Assumptions:

^a We have assumed that there are approximately 390 existing sources currently subject to this rule, with no addition three years of this ICR.

^b This ICR uses the following labor rates: \$147.40 per hour for Executive, Administrative, and Managerial labor; \$ labor. These rates are from the United States Department of Labor, Bureau of Labor Statistics, June 2018, “Table 2 from column 1, “Total Compensation.” The rates have been increased by 110 percent to account for the benefit pac

^c We assumed that the four magnet wire facilities on average incorporate a higher number of processes that’s typica processing compiling, and reviewing has been estimated based on comments received from NEMA.

^d We have assumed that each respondent will take eight hours twice per year to complete the semiannual reports.

^e We have assumed that each respondent will take four hours twice per year to complete the task.

^f Totals have been rounded to 3 significant figures. Figures may not add exactly due to rounding.
