Title: Reporting Requirements for Disability-Related Complaints.

Type of Request: Renewal of information collections.

Background: On July 8, 2003, the Office of the Secretary published a final rule that requires most certificated U.S. and foreign air carriers operating to, from and within the U.S. that conduct passenger-carrying service utilizing at least one large aircraft to record complaints that they receive alleging inadequate accessibility or discrimination on the basis of disability. The carriers must also categorize these complaints according to the type of disability and nature of complaint, prepare a summary report annually of the complaints received during the preceding calendar year, submit the report to the Department's Aviation Consumer Protection Division, and retain copies of correspondence and records of action taken on the reported complaints for three years. The rule requires carriers to submit their annual report via the World Wide Web except if the carrier can demonstrate an undue burden by doing so and receives permission from the Department to submit it in an alternative manner. The first required report covered disability-related complaints received by carriers during calendar year 2004, was due to the Department on January 31, 2005. Carriers have since submitted subsequent reports by the last Monday in January for the prior calendar year.

The title, a description of the information collection and respondents, and the periodic reporting burden are set forth below for each of the information collected.

Estimated Total Annual Burden: 8,148 hours (488,880 minutes) for all respondents (time to record and categorize each complaint (15 minutes) multiplied by the average total number of complaints received over the past three years (32,591) for all respondents).
