

Workshop to Facilitate Cancer Systems Epidemiology Research

February 28 - March 1, 2019 | Bethesda, MD

Workshop to Facilitate Cancer Systems Epidemiology Research Survey to Inform Workshop Discussion

This survey should take no more than 5 minutes to complete. Participation in this survey is voluntary, all questions are optional, and results will only be presented in aggregate.

Your responses will help us address the workshop goals to facilitate cancer systems epidemiology research. We appreciate your participation in our survey.

OMB No. 0925-0642
Expiration Date: 05/31/2020

Public reporting burden for this collection of information is estimated to average 5 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to: NIH, Project Clearance Branch, 6705 Rockledge Drive, MSC 7974, Bethesda, MD 20892-7974, ATTN: PRA (0925-0642). Do not return the completed form to this address.

Workshop to Facilitate Cancer Systems Epidemiology Research

February 28 - March 1, 2019 | Bethesda, MD

Workshop to Facilitate Cancer Systems Epidemiology Research Survey to Inform Workshop Discussion

1. How do you define your area of expertise (select all that apply)?

- | | |
|---|--|
| <input type="checkbox"/> Bioinformatics and Computational Biology | <input type="checkbox"/> Health Disparities |
| <input type="checkbox"/> Cancer Survivorship | <input type="checkbox"/> Molecular Biology |
| <input type="checkbox"/> Cell Biology | <input type="checkbox"/> Pharmacoepidemiology and Pharmacogenomics |
| <input type="checkbox"/> Clinical and Medical Science | <input type="checkbox"/> Public Health Policy |
| <input type="checkbox"/> Computational Modeling | <input type="checkbox"/> Social Epidemiology |
| <input type="checkbox"/> Engineering | <input type="checkbox"/> Statistics/Biostatistics |
| <input type="checkbox"/> Epidemiology | <input type="checkbox"/> Systems Biology |
| <input type="checkbox"/> Genetics/Genomics | <input type="checkbox"/> Translational Medicine |
| <input type="checkbox"/> Genomic Epidemiology | |

Other (please specify)

2. How would you define "systems epidemiology?"

3. List one paper that you consider a landmark paper or key reference in systems epidemiology. Please provide PMID number or full citation.

4. What research questions would you like to address using systems epidemiology?

5. If you perform research using a systems epidemiology approach, what are the three systems epidemiology methods you use most frequently?

Method 1

Method 2

Method 3

6. List up to 3 available datasets (databases or data resources) that may be leveraged for systems epidemiology studies.

Dataset 1

Dataset 2

Dataset 3
