**Deceased Donor Registration (DDR)
Fields to be completed by members**

Field Label	Notes
Donor ID	Display Only - Cascades from feedback
OPO Center Code //OPO	Display Only - Cascades from feedback
OPO Center Type //OPO	Display Only - Cascades from feedback
Donor Hospital Provider Number	Display Only - Cascades from feedback
Donor Hospital Name	Display Only - Cascades from Database
Donor Hospital	Display Only - Cascades from Database
Referral Date	
Recovered Outside the U.S.	
Country	
Last Name	
First Name	
MI	Not required
DOB	
Age	
Age Unit	
Gender	
Home City	
State	
Zip Code	
Ethnicity/Race	
Citizenship	
Home Country	
Cause of Death	
Cause of Death //Specify	
Mechanism of Death	
Circumstances of Death	
Medical Examiner/Coroner	
Was the patient declared legally brain dead?	
Did the patient have written documentation of their intent to be a donor	
Driver's license	
Donor Card	
Donor Registry	
Durable Power of Attorney / Healthcare Proxy	
Advanced Directive	
Other Consent Mechanism //Other Specify	
Was the consent based solely on this documentation	
Did the patient express to family or others the intent to be a donor	

Cardiac arrest since neurological event that led to declaration of brain death	
Duration of Resuscitation //If Yes, Duration of Resuscitation	
Duration of Resuscitation //Status	Value or status is reported, not both
Date and time of pronouncement of death: (Complete for brain dead and DCD donors)	
Date and time consent obtained for organ donation	
ABO Blood Group	Display Only - Cascades from feedback
Height in Ft//Height	Display Only - Cascades from Database
Height in In//Height	Display Only - Cascades from Database
Height in cm	
Height in cm //Status	Value or status is reported, not both
Weight in Lbs//Weight	Display Only - Cascades from Database
Weight in kg	
Weight in kg //Status	Value or status is reported, not both
Protein in Urine	
Serum Sodium	
Serum Sodium Status //Status	Value or status is reported, not both
BUN	
BUN //Status	Value or status is reported, not both
Serum Creatinine	
Serum Creatinine //Status	Value or status is reported, not both
Total Bilirubin	
Total Bilirubin //Status	Value or status is reported, not both
SGOT/AST	
SGOT/AST Status //Status	Value or status is reported, not both
SGPT/ALT	
SGPT/ALT //Status	Value or status is reported, not both
INR	
INR //Status	Value or status is reported, not both
Hematocrit	
Hematocrit //Status	Value or status is reported, not both
Serum Amylase	
Serum Amylase //Status	Value or status is reported, not both
Serum Lipase	
Serum Lipase //Status	Value or status is reported, not both
HbA1c	
HbA1c//Status	Value or status is reported, not both

Heparin	
Arginine Vasopressin	
Insulin	
Donor management other medication, specify	Not required
Donor management other medication, specify (2)	Not required
Donor management other medication, specify (3)	Not required
Inotropic Medications at Time of Cross Clamp Medication	
Medication //Specify	
Medication	
Medication //Specify	
Medication	
Medication //Specify	
Number of transfusions during this (terminal) hospitalization	
Clinical Infection Confirmed by Culture	
Source	
Blood	
Lung	
Urine	
Other	
Other, specify	

Cigarette Use (> 20 pack years) - Ever	
Cigarette Use //AND continued in last six months	
Cocaine Use - Ever	
Cocaine Use //AND continued in last six months	
Other Drug Use (non - IV) - Ever	
Other Drug Use //AND continued in last six months	
Heavy Alcohol Use (heavy= 2+ drinks/day)	
Tattoos	
According to the OPTN policy in effect on the date of referral, does the donor have risk factors for blood-borne disease transmission	
History of Diabetes	
Insulin Dependent	
History of Hypertension	
Diet	
Diuretics	
Other anti-hypertensive medication	
History of Cancer	
History of Cancer //Specify	
Cancer Free Interval	
Cancer Free Interval //Status	Value or status is reported, not both
Intracranial	
Type (Intracranial):	
Other Type/ Specify	
Extracranial	
Type (for Extracranial):	
Other Type/ Specify	
Skin	
Type (for Skin):	
Other Type/ Specify	
Chagas History	
TB History	
Recovery Date (donor to OR)	
Was this donor recovered under DCD protocol	
If Yes, Controlled	
If Yes, Date and time of withdrawal of support	
If Yes, Date and time agonal phase begins (systolic BP < 80 or O2 sat. < 80%)	
If DCD, Total urine output during OR recovery phase	
DCD Measures//Date and time of measures	
DCD Measures//Systolic blood pressure	
DCD Measures//Systolic blood pressure//Status	Value or status is reported, not both

DCD Measures//Diastolic blood pressure	
DCD Measures//Diastolic blood pressure//Status	Value or status is reported, not both
DCD Measures//Mean arterial pressure	
DCD Measures//Mean arterial pressure//Status	Value or status is reported, not both
DCD Measures//O2 saturation	
DCD Measures//O2 saturation//Status	Value or status is reported, not both
If Yes, Core Cooling Used	
If yes, Date and time of abdominal aorta core cooling	
Date and time of abdominal aorta core cooling://Status	Value or status is reported, not both
If yes, Date and time of thoracic aorta core cooling	
Date and time of thoracic aorta core cooling://Status	Value or status is reported, not both
If yes, Date and time of portal vein core cooling	
Date and time of portal vein core cooling://Status	Value or status is reported, not both
If yes, Date and time of pulmonary artery core cooling	
Date and time of pulmonary artery core cooling://Status	Value or status is reported, not both
If No, Was this a consented DCD donor that progressed to brain death?	
Clamp Date	
Clamp Time: (Military Time)	
Clamp Time //Status	Value or status is reported, not both
Clamp Time Zone	
History of previous MI	
LV ejection fraction (%)	
LV Ejection Fraction % //Status	Value or status is reported, not both
Method	
Structural Abnormalities //Valves	
Structural Abnormalities //Congenital	
Structural Abnormalities //LVH	
Wall Abnormalities //Segmental	
Wall Abnormalities //Global	
Heart machine perfusion	
Coronary Angiogram	
If Abnormal, # of Vessels with > 50% Stenosis	
ABG Results	Display Only
Blood pH	
PH //Status	Value or status is reported, not both
PCO<sub>2	
PCO2 //Status	Value or status is reported, not both

PO2	
PO2//Status	Value or status is reported, not both
FiO2	
FiO2//Status	Value or status is reported, not both
PEEP	
PEEP//Status	Value or status is reported, not both
Ventilator Mode	
Ventilator Mode//Other Specify	
Was a pulmonary artery catheter placed	
MAP (initial) // MAP: (mm Hg)
