Office of Labor-Management Standards (OLMS)

## ELECTRONIC FORMS SYSTEM (EFS)

- ❑ The EFS is the Office of Labor-Management Standards (OLMS) web-based system for completing and filing the LM-2, LM-3, and LM-4 labor organization financial reports.
- ❑ Because the system is web-based, multiple users can access their union's form from different locations.
- ❑ The union's report can be prepared over a period of time and worked as needed.
- ❑ No software downloads will be required.
- ❑ Users will no longer have to purchase digital signatures to sign the forms.

Office of Labor-Management Standards (OLMS)

# EFS SYSTEM ACCESS

Two separate processes are required to assure a union's secure access to the EFS:

- ❑ User Registration

Every person who needs to prepare, review, or sign the LM Forms will need to register for an EFS user account and password to access the system.

- ❑ Union Registration

A union representative will register to obtain a unique Private Identification Number (PIN) for the union.

User Registration is the first step in gaining access to EFS.

# OBTAINING A PIN FOR YOUR UNION

Each reporting union must obtain a PIN to gain access to the EFS

- ❑ A PIN is a Private Identification Number assigned to a union, and known ONLY by those who need to access the union's information through EFS.
- ❑ A union should select one representative to obtain the unique PIN.
- ❑ Only one PIN will be assigned to each filing union.
- ❑ The union representative assigned to obtain the PIN will then distribute this PIN to any individuals who prepare, review, or sign the LM forms.
- ❑ The union will need to obtain a new PIN every year to maintain authorized access to its LM forms.
- ❑ There is no charge associated with obtaining a PIN.

# OBTAINING A PIN FOR YOUR UNION

The Union Representative should distribute the PIN only to those who need access to the union's LM form.

In addition, a letter will be mailed to the address(es) on record for the union notifying the union officials of any activities relating to obtaining or updating a PIN.

This is another security measure to prevent unauthorized access to the forms.
