Michael Eisenfeld, James Neidhart, Jeffrey Neidhart, Steven Bair, Neil Tribbett, Jerry Knutson, Victoria Slikkerveer, Crystal Williams, The Coliseum, Inc., David Fosdeck, Stephen Ellison, Erin Hourihan, and Vote Solar; Notice of Petition for Enforcement

Take notice that on April 19, 2019, pursuant to section 210(h)(2)(B) of the Public Utility Regulatory Policies Act of 1978 (PURPA), Michael Eisenfeld, James Neidhart, Jeffrey Neidhart, Steven Bair, Neil Tribbett, Jerry Knutson, Victoria Slikkerveer, Crystal Williams, The Coliseum, Inc., David Fosdeck, Stephen Ellison, Erin Hourihan, and Vote Solar (together, Petitioners) filed a Petition for Enforcement (petition), requesting that the Federal Energy Regulatory Commission (Commission) initiate an enforcement action against the City of Farmington, New Mexico, d/b/a Farmington Electric Utility System to remedy their alleged improper implementation of PURPA, all as more fully explained in their petition.

Any person desiring to intervene or to protest this filing must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a notice of intervention or motion to intervene, as appropriate. Such notices, motions, or protests must be filed on or before the comment date. On or before the comment date, it is not necessary to serve motions to intervene or protests on persons other than the Petitioners.

The Commission encourages electronic submission of protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically

should submit an original and 5 copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street NE, Washington, DC 20426.

SUPPLEMENTARY INFORMATION:

Title: FERC-729, Electric Transmission Facilities.

OMB Control No.: 1902-0238.

Abstract: This information collection implements the Commission’s mandates under EPA Act 2005 Section 1221 which authorizes the Commission to issue permits under FPA Section 216(b) for electric transmission facilities and the Commission’s delegated responsibility to coordinate all other federal authorizations under FPA Section

216(h). The related FERC regulations seek to develop a timely review process for siting of proposed electric transmission facilities. The regulations provide for (among other things) an extensive pre-application process that will facilitate maximum participation from all interested entities and individuals to provide them with a reasonable opportunity to present their views and recommendations, with respect to the need for and impact of the facilities, early in the planning stages of the proposed facilities as required under FPA Section 216(d).

Additionally, FERC has the authority to issue a permit to construct electric transmission facilities if a state has withheld approval for more than a year or has conditioned its approval in such a manner that it will not significantly reduce transmission congestion or is not economically feasible.¹ FERC envisions that, under certain circumstances, the Commission’s review of the proposed facilities may take place after one year of the state’s review. Under Section 50.6(e)(3) the Commission will not

accept applications until one year after the state’s review and then from applicants who can demonstrate that a state may withhold or condition approval of proposed facilities to such an extent that the facilities will not be constructed.² In cases where FERC’s jurisdiction rests on FPA section 216(b)(1)(C),³ the pre-filing process should not commence until one year after the relevant State applications have been filed. This will give states one full year to process an application without any intervening Federal proceedings, including both the pre-filing and application processes. Once that year is complete, an applicant may seek to commence FERC’s pre-filing process. Thereafter, once the pre-filing process is complete, the applicant may submit its application for a construction permit.

Type of Respondent: Electric transmission facilities.

*Estimate of Annual Burden:*⁴ The Commission estimates the annual public reporting burden for the information collection as:

FERC-729: ELECTRIC TRANSMISSION FACILITIES

	Number of respondents (1)	Annual number of responses per respondent (2)	Total number of responses (1) * (2) = (3)	Average burden & cost per response ⁵ (4)	Total annual burden hours & total annual cost (3) * (4) = (5)
Electric Transmission Facilities	1	1	1	9,600 \$758,400	9,600 \$758,400

Comments: Comments are invited on: (1) Whether the collection of information is necessary for the proper performance of the functions of the Commission, including whether the information will have practical utility; (2) the accuracy of the agency’s estimate of the burden and cost of the collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility and clarity of the information collection; and (4) ways to minimize the burden of the collection of information on those who are to respond, including the use of automated collection techniques or other forms of information technology.

[Docket No. ER19-1646-000]

Performance Materials NA, Inc.;
Supplemental Notice That Initial Market-Based Rate Filing Includes Request for Blanket Section 204 Authorization

This is a supplemental notice in the above-referenced proceeding of Performance Materials NA, Inc.’s application for market-based rate authority, with an accompanying rate tariff, noting that such application includes a request for blanket authorization, under 18 CFR part 34, of

¹ FPA section 216(b)(1)(C).

² The Commission will not issue a permit authorizing construction of the proposed facilities until, among other things, it finds that the state has, in fact, withheld approval for more than a year or had so conditioned its approval.

³ In all other instances (*i.e.* where the state does not have jurisdiction to act or otherwise to consider

interstate benefits, or the applicant does not qualify to apply for a permit with the State because it does not serve end use customers in the State), the pre-filing process may be commenced at any time.

⁴ “Burden” is the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. For further explanation

of what is included in the information collection burden, refer to Title 5 Code of Federal Regulations 1320.3.

⁵ FERC staff estimates that industry costs for salary plus benefits are similar to Commission costs. The cost figure is the FY2018 FERC average annual salary plus benefits (\$164,820/year or \$79/hour).
