverse modification of designated critical habitat. To ensure ESA compliance for the issuance of IHAs, NMFS consults internally whenever we propose to authorize take for endangered or threatened species. No incidental take of ESA-listed marine mammal species is expected to result from this activity, and none would be authorized. Therefore, NMFS has determined that consultation under section 7 of the ESA is not required for this action.

Authorization

NMFS has issued an IHA to POK for the incidental take of marine mammals due to in-water construction work associated with the POK Expansion Project for a period of one year, provided the previously mentioned mitigation, monitoring, and reporting requirements are incorporated.

SUPPLEMENTARY INFORMATION:

I. Abstract

This request is for extension of a currently approved information collection. The NOAA Commissioned Corps is the uniformed component of the National Oceanic and Atmospheric Administration (NOAA), a bureau of the Department of Commerce. Officers serve under Senate-confirmed appointments and Presidential commissions (33 U.S.C. chapter 17, subchapter 1, sections 853 and 854). The NOAA Corps provides a cadre of professionals trained in engineering, earth sciences, oceanography, meteorology, fisheries

science, and other related disciplines, who are dedicated to the service of their country and optimization of NOAA's missions to ensure the economic and physical well-being of the Nation.

NOAA Corps officers serve in assignments throughout NOAA, as well as in each of NOAA's Line Offices (National Environmental Satellite, Data, and Information Service, National Ocean Service, National Weather Service, Office of Oceanic and Atmospheric Research and Office of Planning, Programming and Integration).

Persons wishing to be considered for a NOAA Corps Commission must submit a complete application package, including NOAA Form 56–42, at least three letters of recommendation, and official transcripts. A personal interview must also be conducted. Eligibility requirements include a bachelor's degree with at least 48 credit hours of science, engineering or other disciplines related to NOAA's mission, excellent health, and normal color vision with uncorrected visual acuity no worse than 20/400 in each eye (correctable to 20/20).

II. Method of Collection

Applicants must utilize the E-recruit electronic application process (<https://cpc.oma.noaa.gov/erecruit/login.jsp>) and then submit paper forms via mail. An in-person interview is also required.

III. Data

OMB Control Number: 0648–0047.

Form Number(s): NOAA 56–42 and NOAA 56–42A.

Type of Review: Regular submission (extension of a currently approved information collection).

Affected Public: Individuals or households.

Estimated Number of Respondents: 150.

Estimated Time per Response: Written applications, 5 hours; interviews, 90 minutes; references, 15 minutes.

Estimated Total Annual Burden Hours: 1,088.

Estimated Total Annual Cost to Public: \$10,875 in recordkeeping, recording and travel costs.

IV. Request for Comments

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden (including hours and cost) of the proposed collection of information; (c) ways to enhance the quality, utility, and

clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of this information collection; they also will become a matter of public record.

Dated: November 6, 2018.
