

Partnership Agreement:

Professional Certifying Organizations

Section I: EPA WaterSense® Program Goals

EPA's WaterSense program aims to use water resources more efficiently to preserve them for future generations and to reduce water and wastewater infrastructure costs by reducing unnecessary water consumption. Through this program, EPA provides reliable information on high-performing, water-efficient products and practices, raises awareness about the importance of water efficiency, ensures water-efficient product performance, helps consumers identify products and services that use less water, promotes innovation in product development, and supports state and local water efficiency efforts.

Section II: Partnership Pledge

As a WaterSense program partner, _____ (name of organization) shares EPA's goals as outlined above and is proud to commit to the following activities to further these goals:

1. Maintain at least one WaterSense labeled professional certification program in the United States.
2. Promote the value of water efficiency and WaterSense. Inform certification candidates about WaterSense as an easy and desirable option for customers to reduce water use and save money.
3. Assist EPA in verifying certification status for individuals who have obtained WaterSense partnership.
4. Make WaterSense partner materials available to those professionals who earn or renew a certification through a WaterSense labeled program.
5. Make available to EPA annual data on WaterSense labeled professional certification programs including the number of individuals who obtain these certifications.
6. Update EPA annually on the availability of professional certification programs and inform EPA in a timely manner if labeled certification programs are discontinued and/or no longer meet applicable criteria, so that EPA can maintain an up-to-date list of labeled programs on the website and in other materials.
7. Adhere to all policies and procedures contained in the Program Guidelines.
8. Adhere to the WaterSense program mark guidelines and ensure that authorized representatives, such as advertising agencies, distributors, and subcontractors, also comply. Help EPA maintain program integrity by alerting EPA to possible misuse(s) of the WaterSense program marks.
9. Grant EPA's WaterSense program permission to include the partner organization's name on a list of participating partners on the WaterSense website, program materials, and announcements. The partner organization understands that from time to time, EPA will be interested in profiling partner accomplishments in case studies and articles. If selected for such promotion, the partner organization will have the opportunity to provide input and review the final print or Web document before EPA releases it to the public. Further, the partner organization understands that EPA might refer media contacts interested in publicizing water efficiency to the partner organization for information about certification programs and accomplishments.

Section III: EPA WaterSense Program's Commitments to Partners

1. Develop national specifications for water-efficient products and programs through an open, public process.
2. Increase awareness of EPA's WaterSense brand by distributing key messages on the benefits of labeled products and programs, as well as the importance of water efficiency.
3. Provide current WaterSense program news, information, and reference documents (via the program website, Helpline, email, or other means), including a listing of labeled products and programs on the website.
4. Provide WaterSense partners with public recognition for their involvement in the program and role in protecting the environment through an online listing of partners, special awards, and other efforts. This recognition includes, but is not limited to listing partners and WaterSense labeled products and programs on EPA's WaterSense website.

5. Respond swiftly to partner requests for information or clarification on EPA's WaterSense program policies.
6. Review pre-press promotional items, draft websites, or other materials that use the WaterSense program marks, upon request.

Section IV: General Terms and Disclaimers

1. The partner will not construe, claim, or imply that its participation in the EPA WaterSense program constitutes federal government (EPA) approval, acceptance, or endorsement of anything other than the partner's commitment to the program.
2. Nothing in this agreement, in and of itself, obligates the EPA to expend appropriations or to enter into any contract, assistance agreement, interagency agreement, or incur other financial obligations that would be inconsistent with Agency budget priorities. The partner agrees not to submit a claim for compensation for services rendered to EPA or any federal agency in connection with any activities it carries out in furtherance of this agreement.
3. The partner and the EPA WaterSense program will assume good faith as a general principle for resolving conflict and will seek to resolve all matters informally, so as to preserve maximum public confidence in the program.
4. Failure to comply with any of the terms of this partnership agreement can result in its termination and cessation of access to the benefits of the program, including use of the program marks.
5. The EPA WaterSense program will actively pursue resolution of noncompliance related to the use of the program marks.
6. Both parties concur that this agreement is wholly voluntary and may be terminated by either party at any time, and for any reason, with no penalty. Termination will begin effective immediately upon written notice to or from the WaterSense program. Upon termination of this agreement, partners agree to remove program marks in a timely manner, consistent with the WaterSense program mark guidelines.

To be completed by partner

Authorized Partner Representative¹ (printed name): _____

Title: _____ Email: _____

Signature: _____ Date: _____

Organization Name: _____ Number of employees: _____

Industry/SIC/NAICS code: _____ Website: _____

Number of current certified professionals: _____
