Determination of Eligibility for Consideration as Wilderness Areas, Obed Wild and Scenic River

AGENCY: National Park Service, Interior.

ACTION: Notice of determination of wilderness eligibility for lands in Obed Wild and Scenic River.

SUMMARY: Pursuant to the Wilderness Act of 1964, and in accordance with National Park Service (NPS) *Management Policies* (2006), Section 6.2.1, the NPS has completed a Wilderness Eligibility Assessment to determine if lands within Obed Wild and Scenic River (Obed WSR) meet criteria indicating eligibility for preservation as wilderness. Based on the assessment, the NPS has concluded that the assessed lands: (1) Are not predominantly roadless and undeveloped; (2) are not greater than 5,000 acres in size or of sufficient size as to make practicable their preservation and use in an unimpaired condition; and (3) do not meet the wilderness character criteria listed in the Wilderness Act and NPS *Management Policies* (2006). As a result of these findings, the NPS has determined that lands within the Obed WSR do not warrant further study for possible designation as wilderness.

ADDRESSES: A map of the lands assessed is on file at Big South Fork National River and Recreation Area Headquarters, 4564 Leatherwood Road, Oneida, Tennessee 37841.

FOR FURTHER INFORMATION CONTACT: Superintendent Niki Stephanie Nicholas, Obed Wild and Scenic River, by phone at 423-569-9778, via email at OBRI_Superintendent@nps.gov, or by

mail at Big South Fork National River and Recreation Area, 4564 Leatherwood Road, Oneida, Tennessee 37841.

SUPPLEMENTARY INFORMATION: Obed WSR comprises approximately 5,530 acres on the Cumberland Plateau of eastern Tennessee. The wild and scenic designation encompasses 45 miles of the Obed River and its tributaries, including Clear Creek, Daddys Creek, and the Emory River. Of the total acreage within the boundary, only about 2,664 acres, in noncontiguous tracts, are owned in fee by the Federal government.

The Primary Eligibility Criteria found in Section 6.2.1.1 of NPS *Management Policies* was reviewed to evaluate Obed WSR's wilderness eligibility. Based on this review, the NPS has determined that none of the acreage administered by the NPS at Obed Wild and Scenic River is eligible for designation as wilderness. While parts of the wild and scenic river are roadless, undeveloped, and appear to have been affected primarily by the forces of nature, no single area is over 5,000 acres in size or is of sufficient size to make practicable its preservation and use as wilderness in an unimpaired condition. Areas owned in fee by the NPS are interspersed with lands owned by the State of Tennessee and by private parties. The fragmentation of the NPS fee lands and their small size precludes their effective management as wilderness.

A public notice announcing the NPS's intention to conduct this eligibility assessment was placed in the **Federal Register** on December 20, 2016. A previous press release had been issued to local media on August 22, 2016 informing the public of the assessment process. The NPS received no comments on either the press release or the subsequent notice.

Given that lands at Obed WSR are not eligible for wilderness consideration, a wilderness study will not be prepared pursuant to *Management Policies* Section 2.2.2.

Dated: September 5, 2019.

Abstract

The Secretary of the United States Department of the Interior is responsible for mineral resource development on Federal and Indian lands and the Outer Continental Shelf (OCS). Under various laws, the Secretary is charged to (1) manage mineral resources production from Federal and Indian lands and the OCS; (2) collect the royalties and other mineral revenues due; and (3) distribute the funds collected. We have posted the laws pertaining to mineral leases on Federal and Indian lands and the OCS

at http://www.onrr.gov/Laws_R_D/PubLaws/index.htm.

The Secretary also has a trust responsibility to manage Indian lands and seek advice and information from Indian beneficiaries. ONRR performs the minerals revenue management functions for the Secretary and assists the Secretary in carrying out the Department's trust responsibility for Indian lands.

General Information

When a company or an individual enters into a lease to explore, develop, produce, and sell, or otherwise dispose of, minerals from Federal or Indian lands, that company or individual agrees to pay the lessor a share of the production's value. The lessee, or its designee, must report various kinds of information to the lessor relative to the disposition of the leased minerals. Such information is generally available within the records of the lessee or others involved in developing, transporting, processing, purchasing, or selling such minerals.

Information collections that we cover in this ICR are found at title 30 of the *Code of Federal Regulations* (CFR) parts:

- 1202, subparts C and D, which pertain to Federal oil and gas royalties.
- 1204, subpart C, which pertains to accounting and auditing relief for marginal properties.
- 1206, subparts C and D, which pertain to Federal oil and gas product valuation.

All data reported is subject to subsequent audit and adjustment.

In March 2019, the U.S. District Court for the Northern District of California vacated ONRR's 2017 Repeal rule of its 2016 Consolidated Federal Oil & Gas and Federal & Indian Coal Valuation Reform rule. By vacating ONRR's 2017 Repeal rule, the Court reinstated ONRR's 2016 Consolidated Federal Oil & Gas and Federal & Indian Coal Valuation Reform rule, originally published on July 1, 2016 (81 FR 43338) (2016 Valuation Rule), with its original effective date of January 1, 2017.

We have not revised the burden hours because a lessee could potentially revise reporting periods prior to January 1, 2017 (*i.e.*, periods under the old rule).

Information Collections

ONRR, acting for the Secretary, uses the information that we collect to ensure that lessees accurately value and appropriately pay all royalties based on the oil and gas produced from Federal onshore and offshore leases. ONRR and other Federal government entities, including the Bureau of Land Management, and the State

governmental entities, use the information for audit purposes, and for evaluating the reasonableness of product valuation or allowance claims that lessees submit. Please refer to the *Data* section for the estimated total burden hours.

A. Federal Oil and Gas Valuation Regulations

The valuation regulations at 30 CFR part 1206, subparts C and D, mandate that lessees collect and/or submit information used to value their Federal oil and gas, including (1) transportation and processing allowances and (2) regulatory allowance limit information. Lessees report certain data on form ONRR-2014, [*Report of Sales and Royalty Remittance*] (OMB Control Number 1012-0004, *Royalty and Production Reporting*). The information that we request is the minimum necessary to carry out our mission and places the least possible burden on respondents. If ONRR does not collect this information, both Federal and State governments may incur a loss of royalties.

Transportation and Processing Regulatory Allowance Limits: Lessees may deduct the reasonable, actual costs of transportation and processing from Federal royalties. The lessees report these allowances on form ONRR-2014. For oil and gas, regulations establish the allowable limit on transportation allowance deductions at 50 percent of the value of the oil or gas. For gas only, regulations establish the allowable limit on processing allowance deductions at 66 $\frac{2}{3}$ percent of the value of each gas plant product.

B. Accounting and Auditing Relief for Marginal Properties

In 2004, we amended our regulations to comply with section 7 of the Federal Oil and Gas Royalty Simplification and Fairness Act of 1996. These regulations provide guidance for lessees and designees seeking accounting and auditing relief for qualifying Federal marginal properties. Under the regulations, both ONRR and the State concerned must approve any accounting and auditing relief granted for a marginal property.

OMB Approval

We will request OMB approval to continue to collect, from companies, lessees, and designees, information used (1) to value their Federal oil and gas, including transportation and processing allowances, and (2) to request accounting and auditing relief approval for qualifying Federal marginal properties. Not collecting this

information would limit the Secretary's ability to discharge fiduciary duties and may also result in the loss of royalty payments. We protect the proprietary information that we receive and do not collect items of a sensitive nature.

ONRR requires lessees to respond to information collections relating to valuing Federal oil and gas, including transportation and processing allowances. ONRR also requires that lessees submit the allowance information to obtain benefits for claiming allowances on form ONRR-2014. In addition, ONRR requires lessees to respond to information collections in regards to requesting approval for accounting and auditing relief.
