Description of MyNAEP: The school coordinators are responsible for preparing for the assessment in their school using the MyNAEP system, which is an online secure site that provides participating schools with a convenient way to prepare for the upcoming assessment. MyNAEP serves as the primary resource and action center throughout the assessment process. The site also offers school coordinators an electronic way to prepare for the assessment at their own pace. The NAEP field representative will schedule an initial call in December to pre-review the major areas of the MyNAEP system with the school coordinator. A description of the tasks completed in the MyNAEP system can be found in Part B. The content of the MyNAEP system is included in this appendix.

Notes on the organization of Appendix J1

Notify Parents

Note: In this section the school coordinator will download and customize the parent notification letter (see Appendix D2-12 [public schools] and D2-11 [private schools] for the template of the letter), upload the customized letter to the system, and certify the date parents were notified. This is to ensure that parents/legal guardians are notified of their student's selection to participate in NAEP, which is a requirement of the Reauthorized Elementary and Secondary Education Act (ESEA).¹

Manage Questionnaires

Note: In this section the school coordinator identifies respondents for school and teacher questionnaires, sends respondents links to online questionnaires, and monitors completion of questionnaires. Additionally, the school coordinator distributes information about NAEP to teachers (see Appendix D1-7). The results of the questionnaire are used to provide contextual data from schools and teachers in The Nation’s Report Card.

Prepare for Assessment

Manage Questionnaires

NAEP collects information using questionnaires to provide a context for reporting student performance.

- School Questionnaires gather information on school policies and characteristics.
- Teacher Questionnaires gather information on teacher training and instructional practices.

This section also allows you to monitor the completion of the questionnaires and to send reminders. Please note that each one of your questionnaire recipients will receive automatic reminder emails to complete the questionnaire weekly, so you will likely not need to send any reminders yourself.

Complete the following:

Thank Students for Their Participation

Schools have been very creative in the variety of incentives used to encourage students to “show up” for the NAEP assessment. Many of their strategies did not cost the school anything. Examples of incentives that schools implemented include:

- extra credit;
- reduced-price or free school event tickets;
- raffle of gift certificates; and
- certificate for community service (provided by NAEP)

Work with your principal to consider ways to thank students for their participation.

Identify Your Columns-USL-SUB-5

NAEP needs to know what student data is in each column of your Excel file.

We have matched your column headings (on the left) with our required categories (on the right). For example, if your file has a column called "FName," the system already matched that to our "First Name" category.

- Review the matches in the table below, making any changes by selecting the drop-down menu.
- If your Excel file contains information that NAEP doesn't need (like homeroom), mark those columns as **Not Applicable**.

Tip: Do the column headings on the left display student data (e.g., Rosa) instead of column headings (e.g., Name)?

- Select the **Back to Beginning** button.
- On the **Upload File** screen, specify that your file does not contain column headers by selecting **No** for question number 1.

Today's students are digital natives. Their schools are usually equipped with computers, and digital tools are an integral part of the learning environment. To address the increased role of technology in classrooms, the National Center for Education Statistics (NCES) is transitioning the National Assessment of Educational Progress (NAEP) from paper and pencil to digitally based assessments. NCES is utilizing established best practices for NAEP to remain at the forefront of innovation for large-scale assessments. NCES is also exploring new testing methods and question types to reflect the growing use of technology in education.

Dept. of Agriculture Memo Authorizing Release of NSLP to NAEP

This memo replaces the United States Department of Agriculture (USDA) Letter

Date: School Year 2017-18

To: School Nutrition Program Personnel

From: National Assessment of Educational Progress (NAEP)

Subject: Policy on Limited Disclosure of Children's Eligibility Information to NAEP

As stated in the Eligibility Manual for School Meals (Section 5 - Confidentiality and Disclosure, Disclosure Requirements), school food authorities may disclose, without parent/guardian consent, children's names and eligibility status (whether they are eligible for free meals or free milk or reduced price meals) to persons directly connected with the administration or enforcement of a Federal or State education program, such as NAEP, as permitted by section 9(b)(6)(A)(ii)(I) of the Richard B. Russell National School Lunch Act.

The relevant section from page 88 of the Eligibility Manual for School Meals is shown below:

Because NAEP is a Federal education program, LEAs may disclose, without parent or guardian consent, children's names and eligibility status to persons directly connected to the administration or enforcement of NAEP. Additionally, LEAs may disclose children's names and eligibility status to persons directly connected with the administration or enforcement of State educational assessment programs to the extent the State assessment is part of the NAEP. Other State education programs may access participants' names and eligibility status, without parent or guardian consent. However, in both situations, the program must be established at the State (not local) level.

The term "persons directly connected" for the purpose of disclosure to NAEP includes Federal, State, and local program operators responsible for NAEP administration or compliance, and their contractors. This does not imply that these persons have routine access to participants' eligibility status. There must be a "need to know" relating to the administration or enforcement of a Federal education program or for legitimate NAEP purposes.

The above information is available on the FNS website at <https://www.fns.usda.gov/2017-edition-eligibility-manual-school-meals>.

Inclusion on NAEP Fact Sheet

Inclusion on NAEP

Students with Disabilities and English Language Learners

WHAT IS NAEP?

The National Assessment of Educational Progress (NAEP) is the largest continuing and nationally representative assessment of what our nation's students know and can do in core subjects such as mathematics and reading.

NAEP is congressionally mandated, and was first administered in 1969 to measure student achievement nationally. Teachers, principals, parents, policymakers, and researchers all use NAEP results to assess progress and develop ways to improve education in the United States.

The Importance of Inclusion

The responses of students with disabilities and English language learners on NAEP represent those of hundreds of other similar students. Without them, information about how to best meet the educational needs of these students would be lost. NAEP incorporates inclusive policies and practices into every aspect of the assessment, including selection of students, participation in the assessment administration, and valid and effective accommodations. Such best practices are essential to ensuring an inclusive assessment that yields meaningful NAEP results for all students with disabilities and English language learners. By representing their peers across the nation on NAEP, students with disabilities and English language learners help to ensure that NAEP results can be used to inform efforts to improve educational programs.

To ensure that the National Assessment of Educational Progress (NAEP) reflects the educational progress of all students, students with disabilities and English language learners must be included to the fullest extent possible.

Selection

Students with disabilities and English language learners are selected to participate in NAEP just like any other student. NAEP is administered to a sample of students who represent the student population of the nation as a whole and of individual states and districts participating in the Trial Urban District Assessment (TUDA). Within each selected school and grade to be assessed, students are chosen at random to participate in NAEP. Regardless of race/ethnicity, socioeconomic status, disability, status as an English language learner, or any other factors, every student has the same chance of being chosen.

For More Information Contact your NAEP State Coordinator with specific questions about including students with disabilities and English language learners. Details of the National Assessment Governing Board's policy on testing and reporting results on students with disabilities and English language learners on NAEP are available at <http://www.nagb.org/publications/inclusion-special-population-naep.pdf>. Current NAEP accommodations and inclusion policies are posted on the website at <http://nces.ed.gov/nationsreportcard/about/inclusion.asp>.

Participation

Many students with disabilities and English language learners are able to participate in the assessment administration alongside their peers.

Participating in NAEP allows students with disabilities and English language learners to experience a large-scale

assessment administration without high-stakes consequences. Since NAEP does not produce scores for individual students or results for schools, participation in NAEP is not tied to grades or evaluations of students, teachers, or schools.

Accommodations

Students with disabilities and English language learners are provided with testing accommodations so that they can demonstrate their content knowledge and skills on NAEP. NAEP offers a comprehensive set of accommodations to increase access to testing for students with disabilities and English language learners. To ensure that appropriate accommodations are determined for individual students, NAEP relies on school staff to make inclusion and accommodations decisions for those students selected for the assessment.

The accommodations allowed on NAEP and those allowed in states are often similar, but there may be some differences. Sometimes these differences result from the way that the subject being measured is defined in the NAEP frameworks. For example, NAEP does not allow read-aloud of any part of the NAEP reading test except the instructions, because decoding words is part of what the NAEP framework is measuring.

Your NAEP State Coordinator has developed inclusion guidelines for including students with disabilities and English language learners on NAEP and provided them to schools selected for the assessment. These instructions will highlight any differences between NAEP and your state's policies and provide guidance on how to include and accommodate sampled students.

Inclusion on NAEP

Students with Disabilities and English Language Learners

WHAT IS NAEP?

- The National Assessment of Educational Progress (NAEP) is the largest continuing and nationally representative assessment of what our nation's students know and can do in core subjects such as mathematics and reading.
- NAEP is congressionally mandated, and was first administered in 1969 to measure student achievement nationally. Teachers, principals, parents, policymakers, and researchers all use NAEP results to assess progress and develop ways to improve education in the United States.

The Importance of Inclusion

The responses of students with disabilities and English language learners on NAEP represent those of hundreds of other similar students. Letter from Department of Education Encouraging Inclusion

UNITED STATES DEPARTMENT OF EDUCATION

Dear Principal or Administrator:

Thank you for allowing your school to participate in the National Assessment of Educational Progress (NAEP). These assessments are vital to measuring the academic skills and progress of the students in our nation and in each state.

As you know, the Individuals with Disabilities Education Act (IDEA) requires that all students with disabilities participate in state and district wide assessment programs through regular assessments, including with appropriate accommodations when necessary, or alternate assessments. The Elementary and Secondary Education Act (ESEA) likewise requires the participation of students with disabilities in the student academic assessments required under that Act, and also requires that English learners, as well as other groups of students, participate in those state assessments. The law allows for reasonable accommodations on assessments administered to English learners. Although federal law does not explicitly specify similar requirements regarding the participation of students with disabilities and English learners in NAEP, the NAEP program has been working very hard to make its sample of students taking the assessments as representative as possible of all students. We are asking you to ensure that the greatest possible number of students with disabilities and English learners in your school, who are selected to participate, do in fact take the assessments.

Please keep in mind that NAEP does not produce results for individual students or schools, as your state or district tests might. All results are summarized only at the national and state levels (and for a few large urban districts). In other words, the NAEP assessments do not impose consequences for the student or the school, and are instead intended purely to provide a picture of educational performance and progress.

We want to include as many students as possible in the picture NAEP provides for us. For this reason, we ask you to do all you can to help ensure the participation of students who are selected for NAEP whenever possible, including students with disabilities and English learners. Students taking the NAEP are able to use most of the testing accommodations they usually receive in other tests (e.g., extended time, small group testing). Most students with disabilities and English learners are indeed able to participate in NAEP with their fellow students.

NAEP is one of the most visible and important indicators of educational performance in this country, and we very much appreciate your support in making NAEP as inclusive as possible.

Update Student List

Student List Requirements and Instructions

NAEP 2018 Instructions for Preparing a Current List of Students

Part I: Requirements

NAEP needs a complete and current list of **all students** in the selected grade(s) to be assessed (**not just new students**).

- The list should reflect **January 2018** enrollment.
- The list will help NAEP identify any students that were not included on the original list submitted in the fall of 2017.
- Include all students, even students who are commonly excluded from other testing programs.
- Your student list **must be a Microsoft Excel file** (version 95 or later). If your student information is available in a different format, you can simply copy and paste the data into Excel.
- If you need assistance, call the NAEP Help Desk at 1-800-283-6237.

Include the following information for each student in the selected grade.

- ✓ Student first name
- ✓ Student last name
- ✓ Month of birth
- ✓ Year of birth

If available, please include...

- ✓ Student middle name/initial
- ✓ State unique student ID (**do not use the student's Social Security number**)

Part II: List Format

You will need to answer questions about your Excel file's format during the upload process. Will your file have all student information in separate columns? Good! That means you're using the preferred format, pictured below.

	A	B	C	D	E
1	First Name	Middle Name	Last Name	Month of Birth	Year of Birth
2	Riley	R	Armstrong	3	2006
3	Logan	D	Barker	4	2007
4	Alexander	Michael	Brown	12	2006
5	Austin	Todd	Brown	6	2006
6	Brian	Matthew	Campbell	3	2007

NAEP will also accept student names and birth dates formatted in **single columns**.

- During the upload, you'll tell us how student names and birthdates are formatted.
- You will specify the order of student names, whether or not the student name column includes middle names, and how the names are separated (**by a space, comma, or other character**). Middle names and initials are optional. The example below is **last name, first name**.
- The same idea applies to birth dates, too. The example below is **mm/dd/yyyy**.

	A	B
1	Name	Birthdate
2	Armstrong, Riley	3/18/2006
3	Barker, Logan	4/15/2017
4	Brown, Alexander	12/2/2006
5	Brown, Austin	6/23/2006
6	Campbell, Brian	3/1/2007

Part III: Pre-upload Checklist

Formatting errors can cause the file upload to fail. Save time by using this pre-upload checklist. If you can check off everything on this list, then you're ready to upload your file.

- The file was prepared after January 1st and contains all currently enrolled students in the selected grade.
- Blank rows do not start until after the last student record. There are no blank cells or rows within the required student information (blanks for middle names and student IDs are ok).
- The file has only one worksheet with data on it. The extra worksheets are blank.
- The file does not have any footers or images at the bottom.
- The header for my file is in a single row, and there are no images at the top.
- The filename ends with **.xls** or **.xlsx**.
- I understand how student names are formatted in my file.
- I understand how month and year of birth are formatted in my file.

Part IV: Special Situations & Tips

- The first row of data in your file will be read as the column headers. Each succeeding row will be considered a student record.
- Use the most current enrollment information available, so that all students have an equal opportunity to be selected for NAEP.
- If more than one grade-level is being assessed at your school, submit separate Excel files for each grade.
- Year-round schools with multiple tracks of students should not include any students who will be on break on the scheduled assessment date.
- **If MyNAEP cannot process your file, try selecting the Back button and revising your answers about how the Excel file is formatted.** In the example below, the user checked the wrong box for the number of digits in the birth year. The red text at the top of the screen will display the number of digits in the birth year (in this case, four).

Below this, a question asks: "As it appears above, how is year of birth represented? If the value above displays time, disregard that portion." There are two radio button options: "As four digits (2015)" and "As two digits (15)". The "As two digits (15)" option is selected with a checkmark. At the bottom, there are four buttons: "Back", "Save", "Save and Continue", and "Exit".

TO: Teachers of Grade 8 Students
FROM: NAEP representative
SUBJECT: National Assessment of Educational Progress (NAEP)

Thank you for the excellent work that you and your students have invested in learning and achievement. We are pleased that students from your school have been selected to represent thousands of students across our country by participating in the National Assessment of Educational Progress (NAEP) 2019 assessment.

This assessment monitors what U.S. students know and can do in key subject areas at the elementary, middle, and high school levels. Since 1969, NAEP has provided U.S. educators and the public with reliable profiles of student achievement. This is possible because of dedicated teachers like you who support and participate in this assessment.

Please take note of the attached lists, which contain the names of the selected students and their session numbers. It is critical to the results of the study that all students selected for NAEP attend the correct session on time. We appreciate your assistance.

Each NAEP assessment session will take between 90 and 120 minutes, including transition time and directions. The sessions are scheduled for:

SESSION	DATE	TIME	LOCATION
DA0801A		8:20 am	Media Center
DA0801B		1:05 pm	Media Center
DS0801A		8:20 am	Cafeteria
DS0801B		1:05 pm	Cafeteria
