*The number of Large Banks reporting decreased from 253 to 243. However, 150 Small Banks are voluntarily collecting and reporting data, and the number of respondents has been adjusted to reflect this.

General Description of Collection: The Community Reinvestment Act regulation requires the FDIC to assess the record of banks and thrifts in helping meet the credit needs of their entire communities, including low- and moderate-income neighborhoods, consistent with safe and sound operations; and to take this record into account in evaluating applications for mergers, branches, and certain other corporate activities.

There is no change in the method or substance of the collection. The overall increase in burden hours is a result of an increase in the number of Small Banks electing to voluntarily respond in certain categories. The increase is also, in small part, due to an adjustment in the agency’s estimate of the time required to submit strategic plan applications from 275 hours per respondent to 400 hours per respondent.

2. *Title:* Affiliate Marketing Consumer Opt-Out Notices.

OMB Number: 3064–0149.

Form Number: None.

Affected Public: Insured state nonmember banks, state savings associations that have affiliates and consumers that have a relationship with the foregoing.

Burden Estimate:

Type of burden	Estimated number of respondents	Estimated time per response	Frequency of response	Total estimated annual burden (hours)
Implementation	18	18 hours	1	144
Ongoing	2990	2 hours	1	1,980
Consumer Opt-Out	3857,027	5 minutes	1	71,419
Total Estimated Annual Burden	73,543

¹ According to data from the Federal Reserve’s National Information Center (NIC), there were 3,063 FDIC supervised institutions with an affiliate as of March 31st, 2017. This is an increase of 23 institutions from March 31st, 2014, which had 3,040 institutions with affiliates. Based on the research and NIC data, it is reasonable to estimate that the population of institutions with affiliates will continue to grow by approximately 23 institutions over the next three years. Thus, FDIC anticipates approximately 8 institutions per year will have an implementation burden.

² The number of respondents facing ongoing burden remains unchanged at 990.

³ The FDIC estimates that 95.4% of the 990 banks impacted by this information collection are community banks having an average of 12,098 consumers and the remaining 4.6% are non-community (larger) banks having an average of 124,745 consumers. The FDIC estimates that 5% of the 17,140,540 estimated consumers at these 990 institutions (857,027 consumers) elect to Opt-Out of affiliate marketing information sharing.

General Description of Collection: Section 214 of the FACT Act requires financial institutions that wish to share information about consumers with their affiliates, to inform such consumers that they have the opportunity to opt out of such marketing solicitations. The disclosure notices and consumer responses thereto comprise the elements of this collection of information.

There is no change in the method or substance of this information collection. There has been a net increase in the

estimated total annual burden primarily because of an upward adjustment in the agency’s estimate of the number of consumers at FDIC-supervised institutions that elect to opt-out of affiliate marketing information sharing. The increase in burden due to the adjustment in the estimated number of consumers affected was offset by the fact that most banks have completed the implementation phase of the information collection; the estimated

ongoing time per response for most affected institutions decreasing from 18 hours at implementation to 2 hours ongoing.

3. *Title:* Retail Foreign Exchange Transactions.

OMB Number: 3064–0182.

Form Number: None.

Affected Public: Insured state nonmember banks and state savings associations.

Burden Estimate:

Type of burden	Number of respondents	Estimated time per response	Frequency of response	Total estimated annual burden (hours)
Reporting	1	16	On Occasion	16

Type of burden	Number of respondents	Estimated time per response	Frequency of response	Total estimated annual burden (hours)
Recordkeeping	1	166	On Occasion	166
Disclosure	1	1,332	On Occasion	1,332
Total Estimated Annual Burden				1,514

General Description of Collection: This information collection implements section 742(c)(2) of the Dodd-Frank Act (7 U.S.C. 2(c)(2)(E) and FDIC regulations governing retail foreign exchange transactions as set forth at 12 CFR part 349, subpart B. The regulation allows banking organizations under FDIC supervision to engage in off-exchange transactions in foreign currency with retail customers provided they comply with various reporting, recordkeeping and third-party disclosure requirements specified in the rule. If an institution elects to conduct such transactions, compliance with the information collection is mandatory.

Reporting Requirements—Part 349, subpart B requires that, prior to initiating a retail foreign exchange business; a banking institution must provide the FDIC with a notice certifying that the institution has written policies and procedures, and risk measurement and management systems and controls in place to ensure that retail foreign exchange transactions are conducted in a safe and sound manner. The institution must also provide information about it intends to manage customer due diligence, new product approvals and haircuts applied to noncash margin.

Recordkeeping Requirements—Part 349 subpart B requires that institutions engaging in retail foreign exchange transactions keep full, complete and systematic records of account, financial ledger, transaction, memorandum orders and post execution allocations of bunched orders. In addition, institutions are required to maintain records regarding their ratio of profitable accounts, possible violations of law, records of noncash margin and monthly statements and confirmations issued.

Disclosure Requirements—The regulation requires that, before opening an account that will engage in retail foreign exchange transactions, a banking institution must obtain from each retail foreign exchange customer an acknowledgement of receipt and understanding of a written disclosure specified in the rule and of disclosures about the banking institution's fees and other charges and of its profitable accounts ratio. The institution must also

provide monthly statements to each retail foreign exchange customer and must send confirmation statements following every transaction. The customer dispute resolution provisions of the regulation require certain endorsements, acknowledgements and signature language as well as the timely provision of a list of persons qualified to handle a customer's request for arbitration.

There is no change in the method or substance of the collection. At present no FDIC-supervised institution is engaging in activities that would make them subject to the information collection requirements. FDIC originally estimated that 3 institutions would be impacted by the rule. The agency is reducing the estimated number of respondents to one (1) as a placeholder in case an institution elects to engage in covered activities in the future. There has been no change in the frequency of response or in the estimated number of hours required to respond. Because of the reduction in the estimated number of respondents from three (3) to one (1), the estimated annual burden has decreased.
