OMB Control Number: 3060-0984.

Title: 90.175(b)(1), Frequency Coordinator Requirements, Industrial/Business Pool frequencies.

Form Number: N/A.

Type of Review: Revision of a currently approved collection.

Respondents: Business or other for-profit entities, and State, local, or tribal government.

Number of Respondents and Responses: 2,700 respondents; 2,700 responses.

Estimated Time per Response: 1 hour.

Frequency of Response: One-time reporting requirement, and third party disclosure requirement.

Obligation to Respond: Required to obtain or retain benefits. Statutory authority for this collection of information is contained in Sections 4(i), 11, 303(g), 303(r), and 332(c)(7) of the Communications Act of 1934, as amended, 47 U.S.C. 154(i), 161, 301, 302(a), 303(g), 303(r), 309, 332(c)(7), 336 and 337.

Total Annual Burden: 2,700 hours.

Total Annual Cost: No cost.

Privacy Impact Assessment: No impact(s).

Nature and Extent of Confidentiality: There is no need for confidentiality with this collection of information.

Needs and Uses: Section 90.175 requires third party disclosures by applicants proposing to operate a land mobile radio station. If they are requesting a frequency that formerly was coordinated exclusively by one industry-specific frequency coordinator, they are required to obtain written concurrence of that frequency coordinator.

On August 18, 2016, the Commission adopted a Notice of Proposed Rulemaking, FCC 16-110, in WP Docket No. 16-261, RM-11719 and RM-11722 (2016 Notice of Proposed Rulemaking), which proposed to amend Part 90 of the Commission's Rules to expand access to private land mobile radio (PLMR) spectrum. Among the many actions taken in the 2016 Spectrum Access NPRM, the Commission proposed to make certain frequencies that are designated for central station alarm operations available for other PLMR uses.

Specifically, the Commission proposed to modify section 95.35(c)(63) to remove the use limitation in the urbanized areas where the frequencies

designated for alarm use in urban areas are not in use. The Commission tentatively concluded that it would be in the public interest to make these frequencies available for other PLMR operations in those areas and sought comment on this proposal, including its costs and benefits. The Commission also sought comment on other ways to expand PLMR users' access to frequencies that are designated, but no longer needed, for central station commercial protection services, including by making available channels in urbanized areas where some of the urban frequencies are in use, including: Related costs and benefits associated with such proposals; current and expected future need for central station commercial protection service channels in the 460-470 MHz band; and how to protect incumbent central station commercial protection service operations from harmful interference if eliminating the use restriction on any frequency in any area where it currently is in use.

On October 22, 2018, the Commission issued a Report and Order and Order, FCC 18-143, in WP Docket No. 15-32, RM-11572, WP Docket No. 16-261, RM-11719 and RM-11722 (800/PLMR Access Order), in which it revised certain rules to require applicants for channels currently designated for central station alarm use to obtain the concurrence of the central station alarm frequency coordinator in order to use the channels for uses other than central station alarm operations. This requirement is similar to existing requirements pertaining to certain other channels. The Report and Order and Order did not revise any of the information collection requirements that are contained in this collection but rather added additional frequencies to the list. Therefore, this essentially is adding an additional 200 respondents to this collection.

Federal Communications Commission.

Secretary, Office of the Secretary.

SUPPLEMENTARY INFORMATION: *Proposal to renew the following currently approved collection of information:*

1. *Title:* Activities and Investments of Insured State Banks.

OMB Number: 3064–0111.

Form Number: None.

Affected Public: Insured state nonmember banks and insured state savings associations.

Burden Estimate:

SUMMARY OF ANNUAL BURDEN

	Type of burden	Obligation to respond	Estimated number of respondents	Estimated frequency of responses	Estimated time per response	Frequency of response	Total annual estimated burden
Activities and Investments of Insured State Banks.	Reporting	Mandatory	46	1	8.00	On Occasion	368
Total Hourly Burden.	368 hours

General Description of Collection: Section 24 of the Federal Deposit Insurance (FDI Act), 12 U.S.C. 1831a, limits investments and other activities in which state banks may engage as principal to those permissible for national banks and those approved by the FDIC under procedures set forth in Part 362 of the FDIC’s Rules and Regulations, 12 CFR part 362. With certain exceptions, section 24 of the FDI Act limits the direct equity investments of state chartered banks to equity investments that are permissible for national banks. In addition, the statute prohibits an insured state bank from directly engaging, as a principal, in any activity that is not permissible for a national bank, or indirectly through a subsidiary in an activity that is not

permissible for a subsidiary of a national bank, unless such bank meets its minimum capital requirements and the FDIC determines that the activity does not pose significant risk to the Deposit Insurance Fund. The FDIC can make such a determination for exception by regulation or by order. The FDIC’s implementing regulation for section 24 is 12 CFR part 362. This regulation details the activities that insured state nonmember banks or their subsidiaries may engage in, under certain criteria and conditions, and identifies the information that banks must furnish to the FDIC in order to obtain the FDIC’s approval or non-objection. Section 28(a), 12 U.S.C. 1831e, similarly limits the investments and activities of state savings

associations and their service corporations to those permitted by federal savings associations and their service corporations, absent FDIC approval.

There is no change in the method or substance of the collection. The overall reduction in burden hours is the result of economic fluctuation. In particular, the number of respondents has decreased while the hours per response and frequency of responses have remained the same.

General Description of Collection: This information collection implements the Secure and Fair Enforcement for

Mortgage Licensing Act of 2008 (SAFE Act) requirement that employees of Federally-regulated institutions who

engage in the business of a mortgage loan originator to register with the Nationwide Mortgage Licensing System

and Registry and establishes national licensing and registration requirements. It also directs Federally-regulated institutions to have written policies and procedures in place to ensure that their employees who perform mortgage loan originations comply with the registration and other SAFE Act requirements.

There is no change in the method or substance of the collection. The overall reduction in burden hours is the result of economic fluctuation. In particular, the number of respondents has decreased while the hours per response and frequency of responses have remained the same.
