The information collected on FCC Form 175-A will be used by the Federal Communications Commission (Commission) to enable an incumbent 39 GHz licensee to make an initial commitment to either accept modification of its 39 GHz spectrum holdings (either as proposed by the Commission or an acceptable alternative) or relinquish its existing spectrum usage rights in exchange for an incentive payment to be paid from auction proceeds.

The Commission estimates that each response to this collection of information will take on average .5 hours. This estimate includes the time to read the instructions, look through existing records, gather and maintain required data, and actually complete and review the form or response. If you have any comments on this estimate, or on how we can improve the collection and reduce the burden it causes you, please write the Federal Communications Commission, AMD-PERM, Paperwork Reduction Project (3060-xxxx), Washington, D.C. 20554. We will also accept your comments via the Internet if you send them to PRA@fcc.gov. PLEASE DO NOT SEND COMPLETED APPLICATION FORMS TO THIS ADDRESS.

The information collected in FCC Form 175-A will be made available for public inspection.

You are not required to respond to a collection of information sponsored by the Federal government, and the government may not conduct or sponsor this collection, unless it displays a currently valid OMB control number or if we fail to provide you with this notice. This collection has been assigned OMB control number of 3060-xxxx.

THE FOREGOING NOTICE IS REQUIRED BY THE PAPERWORK REDUCTION ACT OF 1995, P.L. 104-13, OCTOBER 1, 1995, 44 U.S.C. 3507.

By clicking the "Certify & Submit" button below, I certify that:

1. The applicant represents itself and any other licensee(s) that control or are controlled by the applicant and/or have controlling ownership interests in common with the applicant with licenses being consolidated for purposes of Auction 103 that are listed in this application (collectively, "Applicant Licensee(s)") with respect to this application.
2. The applicant is authorized by the Applicant Licensee(s) to name the Initial Commitment Representative(s) listed in this application.
3. The Applicant Licensee(s) have authorized the Initial Commitment Representative(s) named in this application to take the following actions on their behalf with respect to all existing 39 GHz licenses held by the Applicant Licensee(s) that are required in order to make an initial commitment:
 - a. propose an alternative reconfiguration as the basis for modified licenses with respect to all existing 39 GHz licenses held by the Applicant Licensee(s);
 - b. commit the Applicant Licensee(s) to accept modified licenses as part of an Initial Commitment, whether based on a reconfiguration proposed by the Commission or an acceptable alternative reconfiguration submitted by the Initial Commitment Representative(s);
 - c. relinquish spectrum usage rights of the Applicant Licensee(s) that would comprise a modified partial PEA license in exchange for an incentive payment;
 - d. commit the Applicant Licensee(s) to relinquishing all the spectrum usage rights pursuant to all existing 39 GHz licenses held by the Applicant Licensee(s) in exchange for a single incentive payment, regardless of the number of licenses held by the Applicant Licensee(s) and regardless of whether the Applicant Licensee(s) consist of multiple licensees;
 - e. redistribute the holdings of the Applicant Licensee(s) in Round Zero of the auction;
 - f. if the Applicant Licensee(s) consist of more than one entity, designate one or more entities among the Applicant Licensee(s) to receive any incentive payment with respect to the relinquished spectrum usage rights of the Applicant Licensee(s); and
 - g. make binding representations and certifications as required on behalf of the Applicant Licensee(s) with respect to incentive payments for any and all existing 39 GHz licenses.
4. The Applicant Licensee(s) acknowledge that the Commission will not differentiate among separate existing 39 GHz licenses held by Applicant Licensee(s) for purposes of reconfiguring 39 GHz holdings, whether the Applicant Licensee(s) consist of only one or multiple licensees.
5. The Applicant Licensee(s) acknowledge that the Commission will cause only a single incentive payment to be made for the relinquishment of all spectrum usage rights pursuant to existing 39 GHz licenses held by the Applicant Licensee(s), regardless of the number of licenses held by the Applicant Licensee(s), regardless of whether the Applicant Licensee(s) consist of multiple licensees, and regardless of whether the incentive payment is being directed to one or more entities among the Applicant Licensee(s).
6. The Applicant Licensee(s) acknowledge that by submitting this application each of them becomes an "applicant" in Auction 103 within the meaning of and for the purposes of section 1.2105(c) of the Commission's rules, 47 C.F.R. § 1.2105(c).

7. The Applicant Licensee(s) acknowledge and agree that the Initial Commitment Representative(s) named in this application are authorized to bind the Applicant Licensee(s) to do any and all of the following with respect to any incentive payment made in exchange for the relinquishment of existing 39 GHz licenses:
- a. agree to indemnify and hold harmless the United States, the Commission, and any disbursing officer, from any and all liability arising from the disbursement of an incentive payment relating to existing 39 GHz licenses held by the Applicant Licensee(s);
 - b. acknowledge and agree that an incentive payment relating to any existing 39 GHz license(s) held by the Applicant Licensee(s) will not be made to (or for the benefit of) any payee appearing on the U.S. Treasury's "Do Not Pay" portal;
 - c. acknowledge that any person who knowingly submits instructions regarding an incentive payment containing any misrepresentation or any false, incomplete or misleading information may be guilty of a criminal act and may be subject to criminal penalties;
 - d. certify that the Applicant Licensee(s) are in compliance with all applicable statutes, regulations, rules and instructions entitling the Applicant Licensee(s), or relating, to an incentive payment;
 - e. certify that all information provided for making an incentive payment is true, accurate and complete and understands that the incentive payment will be made from Federal funds and that any false claims, statements or documents, or concealment of a material fact may be prosecuted under applicable Federal law and/or result in civil action;
 - f. acknowledge liability to the Commission for any debt owed to the Commission that the Applicant Licensee(s) incurred before, or that they may incur after, the submission of this application, including all accrued interest, penalties and costs, and that the debt will continue to accrue interest, penalties and costs until paid;
 - g. acknowledge and agree that an incentive payment relating to existing 39 GHz licenses may be subject to offset, and that the Commission may, pursuant to applicable law, pay all debt owed to the Commission (including its reporting components or the United States) by the Applicant Licensee(s) or, if applicable, any payee designated by the Applicant Licensee(s) incurred before, or that they may incur after, the submission of this application from the Applicant Licensee(s)' share of auction proceeds;
 - h. agree that if an appeal of, or request for waiver or compromise of, any debt owed by the Applicant Licensee(s) to the Commission is pending at the conclusion of Auction 103, the Commission may withhold so much of the Applicant Licensee(s)' share of the auction proceeds as is necessary to pay the debt in full, including accrued interest, penalties and costs, until issuance of a final non-appealable decision regarding the debt or waiver or compromise request, and may then pay the debt from the Applicant Licensee(s)' withheld share;
 - i. agree that the Commission may withhold a portion of the share of auction proceeds for any of the Applicant Licensee(s)' existing 39 GHz licenses pending final determination of any Commission liabilities with respect to the license(s) and that such portion may be applied towards the satisfaction of such liabilities; and
 - j. acknowledge that the Applicant Licensee(s) remain subject to the Commission's jurisdiction and authority to impose enforcement or other Commission liabilities with respect to their existing 39 GHz license(s), notwithstanding the relinquishment of any such license(s).

I declare, under penalties of perjury, that I am an authorized representative of the above-named Applicant Licensee(s), that I have read the foregoing certifications, and that all matters and things stated in this application are true and correct.
