PHT is designed to be an informational reporting tool for a 1, 5, 10 or multi-year inquiry request for an active processing year. When a 1 Year inquiry request is submitted, the requestor will receive **only** the previous year's data information. When a 5 Year request is submitted, the requestor will receive the previous 5 years, providing data is available. When a 10 Year request is submitted, the requestor will receive the previous 10 years, providing data is available. When a Multi-Year request is submitted, the requestor will receive the previous years back to 2001, providing data is available. The layout of Record 81 with its respective record types will not always be in the same order/sequence as the records submitted for editing. The procedure is NOT designed to provide a specific year upon request.

Information retrieved from a PHT request – submitted with the type 10/14 record – is based ONLY on the primary insurer's SSN taken from the type 10 record. Limited information is provided on SBI's, affiliated with the primary insurer, not to include crop or cross-reference data.

PHT has been revised to provide a consolidated record layout descriptor for a single, five (5) year, ten (10) year or multi-year report. Under the 'Field Edit' column will indicate which year that field was active. PHTS now reflects Reinsurance Year 2013- 2018 record layouts first for the record types, Reinsurance Years 2012 – 2011, Reinsurance Years 2010 – 2008 and Reinsurance Years 2001 – 2007 following.
