Partner Profile (Optional)

All Green Power Partners have the opportunity to create a Partner Profile. The Partner Profile describes briefly a Partner's organization, its green power goals, and its commitment to the Green Power Partnership.

If you would like to create a Partner Profile, please approve it prior to posting on the Green Power Partnership website. Please ensure the profile does not include reference to the name or description of your organization and try to focus on the following:

- How much green power is your organization using?
- What was the driver behind your organization's decision to purchase green power?
- Any lessons learned during your green power journey?
- What are the biggest benefits that have resulted from your green power purchase?

If you'd like to provide a quote about the benefits of green power to your organization, please contact us at info@gpp.com.
