

2016 (old version)	2019 (new version)	Type of Change	Reason for Change	Burden Change
<p>Off-Cycle Submissions- A SNP that makes substantive revisions to its existing approved MOC will submit their off- cycle summary of MOC changes, along with the red-lined MOC, in the Model of Care Module in HPMS for NCQA/CMS review and approval.</p>	<p>A D-SNP or I-SNP that makes substantive revisions to its existing approved MOC will submit their off- cycle summary of MOC changes, along with the red-lined MOC, in the Model of Care Module in HPMS for NCQA/CMS review and approval.</p> <p>The revised version only allows D-SNPs and I-SNPs to submit off-cycle MOCs, and not C-SNPs.</p>	DEL	As a result of the BBA mandate for annual C-SNP MOC submissions and based on comments from SNPs and industry advocates to reduce burden on C-SNPs, CMS is eliminating the off-cycle MOC submission process for C-SNPs as believe that the annual C-SNP MOC submissions will eliminate the need for C-SNPs to submit off-cycle MOCs.	This does reduce burden for C-SNPs in terms of off-cycle submissions, however, C-SNPs have an increase in burden for the renewal MOCs, for which they are now required to submit annually due to the BBA requirements.

Type of Change: Rev = Revision, Del = Deletion, Add = Addition, and Red = Redesignation.
