

### **Justification for No Material/Nonsubstantive Change**

---

This nonsubstantive change request for the Water Quality Standards Regulation Information Collection Request (OMB Control Number 2040-0049) is being submitted to correct the title of one of the ICs. The IC is currently titled "Specific WQS Regulation Requirements: States and Tribes" and will be changed to "2015 WQS Program Revisions" to be consistent with the supporting statement and comments provided by OMB in their review of the previous package.

This nonsubstantive change request is being made to only to correct the IC title. No other changes are being made.
