## Section 1: Introduction - Notification

### *Part A*

Good morning/afternoon, Mr./Mrs. \_\_\_\_\_,

My name is \_\_\_\_\_. I am calling from the Centers for Disease Control and Prevention, on behalf of \_\_\_\_\_ State Health Department. I am calling because Weight Loss Agents reported to us that you recently had surgery in Tijuana, Mexico. (pause) CDC wants to ensure that you received some important health messages regarding your surgery and potential risks to your health. Do you have a few minutes to speak with me now?

**If YES:** Continue to Part B

**If NO, STOP and collect information:** Is there a time that would be better for you?

Day/date \_\_\_\_\_

### *Part B*

Have you received an email or other communication from Weight Loss Agents about potential infections following surgery at Grand View Hospital?

**If YES:** Skip to section 2

**If NO:** Continue

Thank you for taking the time to talk to me today. CDC has received multiple reports of infections following weightloss surgery at Grand View Hospital in Tijuana, Baja California, Mexico. These infections were caused by a certain type of bacteria that is resistant to most antibiotics. That means bacteria have developed the ability to defeat drugs designed to kill them. When Mexican officials investigated possible sources of these infections, they discovered cleaning and disinfecting medical devices was performed improperly.

If you are hospitalized between now and December 31, 2019 please tell your doctor, at the time of admission, that you had surgery at Grand View Hospital and were contacted by the CDC. We will send you a letter that you should share with your doctor if you are admitted to a hospital explaining the risk.

Do you have any questions?

Because of the practices found at the hospital, there is also a very low risk that you may have been exposed to other germs, including HIV, hepatitis B and C viruses. We are not aware of any HIV, hepatitis B, or hepatitis C infections at this facility, but to be safe, we recommend that you also talk to your doctor and get tested for these three infections.

I understand that this information is alarming and may be frightening. Do you have any questions?

## Section 2 (Only if Yes to Section 1, Part B)

The notification described a risk of infection with antibiotic resistant bacteria. That means bacteria have developed the ability to defeat drugs designed to kill them. If you are hospitalized between now and December 31, 2019, please tell your doctor, at the time of admission, that you had surgery at Grand View Hospital and were contacted by the CDC. We will send you a letter that you should share with your doctor if you are admitted to a hospital explaining the risk.

Do you have any questions about the information in the notification?

Because of the practices found at the hospital, the notification also included information about the risk of other germs including HIV, hepatitis B and C viruses. We are not aware of any HIV, hepatitis B, or hepatitis C infections at this facility, but to be safe, we recommend that you also talk to your doctor and get tested for these infections.

Do you have any questions? (go to section 3, survey)

## **Section 3 - Survey**

I would like to ask a few additional questions about you, your recent surgery, and your health. This will only take about 20 – 25 minutes.
