

### **CHP Partnership Project Data Reporting Form**

Contact Name:	
Phone Number:	
Date Completed:	
Date returned to CHF	PP (EPA use):
Directions for Use:	- The information EPA currently has on each project has been f updates in <b>BOLD</b> .
	<ul> <li>Please add new planned projects or new operational projects</li> <li>All fields are required unless noted otherwise.</li> <li>For column heading definitions, see "Definitions" worksheet</li> </ul>

For information on project reporting go to www.epa.gov/chp/partnership/reporting.

Account - Name (Business Name)	Project Name	Project Address
Data Entry Guidelines:	Code name may be used for planned projects	
	planned projects	

led into the appropriate field, please make changes or

o the worksheet titled "New Projects."

#### .html or call the CHP Partnership help line at (703) 373-8108.

Project City	Project State	Size (MW) (i.e. Nameplate capacity)	Actual Startup Date	or	Projected Startup Date
	Postal Code (e.g., CA for California)	Please provide an estimate for both operational and planned projects	Month/ year if Operational	or	Estimate month/ year if Planned
		·			·

Project Owner/ Operator	Primary Fuel Type
	Anthropogenic Biomass, Biogenic Biomass, Coal, Natural Gas, or Waste Heat

Is There Another Fuel?	Percentage of Power Exported to the Grid	Prime Mover Type
Yes or No (Not including back- up fuel)	Use N/A if not applicable	Backpressure Steam Turbine, Combustion Turbine, Condensing Steam Turbine, Extracting Steam Turbine, Fuel Cell, Reciprocating Engine, Microturbine, Stirling Engine, Organic Rankine Cycle, or Other
op racij	арриосые	Calci

Prime Mover Brand (Optional)	Market
Make and Model	Agriculture, Airport, Athletic Facility, Community Center, Data Center, District Energy, Ethanol, Food Processing, Grocery, Hospital, Hotel/Casino, Industrial, Landfill, Military, Multifamily Housing, Museum, Nursing Home/Assisted Living, Office, Pharmaceutical, Primary/Secondary School, Prison, Utility, Wastewater Treatment, or Zoo

Business name

Name of CHP project

Address of CHP project

City of CHP project

State of CHP project

Nameplate capacity of CHP system (MW)

Month and year when CHP project became operational

Month and year when CHP project is expected to become operational

Stage of development of CHP project

Pre-qualification has determined that CHP could be appropriate for site

Initial feasibility screening is underway or has been completed

Contracts are being negotiated or have been signed

Detailed engineering design is underway (engineering/construction drawings are being completed and equipment is being chosen)

CHP project is under construction

CHP project is operational

CHP project is no longer operational or is no longer associated with your business

The owner/operator of CHP project

Primary fuel used by CHP project

Human-made materials that can be combusted for electricity and heat production, such as waste tires or portions of MSW

Organic biomass, such as wood, agricultural crops, landfill gas, and digester gas

Coal

Natural Gas

Waste heat from a thermal process used to produce power

Yes or no (not including back-up fuel)

Percentage of Power Exported to Grid

The CHP project prime mover (see CHP Catalog of CHP Technologies at: <a href="https://www.epa.gov/chp/basic/catalog.html">www.epa.gov/chp/basic/catalog.html</a>)

Manufacturer of prime mover

Market sector served by the CHP system using the market list provided
