

Justification for Nonsubstantive Change

OMB Control No. 0579-0049

May 17, 2019

PPQ Form 546, Agreement for Postentry Quarantine State Screening Notice, has been edited to reflect several minor changes. Specifically:

- a. Item 1, NAME AND ADDRESS OF APPLICANT, now includes subfields for organization and an email address.
- b. Terms within the AGREEMENT have been revised.
 - In the lead paragraph, the reference to 7 CFR 319.37-7 is now 7 CFR 319.37-23(c). Also, the term “nursery stock” is replaced with “plants for planting”. The term is also located in the form’s new subtitle.
 - In paragraph c, “cutting of flowers for sale” is now “sale of flower cuttings or fruits”.
 - In paragraph d, “port accession number” is now “shipment number”.
 - In paragraphs a, c, and h, “Coordinator, Postentry Quarantine Program” is now “APHIS Postentry Quarantine Program Coordinator”.
- c. In the instructions between steps 5 and 6, a website address was added for finding and contacting State Plant Regulatory Officials.

The impact on the information collection burden assessment is negligible.
