Abstract: The purpose of this information collection is to assist the NPS in managing the Commercial Use Authorization Program. Conducting commercial operations in a unit of the National Park System without a contract, permit, commercial use authorization, or some other written agreement is prohibited. Section 418, Public Law 105–391 (54 U.S.C. 101925) gives the Secretary of the Interior the authority to authorize a private person, corporation, or other entity to provide services to visitors in units of the National Park System through a Commercial Use Authorization (CUA). Such authorizations are not considered concession contracts. We authorize commercial operations that originate and operate entirely within a park; commercial operations that provide services originating and terminating outside of the park boundaries; organized children’s camps, outdoor

clubs, and nonprofit institutions; and other uses as the Secretary determines appropriate. The commercial operations include a range of services, such as mountain climbing guides, boat repair services, transportation services and tours, canoe livery operations, hunting guides, retail sales, equipment rentals, catering services, and dozens of other visitor services. Section 418 limits CUAs to:

- Commercial operations with annual gross receipts of not more than \$25,000 resulting from services originating and provided solely within a unit of the National Park System;
- Incidental use of resources of the unit by commercial operations which provide services originating and terminating outside of the boundaries of the unit; or
- Uses by organized children’s camps, outdoor clubs and nonprofit institutions (including back country use) and such other uses as the Secretary determines appropriate.

We collect information on the CUA Application (Form 10–550), the CUA Annual Report (Form 10–660), and CUA Monthly Report (Form 10–660A). We use the information from these forms to:

- Manage the program and operations.
- Determine the qualifications and abilities of the commercial operators to provide a high quality, safe, and enjoyable experience for park visitors.
- Determine the impact on the park’s natural and cultural resources.
- Manage the use and impact of multiple operators.

The information requested will allow the NPS to evaluate requests for a commercial use authorization and determine the suitability of the applicants to safely and effectively provide an appropriate service to the

visiting public. It will also enable the NPS to manage the activity in a manner that protects the natural and cultural resources and the park visitor. Management includes, but is not limited to, managing the number of permits issued, determining the location and time that the activity occurs, and requiring the appropriate visitor protections including insurance, equipment, training, and procedures.

Regulations resulting in information collection required for a Commercial Use Authorization include: 36 CFR 1.6—Permits; 36 CFR 2—Resource Protection, Public Use and Recreation; 36 CFR 5—Commercial and Private Operations; and 36 CFR 7—Special Regulations; 36 CFR 13—National Park System Units in Alaska.

Form Number: 10–550 Commercial Use Authorization Application and Instructions; 10–660 Commercial Use Authorization Annual Report and Instructions; and 10–660A Commercial Use Authorization Monthly Report and Instructions.
