

**The CAHPS Database CAHPS®
Child Hospital Survey Database Data
Use Agreement**

Instructions

1. All organizations that want to participate in the Child Hospital CAHPS Survey Database must submit a signed Data Use Agreement (DUA) and provide the organization name (hereinafter termed “**Participating Organization**”), and the Participating Organization’s point of contact.

Data collection vendors may not sign this DUA on behalf of a hospital or health system organization (even if they have been given permission by the hospital or health system organization to handle the actual submission of data). Only a duly appointed representative from the hospital or health system organization may sign this DUA.

2. AHRQ’s Contractor, Westat, has pre-signed this Data Use Agreement (DUA) in its current form. Any changes or modifications to the DUA or the Authorization Form other than those required to complete the DUA, such as contact information, will require review and execution, by both parties, of a new DUA or addendum.
3. Upload Upload a scanned copy of the signed DUA and Authorization Form at <https://www.cahpsdatabase.ahrq.gov>
4. Please retain a copy of the fully signed and executed DUA and Authorization Form for your records.

If you have any questions or require any additional information please contact the CAHPS Database at 888-808-7108 or by email to CAHPSDatabase@westat.com.

The CAHPS Database

Child Hospital CAHPS Survey Database

1. This Data Use Agreement (DUA) is made by and between the Agency for Healthcare Research and Quality (AHRQ), AHRQ's contractor, Westat, and the organization named below (hereinafter termed "**Participating Organization**") which includes any hospital listed under item 13 on page 3 of this Data Use Agreement.

Name of Participating Organization (Hospital or Corporate Office/Health System if more than one hospital is included in this DUA)

Street Address of Participating Organization

City

State

Zip Code

VERY IMPORTANT: Type or write in the name of the Participating Organization above. If more than one hospital is represented, list the name of the health system organization above, and under item 13, page 3 of this Data Use Agreement, IDENTIFY EACH INDIVIDUAL HOSPITAL for which data will be submitted.

2. AHRQ's Consumer Assessment of Healthcare Providers and Systems (CAHPS®) Database is a central repository of data on hospital, medical group, clinician, and health care facility performance as measured by a selected set of CAHPS surveys. This DUA specifies the terms and conditions of Participating Organization's submission of its Child Hospital CAHPS Survey data to Westat for participation in the Child Hospital CAHPS Survey Database (hereinafter termed the "Database").
3. The Database is populated with Child Hospital CAHPS survey data through the voluntary participation of organizations that have administered the Child Hospital CAHPS Survey and are willing to submit their Child Hospital CAHPS survey data to AHRQ for inclusion in the Database. Because participating organizations (e.g., hospitals, health system) voluntarily submit data to the CAHPS Database, the Data do not constitute a nationally representative sample.

The Database is funded by the Agency for Healthcare Research and Quality (AHRQ) and managed and administered by AHRQ's contractor, Westat (hereinafter termed the "Contractor"). AHRQ's Contractor will operate the Database to comply with the provisions in this DUA.
4. Participating Organizations will provide their Child Hospital CAHPS survey data to the Database for AHRQ's research, analysis and reporting programs according to the terms specified in this DUA. By agreeing to participate in the Database, each Participating Organization agrees to make every good faith effort to provide data for inclusion in the Database, as specified by the data specifications outlined below. The data provided for inclusion in the Database is collectively referred to as the "Data". Participating Organization's Data include:
 - a) A copy of the final Child Hospital CAHPS survey instrument(s) administered, including copies of paper and/or web-based versions as applicable, for each surveyed population for which data will be submitted to the Database showing all survey instructions and items administered. If more than one version of the Child Hospital CAHPS survey was administered, a copy of each Child Hospital CAHPS survey instrument administered must be provided with the corresponding results for each version of the survey instrument for which data is submitted;
 - b) Respondent-level Child Hospital CAHPS survey data that are de-identified to prevent identification of any individual in the database. Participating Organization submit its final, de-identified respondent-level Child Hospital CAHPS survey data, as collected by the Participating Organization itself or by a survey data collection vendor, according to the data specifications outlined for the Database; and
 - c) Selected organizational characteristics data (e.g., ownership, bed size, dates of administration, sample size, response rate, etc.).

Public reporting burden for this collection of information is estimated to average 3 minutes per response, the estimated time required to complete the form. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to: AHRQ Reports Clearance Officer Attention: PRA, Paperwork Reduction Project (0935-0218) AHRQ, 5600 Fishers Lane, Rockville, MD 20857.

The CAHPS Database Child Hospital CAHPS Survey Database

5. AHRQ's Contractor agrees to establish appropriate and necessary administrative, technical, and physical procedures and safeguards including limiting access to the Data and providing appropriate staff training to protect the confidentiality of the Data and to prevent the unauthorized use of it or access to it. Only AHRQ's Contractor and duly authorized representatives appointed by AHRQ will have access to the identifiable source Data provided by Participating Organization.
6. Participating Organization's Data will be accepted into the Database provided that the version of the Child Hospital CAHPS survey administered is deemed acceptable by AHRQ's Contractor, (i.e., not modified from the original Child Hospital CAHPS survey instructions and items) and the Data submitted by Participating Organization are deemed acceptable. AHRQ's Contractor will promptly notify the Participating Organization of any problem with the survey version(s) administered or with the Data submitted. If the survey version administered is acceptable but the Data submitted are problematic, AHRQ's Contractor will make a good faith effort to work with the Participating Organization to complete or correct the data submission, but reserves the right to not include incompatible or flawed Data in the Database.
7. Participating Organization's Data will be used for AHRQ's research, analysis, and reporting programs, and the Data will be aggregated along with other Participating Organizations' Data in the Database. AHRQ will report aggregated statistics on Child Hospital CAHPS survey composite scores and items that include all Participating Organizations and present statistics by various organizational characteristics (e.g., ownership, bed size, etc.). Results will not publicly identify individual Participating Organizations by name. Only aggregated data will be reported, and only when there are sufficient data so that such aggregation will not permit the identification of Participating Organizations by other Participating Organizations or the public. Results will be made available publicly at no charge.
8. AHRQ's Contractor conducts analyses of the Data to examine its distributional properties (variability, missing data, skewness), to assess the factor structure and reliability of the items and composites, and examine relationships of the Data with organizational characteristics. In any data analysis reports that may be produced, such reports will not identify individual Participating Organizations by name and results will only be reported in a manner that will not permit the identification of Participating Organizations.
9. AHRQ and its Contractor, Westat, agree to use the Data submitted by Participating Organization only for the purposes stated in this DUA.
10. **Researcher Access to Participating Organization's Data.** The AHRQ confidentiality statute, Section 944(c) of the Public Health Service Act (42 U.S.C. 299c-3(c)), requires that data collected by AHRQ or one of its contractors (including Westat) that identify establishments be used only for the purposes for which the data were supplied. AHRQ may grant researchers access to Participating Organizations' de-identified Data according to the following provisions:
 - a) Access to respondent and organization level data files that do not identify or permit re-identification of individual respondents or Participating Organizations may be granted by AHRQ without the specific authorization of Participating Organizations whose Data are included as part of the data files. Individuals requesting de-identified Child Hospital CAHPS data (hereinafter termed "Data Requesters") must submit a Research Abstract Form detailing the research purpose, hypotheses and methodology for analyzing the Data. AHRQ will review all Research Abstract Forms and approve or deny the requests. The de-identified data files may include organizational characteristics (e.g., product type and region), provided the characteristics do not permit re-identification of individual respondents or Participating Organizations. Data Requesters must also sign a Data Release Agreement in which they agree with the following requirements. Data Requesters agree that they: 1) will not use, and will prohibit others from using or disclosing, the de-identified Data except for the purposes specified in their Research Abstract Form; 2) will ensure that the de-identified Data are kept in a secured environment and that only authorized users will have access to it; and 3) will limit the use of the de-identified Data to the individuals who require access in order to perform activities for the purposes specified in the Research Abstract Form.
 - b) Access to data files specific to an identifiable Participating Organization may be approved only with the express written authorization of the Participating Organization whose data files are requested. Results containing any identifying information, may not be released, disclosed or made public without the express written authorization of any Participating Organizations that may be identified in the published research analysis.
