IDP PROCESS: HOW IT WORKS

- Create Your IDP**: Navigate along the tabs to create each piece of your IDP. When you are done and hit submit, your IDP goes to your mentor(s) for review.
- Send Your IDP to your Mentor**: Once you create and submit your IDP, your mentor(s) will be notified to review and comment, add higher expectations, and then approve it. If your primary mentor has suggested edits, it will come back to you to make the edits before it is finalized. This revision process can be done up to three times.
- Submit IDP to Training Director**: Your Training Director (TD) will review and either accept your IDP or return to you or your mentor for revision. If your TD returns your IDP for changes, you and your mentor will need to review the TD's comments and address any issues.
- Meet with Your Mentor**: Once your electronic IDP is complete, you and your mentor will have an in-person discussion about your research and career development goals and your expectations for the coming year. You and your mentor will electronically confirm that you reviewed and discussed the IDP in person.
- Submit Signed IDP to Your Chief**: Your Chief will review your completed IDP for final approval. If additional changes are requested, it will be returned to your TD for additional guidance. If your Training Director (TD) returns your IDP for changes, you and your mentor will need to review the TD's comments and address any issues.
- Completion and Next Steps**: Your final approved IDP cannot be modified; however, you will be able to refer to your saved pdf to check in on your progress. You are also free to begin working on your subsequent IDP once this is finalized, but you don't need to do so until your renewal date approaches.
