Ginnie Mae's Mortgage-Backed Securities Guide 5500.3, Revision 1 ("Guide") provides instructions and guidance to participants in the Ginnie Mae Mortgage-Backed Securities programs ("Ginnie Mae I and Ginnie Mae II"). Participants are organizations (mortgage companies, banks, etc.) that have been approved by Ginnie Mae to issue Ginnie Mae securities. Participants in the Ginnie Mae I program issue securities backed by single-family or multifamily loans. Participants in the Ginnie Mae II program issue securities backed by single-family loans. Ginnie Mae II MBS are modified pass-through mortgage-backed securities on which registered holders receive an aggregate principal and interest payment from a central paying agent on all of their Ginnie Mae II MBS. The Ginnie Mae II MBS also allow small issuers who do not meet the minimum dollar pool requirements of the Ginnie Mae I MBS to participate in the secondary mortgage market. In addition, the Ginnie Mae II MBS permit the securitization of adjustable rate mortgages ("ARMs"). Any requirement in a document created under a Ginnie Mae MBS program is effective as of the date of the Guide,

including amendments. Included in the Guide are Appendices. The Appendices include the forms or documents needed to comply with program requirements. Below are the required forms or data collected to participate in the MBS programs.

The following describes how, by whom, how frequently, and for what purpose the information is to be used. The forms are available in a PDF fillable format unless stated otherwise on our website at www.ginniemae.gov.

The form is reviewed by Ginnie Mae's pool processing agent to confirm that individuals who signed pool document submissions are authorized to do so.

Ginnie Mae requires annual updates and updates when there is a change in the authorized signers of the issuer's company or a change in the issuer's name. The information is required by Section 306(g) of the National Housing Act or by Ginnie Mae Handbook 5500.3, Rev. 1.

Forms and Agreements Required for Processing/Issuing Ginnie Mae Pools

An issuer must apply for Commitment Authority and Pools Numbers before they can place mortgages in a Ginnie Mae Pool. The following two forms are used for this purpose.

4. Form HUD 11700/ Appendix II-1/ Letter of Transmittal for Commitment Authority and/or Pool Numbers

This is a multifunctional transmittal form which is completed by the issuer when requesting commitment authority and/or pool numbers. The frequency of use depends on the issuer's need for specific services from Ginnie Mae. When requesting only pool numbers, the issuer only needs to complete the HUD 11700 form. When requesting commitment authority, the issuer has to prepare the HUD 11700 and the HUD 11704.

An issuer can request both commitment authority and pool numbers within one request. If the issuer has available pool numbers, but lacks a sufficient amount of commitment authority necessary to form pools, the issuer can apply for Commitment Authority only. An issuer may need to apply for Ginnie Mae Pool Numbers only. This is done when an issuer has sufficient commitment authority available for use but needs pool numbers. There is no fee for requesting pool numbers.

There are two types of Commitment Authority a Ginnie Mae issuer may apply for: 1) Single Family or Single Line Commitment Authority which expires one year from date of approval and 2) Multifamily or Multi-Line Commitment Authority which expires two years from date of approval.

There is only one type of Pool Numbers a Ginnie Mae issuer may apply for: Alpha-Numeric.

Pool Numbers have no expiration date and can only be used once. The information is required by Section 306(g) of the National Housing Act or by Ginnie Mae Handbook 5500.3, Rev. 1.

3. Describe whether, and to what extent, the collection of information involves the use of automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses, and the basis for the decision for adopting this means of collection. Also describe any consideration of using information technology to reduce burden.

Ginnie Mae has implemented automated and electronic means of submitting most of its collection of information in order to minimize burden.

GinnieNET:

GinnieNET is used by the issuers and document custodians to collect and retrieve information as it relates to pool processing. It is also used for the reporting of remaining principal balances to Ginnie Mae. Ginnie Mae participants must submit their monthly report of pool and loan level data via the RFS Module in Ginnie Mae’s Enterprise portal.

The following forms are submitted using GinnieNET: 11705, 11706, 11708, 11711B, 11714, 11714SN and 11732.

Ginnie Mae Enterprise Wide Portal:

Ginnie Mae’s Enterprise Wide Portal is a secure web-based system. The Ginnie Mae portal provides access to several applications, which include the following:

Reporting and Feedback System (11710-D, Appendices VI-17 and VI-19), Servicemember’s Civil Relief Act (Appendices XI-6, XI-8 and XI-9), Master Agreement Management System (11702, 11703-II, 11707, 11709, 11715, and 11720)

4. Is this information collected elsewhere? If so, why cannot any similar information already available be used or modified.

This information collection effort does not duplicate any other effort, so it will not produce or create duplication of information.

5. Does the collection of information impact small businesses or other small entities (item 5 of OMB form 83-i)? Describe any methods used to minimize burden.

There is no significant economic impact on small businesses or entities through the collection of the information. The forms are designed to minimize burden, and Ginnie Mae is constantly reviewing its forms and processes to see how the forms and/or processes can be streamlined to further minimize burden.

6. Describe the consequence to Federal program or policy activities if the collection is not conducted or is conducted less frequently, as well as any technical or legal obstacles to reducing burden.

Ginnie Mae is a wholly owned corporation of the United States within the Department of Housing and Urban Development whose guaranty of mortgage-backed securities is back by the full faith and credit of the United States Government. As such, the information required from issuers is necessary for Ginnie Mae to issue mortgage-backed securities as each security is unique and determined by the information provided on the forms received from the issuers. The collections permit Ginnie Mae to verify: 1) the individuals who are signing documents on behalf of an issuer are authorized to do so; 2) the name and location of the entities responsible for the various Ginnie Mae accounts and mortgage documents, and 3) those entities that are responsible for servicing the mortgages that back the Ginnie Mae pools. Ginnie Mae needs this information to mitigate risk and evaluate its business operations, procedures and programs. Ginnie Mae also requires the collection of information to ensure that there are no deficiencies, which could affect the pass through of securities to its investors.

7. Explain any special circumstances requiring:

- requiring respondents to report information to the agency more than quarterly;

Issuers must remain in compliance with Ginnie Mae's program requirements to obtain certain benefits. Additionally, issuers are required to submit financial information monthly, quarterly, and annually so Ginnie Mae and/or its agents can monitor their Ginnie Mae portfolio and financial status. As part of this requirement, issuers are to maintain adequate accounting records in electronic format and hard copy to submit to Ginnie Mae or its agents as needed.

Forms/information required to be submitted monthly are as follows:

- o 11714/Appendix VI-10 – Issuer's Monthly Remittance Advice
- o 11714SN/Appendix VI-11 – Issuer's Monthly Serial Note Remittance Advice;

- o Appendix VI-19 – Reporting and Feedback (RFS) Issuer Monthly Report of Pool and Loan Data
- o Appendix VI-17 – HMBS Monthly Pool and Loan Level Report
- o Appendix VI-5 – Issuer’s Month Summary Report (certification)
- o Appendix VI-21 – HMBS Issuer’s Monthly Summary Report (certification)

Forms/information required to be submitted quarterly are as follows:

- o Appendix XI-6 – Servicemembers Civil Relief Act Loan Eligibility Information
- o Appendix XI-8 –SCRA Quarterly Reimbursement Request,
- o Mortgage-Bankers Financial Reporting Form (for non-regulated/supervised issuers only)
- o Appendix XI-9 – Servicemembers Civil Relief Act Eligibility and Reimbursement Files
- o Appendix VI-18 – WHFIT Tax Reporting File Layout

Forms/information required to be submitted annually are as follows:

- o Appendix VI-20 – Electronic Submission of Issuers’ Insurance and Annual Audited Financial Documents
- o Master Agreements (11702, 11703-II, 11707, 11709, 11715, 11720)

- requiring respondents to prepare a written response to a collection of information in fewer than 30 days after receipt of it;

N/A

- requiring respondents to submit more than an original and two copies of any document;

Most Ginnie Mae’s forms require Issuers to retain a copy of their submissions for their records. Each respective appendix will specify, when the original and copies are required.

Issuers are required to submit originals of the following:

HUD 11702/Appendix I-2 – Resolution of Board of Directors and Certificate of Authorized Signatures so Ginnie Mae or it’s pool processing agent can compare the names and signatures of the individuals authorized by the issuer to do business with Ginnie Mae.

- requiring respondents to retain records other than health, medical, government contract, grant-in-aid, or tax records for more than three years;

N/A

- in connection with a statistical survey, that is not designed to produce valid and reliable results than can be generalized to the universe of study;

N/A

- requiring the use of a statistical data classification that has not been reviewed and approved by OMB;

N/A

- that includes a pledge of confidentiality that is not supported by authority established in statute or regulation, that is not supported by disclosure and data security policies that are consistent with the pledge, or which unnecessarily impedes sharing of data with other agencies for compatible confidential use; or

N/A

- requiring respondents to submit proprietary trade secret, or other confidential information unless the agency can demonstrate that it has instituted procedures to protect the information's confidentiality to the extent permitted by law.

N/A

8. Identify the date and page number of the *Federal Register* notice (and provide a copy) soliciting comments on the information. Summarize public comments and describe actions taken by the agency in response to these comments. Describe all efforts to consult with persons outside the agency to obtain there.

The attached solicitation was submitted to the Federal Register for 60 days for comments in the Federal Register dated Friday, July 19, 2019, Vol. 84, No.139. On an on-going basis, Ginnie Mae meets with its business partners to discuss new policy, new programs and enhancements to its business processes (which include data collected from issuers), for the purpose of seeking industry input before implementation. This is done formally and informally in several arenas, through the Mortgage Bankers Association's Ginnie Mae Liaison Committee meetings, which are held three times a year, regular issuer training sessions conducted by Ginnie Mae, and yearly on-site issuer field visits performed by Ginnie Mae account executives.

9. Explain any payments or gifts to respondents, other than remuneration of contractors or grantees.

There are no payments or gifts other than remuneration of contractors or grantees.

10. Describe any assurance of confidentiality provided to respondents and the basis for assurance in statute, regulation or agency policy.

The forms comply with the Privacy Act. The information collected contains no personal or organizational identifiers. Assurance of confidentiality is neither provided nor needed for any of these information collections. Personal identifiable information is covered under the Privacy Act of 1974 (U.S.C. 552)

11. Justify any questions of a sensitive nature, such as sexual, religious beliefs, and other matters that are commonly considered private.

The information collected contains no questions of a sensitive nature, therefore, no justification is required.

12. Estimate public burden: number of respondents, frequency of response, annual hour burden. Read the complete instructions on the form 83i. Explain how the burden was estimated. Generally, estimates should not include burden hours for customary and usual business practices.

- * **Provide a table to describe the elements of the burden. Break out each form used.**
- * **If this collection uses more than one form, provide separate estimates for each form and aggregate the hour burdens in item 13 of OMB Form 83i; and**
- * **Provide estimates of annualized cost to respondents for the hour burdens for collections of information, identifying and using appropriate wage rate categories. The cost of contracting out or paying outside parties for information collection activities should not be included here. Instead this cost should be included in Item 13.**

There are approximately 19 forms and 37 appendices included with this submission. If there are more than 10 respondents, the collection will be PRA compliant. The decrease in burden hours are a result of a decrease in the forms and appendices required from our issuers.

While most of the calculations are based on number of respondents multiplied by the frequency of response, there are several items whose calculations are based on volume. While the top part of the table shows that most of the calculations are based on number of respondents multiplied by the frequency of response, the bottom section of the table reflects items where the calculation is based on volume. We do have 468 approved Issuers, not all of them are actively pooling. We have some program participants that issue only a few pools and others that issue hundreds.

Attachment A provides an estimate of the burden hours and cost to issuers and/or respondents for reviewing, collecting, and submitting the requested information.

The average hourly cost is \$29 per hour. The cost to respondents is based on the average hourly wages of mortgage industry employees to review, collect and submit the information to Ginnie Mae or its agent.

Calculation is as follows: \$29.00 per hour x total burden hours = Estimated cost to respondents/issuers.

13. Provide an estimate of the total annual cost burden to respondents or record keepers resulting from the collection of information (do not include the cost of any hour burden shown in Items 12 and 14). one.

- **The cost estimate should be split into two components: (a) a total capital and start-up cost component (annualized over its expected useful life); and (b) a total operation and maintenance purchase of services component. The estimates should take into account costs associated with generating, maintaining, and disclosing or providing the information. Include descriptions of methods used to estimate major cost factors including system and technology acquisition, expected useful life of capital equipment, the discount rate(s) and the time period over which costs will be incurred. Capital and start-up costs include, among other items, preparations for collecting information such as purchasing computers and software; monitoring, sampling, drilling and testing equipment; and record storage facilities;**
- **If cost estimates are expected to vary widely, agencies should present ranges of cost burdens and explain the reasons for the variance. The cost of purchasing or contracting out information collection services should be a part of this cost burden estimate. In developing cost burden estimates, agencies may consult with a sample of respondents (fewer than 10) utilize the 60-day pre-OMB submission public comment process and use existing economic or regulatory impact analysis associated with the rulemaking containing the information collection, as appropriate.**

- **Generally, estimates should not include purchases of equipment or services, or portions thereof made: (1) prior to October 1, 1995, (2) to achieve regulatory compliance with requirements not associated with the information collection, (3) for reasons other than to provide information or keep records for the government or (4) as part of customary and usual business or private practices.**

There are no additional costs to respondents.

14. Estimate annualized costs to the Federal government.

	Monthly expense*	Monthly expense**		Estimated Annual Cost
PPA	\$925,655.00		times 12	\$11,107,860.00
MBSOA		\$1,050,204.00	times 12	\$12,602,448.00
Total				\$ 23,710,308.00

*Monthly expense based on PPA (Pool Processing Agent) contract (January 2019 values)
Includes: pool processing, certificates, transfer requests, certificate transfers, pool termination,

**Monthly expense based on MBSOA (Mortgage-Backed Securities Operations & Analytics) contract (January 2019 value)

Includes: investor reporting, data disclosure, and application maintenance

15. Explain any program changes or adjustments reported in items 13 and 14 of the OMB Form 83i Item 13:

- The 11710DH refers to an electronic process for certifying to the truth and accuracy of the monthly investor reporting requirement. When the HECM program was designed it was designed to be a purely electronic submission. This certification activity is mirrored off of the 11710D (forward program), and while we refer to this as the 11710DH (H for reverse product), there is no paper form.

- Number of Respondents:

Currently there are approximately 423 Ginnie Mae approved Issuers that are actively doing business in our programs. Approximately 368 of them are managing an active portfolio.

- Explanation of change in burden hours:

The most significant change comes with the change to the monthly report of pool and loan level data. In the past we have based this on volume. However, given that this is a monthly ongoing obligation for all active program participants with an active portfolio the burden is now based on the participant vs. the volume. The associated burden has also decreased to reflect the time to prepare files and submit any necessary corrections.

The change in burden hours is a result of the following:

The reporting obligation associated with the following has been consolidated into one reporting stream and the forms are no longer used.

- o 11710-A Appendix VI-4
- o 11710-E Appendix VI
- o 1710-B Appendix VI-12
- o 1710-C Appendix VI-13
- o RBP Reporting

Given that all the data was consolidated into one reporting stream, the individual forms are no longer used. The data collection is described in Appendix VI-17 and VI-19.

- Elimination of Appendix III-9, faxes are no longer received, and corrections may be submitted electronically through RFS.

- 16. For collection of information whose results will be published, outline plans for tabulation and publication. Address any complex analytical techniques that will be used. Provide the time schedule for the entire project, including beginning and ending dates of the collection of information, completion of report, publication dates, and other actions.**

Results of the Information Collection will not be used for tabulation or publication.

- 17. If seeking approval to not display the expiration date for OMB approval of the information collection, explain the reasons that display would be inappropriate.**

Ginnie Mae will display the OMB expiration dates on its forms.

- 18. Explain each exception to the certification statement identified in item 19.**

Ginnie Mae does not request an exception to the certification statement identified in item 19.
