What will you do with the data?

Who is the National Center for Education Statistics?

The National Center for Education Statistics (NCES), <http://nces.ed.gov/>, is the primary federal statistical entity for collecting and analyzing data on topics related to education both in the United States and in comparison with other nations. How long will the study take?

The interview will take up to 90 minutes of your time.

Why should I participate?

We are testing new and modified questions and text messages that will be used in the next administration of the survey.
