### Current Question/Item

The question numbers are the variable names. Question numbers in parenthesis are for administrative purposes and will not appear on the final data set. CATI-System and other contractor-created variables are included in the survey instrument, are surrounded by brackets, and may be included on the final data set. Response options in all UPPER CASE should not be read. Responses of Don't Know, Refused and LEGIT SKIP will be represented using codes -1, -2 and -3, respectively. Blank fields will be interpreted as inadvertent skips. The following abbreviations are used within the instrument: LEGITIMATE SKIP is LEGIT SKIP, DK is Don't Know, REF is Refused, MTP is Made to Penetrate, and PTSD is Posttraumatic Stress Disorder. This survey will be administered both in English and in Spanish (following translation). Interviewers will not read answer options listed in ALL CAPS. Answer options listed in both upper and lower case are read to the respondent. Anytime a respondent reports his/her age at first > 18, or DK, or Ref, the program will skip perpetrator age questions. The minimum number of relationships identified should equal the minimum number of perpetrators calculated. If 996 is entered before the minimum is reached a soft error check should appear. For example, If D03=2 and D04 = 4, then the minimum number should be equal 4. If 996 is entered for D05\_02 or D05\_03 or D05\_04, the soft check will appear.

Hello, I am calling on behalf of the Centers for Disease Control and Prevention, the CDC. The CDC is conducting an important research study on health and injuries, and if someone in your household is selected to participate and completes the interview, we will send that person a check for {FILL: \$10 / \$40 (NONRESPONSE FOLLOW-UP PHASE)}. My name is \_\_\_\_\_, with RTI International and I'm part of the research team. Let me assure you that this is *not* a sales call. Your phone number has been chosen randomly to represent thousands of others in the country.

CF1: Are you 18 years or older? CF2: I need to ask you a few questions to determine eligibility for CDC's study. Is this a cell phone? CF2\_1: Are you driving a vehicle at this moment? CF2\_2: When would be a better time to call you?

A12a: What county do you live in?

Mil01: Have you been deployed longer than 30 consecutive days in the last 24 months that is since {FILL: DATE 24 MONTHS AGO}? [IF NECESSARY: This deployment may have started more than 24 months ago and continued within the past 24 months.]

Mil02: Where was your most recent deployment that lasted more than 30 consecutive days? IF NECESSARY: I'm not sure which category that falls into. Would you say ... {READ RESPONSES - NO NEED TO READ THE PARENTHETICAL PORTION}.

Mil03: Since September 11, 2001, have you been deployed to a combat zone or an area where you drew imminent danger pay or hostile fire pay? IF NECESSARY: Hostile Fire Pay occurs when an appropriate commander certifies that a military member has been subjected to a hostile fire or explosion of a hostile mine or been on duty close to a hostile fire incident.

Imminent Danger Pay occurs when an appropriate commander certifies that a military member has served an official duty within an area designated by the Department of Defense as eligible for Imminent Danger Pay. As of April 2015, examples of areas eligible for imminent danger pay consist of Afghanistan, parts of the Balkans, Cuba, Haiti, Democratic Republic of Congo, Iraq, Persian Gulf, Somalia, Syria, and Turkey.

Mil04: When you were deployed to a combat zone or an area where you drew imminent danger or hostile fire pay, were you involved in combat operations?

SPS01: During your spouse's active duty career, has he been deployed for more than 30 consecutive days?

If the age a behavior first occurred is older than current age, CATI will display a soft check: "It looks as though I may have entered your current age wrong. We just entered {fill: response from current question} but earlier I put your current age as {fill: A1\_CHK}. Would you like me to go back and change your current age or the age I just entered?" The interviewer can then choose to either revise current age, age at first for the behavior, or suppress the check and keep the inconsistent responses.**
