NATIONAL-HEALTH-CARE-ENTITY-ID-TYPE

Code	Description
1	**Controlling Health Plan (CHP) ID** – the national health plan identifier of a health plan that either controls its own business activities, actions, or policies, or is controlled by an entity that is not a health plan and exercises sufficient control over the subhealth plan(s) under it so as to direct its own business activities, actions, or policies, as well as those of any subhealth plans under it. Every health plan will have a CHP.
2	**Subhealth Plan (SHP) ID** – the national health plan identifier of a health plan whose business activities, actions, or policies are directed by a controlling health plan. All subhealth HPIDs should be reported. Note: While all health plans will have a CHP, not all plans will have one or more SHPs.
3	**Other Entity Identifier (OEID)** – a national identifier for entities that are not health plans, health care providers, or individuals (as defined in 45 CFR 160.103), but that need to be identified in standard transactions (including, for example, third party administrators, transaction vendors, clearinghouses, and other payers). Other entities are not required to obtain an OEID, but they could obtain and use one if they need to be identified in covered transactions.

OPERATING-AUTHORITY

Code	Description
01	1115 demonstration waiver program – demonstration projects under which most provisions of Section 1902 of the Social Security Act are waived and/or expenditures that would not otherwise be eligible for FFP are authorized. States use these to expand eligibility, restructure Medicaid coverage and secure programmatic flexibility.
02	1915(b) waiver program – waivers of most provisions of Section 1902 of the Social Security Act in order to limit beneficiaries' freedom of choice of provider; selectively contract with providers; or provide additional services to beneficiaries (State may include BBA special populations)
03	1932(a) state plan option to use managed care for MCO and PCCM programs – mandatory managed care programs implemented through the state plan (State must exclude or permit voluntary enrollment of specific populations)
04	1915(a) voluntary managed care program – an MCO managed care program in which enrollment is voluntary and therefore does not require a waiver.
05	Concurrent 1915(b)/1915(c) waivers– programs, or portions thereof, operating under both 1915(b) managed care and 1915(c) home and community-based services waivers.
06	Concurrent 1915(a)/1915(c) waivers– programs, or portions thereof, operating under both 1915(a) voluntary managed care and 1915(c) home and community-based services waiver
07	Concurrent 1932(a)/1915(c) waivers - programs, or portions thereof, operating under both 1932(a) managed care and 1915(c) home and community-based services waiver.
08	PACE – program that provides pre-paid, capitated comprehensive, health care services to the frail elderly.
09	1905(t) voluntary PCCM program – A PCCM managed care program in which enrollment is voluntary and therefore does not require a waiver.
10	1937benchmark benefit program—programs to provide benefits that differ from Medicaid state plan benefits using managed care and implemented through the state plan.
11	1902(a)(70) non-emergency medical transportation program –non-emergency medical transportation brokerage programs implemented through the state plan which can vary scope of services, operate on a less-than-statewide basis, and limit freedom of choice
12	Concurrent 1915(b)/1915(i) HCBS state plan services - the optional 1915(i) state plan Home and Community-Based Services (HCBS) benefit operated in conjunction with a 1915(b) managed care waiver program.
13	Concurrent 1915(a)/ 1915(i) HCBS state plan services - the optional 1915(i) state plan Home and Community-Based Services (HCBS) benefit operated in conjunction with a 1915(a) voluntary managed care program.
14	Concurrent 1932(a)/ 1915(i) HCBS state plan services - the optional 1915(i) state plan Home and Community-Based Services (HCBS) benefit operated in conjunction with a 1932(a) managed care state plan option.

SUBMISSION-TRANSACTION-TYPE

Code	Description
C	**Create File—**a file that contains a complete set of transactions/changes processed since the last Create file submission. States may submit only one valid Create file per reporting period and data file type.
R	**Replacement File—**a Replacement submission is a replacement of the month's data. It will completely replace the immediate prior submission. If a later replacement entry is received, it will overwrite the previous replacement, as well as a prior Create or Update submission for the same data type and reporting period.
U	**Update File—**a file that contains T-MSIS record segments created in response to business rule rejects. Note: ***The records in an Update file are not generated as a result of a change processed in the state's Medicaid or Medicaid-related systems during the current reporting month.*** These Update file record segments may be unchanged from the ones submitted previously for various reasons (for example, the state may be unable to process a change record in their Medicaid / Medicaid-related systems to correct the issue because the state is simply passing through to T-MSIS data that originated outside of the state's systems).[1] Conversely, the records may be different from those previously submitted, but the change is the result of a fix whose root cause problem was an issue in the T-MSIS file-creation or replacement process at CMS. Regardless, the record was not generated from a change that occurred in the state's source data.

[1][1] CMS will provide direction at a later date concerning resubmission of records that states are unable to correct.

SUBMISSION-TRANSACTION-TYPE

Code	Description
C	**Create File—**a file that contains a complete set of transactions/changes processed since the last Create file submission. States may submit only one valid Create file per reporting period and data file type.
R	**Replacement File—**a Replacement submission is a replacement of the month's data. It will completely replace the immediate prior submission. If a later replacement entry is received, it will overwrite the previous replacement, as well as a prior Create or Update submission for the same data type and reporting period.
U	**Update File—**a file that contains T-MSIS record segments created in response to business rule rejects. Note: ***The records in an Update file are not generated as a result of a change processed in the state's Medicaid or Medicaid-related systems during the current reporting month.*** These Update file record segments may be unchanged from the ones submitted previously for various reasons (for example, the state may be unable to process a change record in their Medicaid / Medicaid-related systems to correct the issue because the state is simply passing through to T-MSIS data that originated outside of the state's systems).[1] Conversely, the records may be different from those previously submitted, but the change is the result of a fix whose root cause problem was an issue in the T-MSIS file-creation or replacement process at CMS. Regardless, the record was not generated from a change that occurred in the state's source data.

[1][1] CMS will provide direction at a later date concerning resubmission of records that states are unable to correct.

ADJUSTMENT-IND

Code	Description of Use
0	Original Claim/Encounter/Payment – Indicates that this is the first (and, when applicable, only) fully adjudicated transaction in a claim family (one or more claims with the related ICN-ORIG and/or ICN-ADJ and typically the same MSIS ID and provider ID(s) also).
1	Void/Reversal/Cancel of a prior submission – Use this code to convey that the purpose of the transaction is to void/reverse/cancel a previously paid/approved claim/encounter/payment where the claim/encounter/payment is not being replaced by a new paid/approved version of the claim/encounter/payment. Typically this would be the last claim/encounter/payment that would ever be associated with a given claim family. These records must have the same ICN-ORIG or ICN-ADJ as the claim/encounter being voided. CMS expects a void transaction to also have the same MSIS ID and provider ID(s) as the claim/encounter/payment being voided/reversed/canceled.
4	Replacement/Resubmission of a previously paid/approved claim/encounter/payment – Use when the purpose of the transaction is to replace a previously paid/approved claim/encounter/payment with a new paid/approved version of the claim/encounter/payment. These records must have the same ICN-ORIG or ICN-ADJ as the claim/encounter being replaced. CMS expects a replacement transaction to also have the same MSIS ID and provider ID(s) as the claim/encounter/payment being replaced/resubmitted.
5	Credit Gross Adjustment – Use this code to indicate an aggregate provider-level recoupment of payments (e.g., not attributable to a single beneficiary). Amounts on these claims should be expressed as negative numbers. If a credit gross adjustment is reported with an ICN that is related to an ICN(s) of another gross adjustment (credit or debit) then CMS will interpret this to mean that the credit gross adjustment with the more recent adjudication date should completely replace the preceding related gross adjustment. If the ICNs of a credit gross adjustment are not related to any other gross adjustments (credit or debit) then the credit gross adjustment will always be treated as a distinct financial transaction.
6	Debit Gross Adjustment – Use this code to indicate an aggregate provider-level payment to a provider (e.g., not attributable to a single beneficiary). Amounts on these claims should be expressed as positive numbers. If a debit gross adjustment is reported with an ICN that is related to an ICN(s) of another gross adjustment (credit or debit) then CMS will interpret this to mean that the credit gross adjustment with the more recent adjudication date should completely replace the preceding related gross adjustment. If the ICNs of a debit gross adjustment are not related to any other gross adjustments (credit or debit) then the debit gross adjustment will always be treated as a distinct financial transaction.

LINE-ADJUSTMENT-IND

Code	Description of Use
0	Original Claim/Encounter/Payment – Indicates that this is the first (and, when applicable, only) fully adjudicated transaction in a claim family (one or more claims with the related ICN-ORIG and/or ICN-ADJ and typically the same MSIS ID and provider ID(s) also).
1	Void/Reversal/Cancel of a prior submission – Use this code to convey that the purpose of the transaction is to void/reverse/cancel a previously paid/approved claim/encounter/payment where the claim/encounter/payment is not being replaced by a new paid/approved version of the claim/encounter/payment. Typically this would be the last claim/encounter/payment that would ever be associated with a given claim family. These records must have the same ICN-ORIG or ICN-ADJ as the claim/encounter being voided. CMS expects a void transaction to also have the same MSIS ID and provider ID(s) as the claim/encounter/payment being voided/reversed/canceled.
4	Replacement/Resubmission of a previously paid/approved claim/encounter/payment – Use when the purpose of the transaction is to replace a previously paid/approved claim/encounter/payment with a new paid/approved version of the claim/encounter/payment. These records must have the same ICN-ORIG or ICN-ADJ as the claim/encounter being replaced. CMS expects a replacement transaction to also have the same MSIS ID and provider ID(s) as the claim/encounter/payment being replaced/resubmitted.
5	Credit Gross Adjustment – Use this code to indicate an aggregate provider-level recoupment of payments (e.g., not attributable to a single beneficiary). Amounts on these claims should be expressed as negative numbers. If a credit gross adjustment is reported with an ICN that is related to an ICN(s) of another gross adjustment (credit or debit) then CMS will interpret this to mean that the credit gross adjustment with the more recent adjudication date should completely replace the preceding related gross adjustment. If the ICNs of a credit gross adjustment are not related to any other gross adjustments (credit or debit) then the credit gross adjustment will always be treated as a distinct financial transaction.
6	Debit Gross Adjustment – Use this code to indicate an aggregate provider-level payment to a provider (e.g., not attributable to a single beneficiary). Amounts on these claims should be expressed as positive numbers. If a debit gross adjustment is reported with an ICN that is related to an ICN(s) of another gross adjustment (credit or debit) then CMS will interpret this to mean that the credit gross adjustment with the more recent adjudication date should completely replace the preceding related gross adjustment. If the ICNs of a debit gross adjustment are not related to any other gross adjustments (credit or debit) then the debit gross adjustment will always be treated as a distinct financial transaction.

SUBMISSION-TRANSACTION-TYPE

Code	Description
C	**Create File—**a file that contains a complete set of transactions/changes processed since the last Create file submission. States may submit only one valid Create file per reporting period and data file type.
R	**Replacement File—**a Replacement submission is a replacement of the month's data. It will completely replace the immediate prior submission. If a later replacement entry is received, it will overwrite the previous replacement, as well as a prior Create or Update submission for the same data type and reporting period.
U	**Update File—**a file that contains T-MSIS record segments created in response to business rule rejects. Note: ***The records in an Update file are not generated as a result of a change processed in the state's Medicaid or Medicaid-related systems during the current reporting month.*** These Update file record segments may be unchanged from the ones submitted previously for various reasons (for example, the state may be unable to process a change record in their Medicaid / Medicaid-related systems to correct the issue because the state is simply passing through to T-MSIS data that originated outside of the state's systems).[1] Conversely, the records may be different from those previously submitted, but the change is the result of a fix whose root cause problem was an issue in the T-MSIS file-creation or replacement process at CMS. Regardless, the record was not generated from a change that occurred in the state's source data.

SUBMITTING-STATE

[1][1] CMS will provide direction at a later date concerning resubmission of records that states are unable to correct.

Appendix B: Home and Community-Based Services (HCBS) Taxonomy

The following table defines categories and services in the HCBS Taxonomy. It was approved by CMS in August 2012.

To acknowledge state variation, services and categories are defined based on the minimum definition necessary to establish mutually distinct categories and services. Some services are defined in part by characteristics that are NOT in that service. For example, the difference between companion services and personal care is that companion services do not include assistance with activities of daily living (ADLs) such as bathing, dressing, eating, and toileting.

Some of the services reflected below, including, but not limited to personal care, case management, home health aide, and physician services, may (and in some case, must) also be covered under the Medicaid State Plan. The definitions below only define these services for purposes of Section 1915(c) Waivers and the State Plan Home and Community-Based Services benefit authorized by Section 1915(i). States interested in reflecting services as "extended state plan" services must offer them in accordance with state plan service definitions. Consult with the CMS Division of Benefits and Coverage in those instances to ensure definition alignment.

The services and categories are arranged in order of consideration for placing a particular state service in the taxonomy. If one is not sure how to map a state's service to the taxonomy, one should first consider Case Management, then Round-the-Clock Services, then Supported Employment, etc.

HCBS Service Taxonomy Values:

Appendix D: Types of Service (TOS) Reference

Definitions of Types of Service

The following definitions are adaptations of those given in the Code of Federal Regulations. These definitions, although abbreviated, are intended to facilitate the classification of medical care and services for reporting purposes. They do not modify any requirements of the Act or supersede in any way the definitions included in the Code of Federal Regulations (CFR).

Effective FY 1999, services provided under Family Planning, EPSDT, Rural Health Clinics, FQHC's, and Home-and-Community-Based Waiver programs will be coded according to the types of services listed below. Specific programs with which these services are associated will be identified using the program type coding as defined in Attachment 5.

1. **Unduplicated Total**.--Report the unduplicated total of recipients by maintenance assistance status (MAS) and by basis of eligibility (BOE). A recipient receiving more than one type of service is reported only once in the unduplicated total.

Facilities

2. Inpatient Hospital Services (TOS Code=001)(See 42 CFR 440.10; 42 CFR § 457.402; 42 CFR § 457.420; 42 CFR § 457.430; 42 CFR § 457.431; 457.440; 42 CFR § 457.450).--These are services that are:

- Ordinarily furnished in a hospital for the care and treatment of inpatients;
- Furnished under the direction of a physician or dentist (except in the case of nurse-midwife services per 42 CFR 440.165); and
- Furnished in an institution that:

- Is maintained primarily for the care and treatment of patients with disorders other than mental health conditions;

- Is licensed or formally approved as a hospital by an officially designated authority for State standard setting;

- Meets the requirements for participation in Medicare (except in the case of medical supervision of nurse-midwife services per 42 CFR 440.165); and

- Has in effect a utilization review plan applicable to all Medicaid patients that meets the requirements in 42 CFR 482.30 unless a waiver has been granted by the Secretary of Health and Human Services.

Inpatient hospital services do not include nursing facility services furnished by a hospital with swing-bed approval. However, include services provided in a psychiatric wing of a general hospital if the psychiatric wing is not administratively separated from the general hospital.

3. Mental Health Facility Services (See 42 CFR 440.140, 440.160, and 435.1009).--An institution for mental health conditions is a hospital, nursing facility, or other institution that is primarily engaged in providing diagnosis, treatment or care of individuals with mental health conditions, including medical care, nursing care, and related services. Report totals for services defined under 3a and 3b.

3a. Inpatient Psychiatric Facility Services for Individuals Age 21 and Under (TOS Code=048)(See 42 CFR 440.160; 42 CFR § 457.402; 42 CFR § 457.420; 42 CFR § 457.430; 42 CFR § 457.431; 457.440; 42 CFR § 457.450). --These are services that:

- Are provided under the direction of a physician;
- Are provided in a psychiatric facility or inpatient program accredited by the Joint Commission on the Accreditation of Hospitals; and,
- Meet the requirements set forth in 42 CFR Part 441, Subpart D (inpatient psychiatric services for individuals age 21 and under in psychiatric facilities or programs).

3b. Other Mental Health Facility Services (Individuals Age 65 or Older) (TOS Code= 044 and 045)(See 42 CFR 440.140).--These are services provided under the direction of a physician for the care and treatment of recipients in an institution for mental health conditions that meets the requirements specified in 42 CFR 440.140.

4. Nursing Facilities (NF) Services (TOS Code=009 and 047) (See 42 CFR 440.40 and 440.155).--These are services provided in an institution (or a distinct part of an institution) which:

- Is primarily engaged in providing to residents:
  - Skilled nursing care and related services for residents who require medical or nursing care;
  - Rehabilitation services for the rehabilitation of injured, disabled, or sick persons, or
  - On a regular basis, health-related care and services to individuals who, because of their mental or physical condition, require care and services (above the level of room and board) which can be made available to them only through institutional facilities, and is not primarily for the care and treatment of mental health conditions; and;
- Meet the requirements for a nursing facility described in subsections 1919(b), (c), and (d) of the Act regarding:
  - Requirements relating to provision of services;

- Requirements relating to residents' rights; and

- Requirements relating to administration and other matters.

NOTE: ICF Services - All Other.--This is combined with nursing facility services.

5. **ICF Services for the Intellectually Disabled (TOS Code=046)** (See 42 CFR 440.150).--These are services provided in an institution for individuals with intellectual disabilities persons or persons with related conditions if the:

   - Primary purpose of the institution is to provide health or rehabilitative services to such individuals;

   - Institution meets the requirements in 42 CFR 442, Subpart C (certification of ICF/IID); and

   - The individuals with intellectual disabilities recipients for whom payment is requested are receiving active treatment as defined in 42 CFR 483.440(a).

Services

6. **Physicians' Services (TOS Code=012)**(See 42 CFR 440.50; 42 CFR § 457.402; 42 CFR § 457.420; 42 CFR § 457.430; 42 CFR § 457.431; 457.440; 42 CFR § 457.450).--Whether furnished in a physician's office, a recipient's home, a hospital, a NF, or elsewhere, these are services provided:

   - Within the scope of practice of medicine or osteopathy as defined by State law; and

   - By, or under, the personal supervision of an individual licensed under State law to practice medicine or osteopathy, or dental medicine or dental surgery if State law allows such services to be provided by either a physician or dentist.

7. **Outpatient Hospital Services (TOS Codes=002)**(See 42 CFR 440.20; 42 CFR § 457.402; 42 CFR § 457.420; 42 CFR § 457.430; 42 CFR § 457.431; 457.440; 42 CFR § 457.450).--These are preventive, diagnostic, therapeutic, rehabilitative, or palliative services that are furnished:

   - To outpatients;

   - Except in the case of nurse-midwife services (see 42 CFR 440.165), under the direction of a physician or dentist; and

   - By an institution that:

     - Is licensed or formally approved as a hospital by an officially designated authority for State standard setting; and

- Except in the case of medical supervision of nurse midwife services (see 42 CFR 440.165), meets the requirements for participation in Medicare as a hospital.

8. **Prescribed Drugs (TOS Code=033)** (See 42 CFR 440.120; 42 CFR § 457.402; 42 CFR § 457.410; 42 CFR § 457.420; 42 CFR § 457.430; 42 CFR § 457.431; 457.440; 42 CFR § 457.450).--These are simple or compound substances or mixtures of substances prescribed for the cure, mitigation, or prevention of disease or for health maintenance that are:

   - Prescribed by a physician or other licensed practitioner within the scope of professional practice as defined and limited by Federal and State law;

   - Dispensed by licensed pharmacists and licensed authorized practitioners in accordance with the State Medical Practice Act; and

   - Dispensed by the licensed pharmacist or practitioner on a written prescription that is recorded and maintained in the pharmacist's or practitioner's records.

9. **Dental Services (TOS Code=029)** (See 42 CFR 440.100; 42 CFR § 457.402; 42 CFR § 457.420; 42 CFR § 457.430; 42 CFR § 457.431; 457.440; 42 CFR § 457.450).--These are diagnostic, preventive, or corrective procedures provided by or under the supervision of a dentist in the practice of his or her profession, including treatment of:

   - The teeth and associated structures of the oral cavity; and

   - Disease, injury, or an impairment that may affect the oral or general health of the recipient.

   A dentist is an individual licensed to practice dentistry or dental surgery. Dental services include dental screening and dental clinic services.

   NOTE: Include services related to providing and fitting dentures as dental services. Dentures mean artificial structures made by, or under the direction of, a dentist to replace a full or partial set of teeth.

   Dental services do not include services provided as part of inpatient hospital, outpatient hospital, non-dental clinic, or laboratory services and billed by the hospital, non-dental clinic, or laboratory or services which meet the requirements of 42 CFR 440.50(b) (i.e., are provided by a dentist but may be provided by either a dentist or physician under State law).

Other Services

10. **Other Licensed Practitioners' Services (TOS Code=015)** (See 42 CFR 440.60; 42 CFR § 457.402; 42 CFR § 457.420; 42 CFR § 457.430; 42 CFR § 457.431; 457.440; 42 CFR § 457.450).--These are medical or remedial care or services, other than physician services or services of a dentist, provided by licensed practitioners within the scope of practice as defined under State law. The category "Other Licensed Practitioners' Services" is different than the "Other Care" category. Examples of other practitioners (if covered under State law) are:

- Chiropractors;
- Podiatrists;
- Psychologists; and
- Optometrists.

Other Licensed Practitioners' Services include hearing aids and eyeglasses only if they are billed directly by the professional practitioner. If billed by a physician, they are reported as Physicians' Services. Otherwise, report them under Other Care.

Other Licensed Practitioners' Services do not include prosthetic devices billed by physicians, laboratory or X-ray services provided by other practitioners, or services of other practitioners that are included in inpatient or outpatient hospital bills. These services are counted under the related type of service as appropriate. Devices billed by providers not included under the listed types of service are counted under Other Care.

Report Other Licensed Practitioners' Services that are billed by a hospital as inpatient or outpatient services, as appropriate.

Speech therapists, audiologists, opticians, physical therapists, and occupational therapists are not included within Other Licensed Practitioners' Services.

Chiropractors' services include only services that are provided by a chiropractor (who is licensed by the State) and consist of treatment by means of manual manipulation of the spine that the chiropractor is legally authorized by the State to perform.

11. **Clinic Services (TOS Code=028**(See 42 CRF 440.90; 42 CFR § 457.402; 42 CFR § 457.420; 42 CFR § 457.430; 42 CFR § 457.431; 457.440; 42 CFR § 457.450).--Clinic services include preventive, diagnostic, therapeutic, rehabilitative, or palliative items or services that are provided:

    - To outpatients;
    - By a facility that is not part of a hospital but is organized and operated to provide medical care to outpatients including services furnished outside the clinic by clinic personnel to individuals without a fixed home or mailing address. For reporting purposes, consider a group of physicians who share, only for mutual convenience, space, services of support staff, etc., as physicians, rather than a clinic, even though they practice under the name of the clinic; and
    - Except in the case of nurse-midwife services (see 42 CFR 440.165), are furnished by, or under, the direction of a physician.

    NOTE: Place dental clinic services under dental services. Report any services not included above under other care. A clinic staff may include practitioners with different specialties.

12. **Laboratory and X-Ray Services (TOS Code=005, 006, 007, and 008)**(See 42 CFR 440.30; 42 CFR § 457.402; 42 CFR § 457.420; 42 CFR § 457.430; 42 CFR § 457.431; 457.440; 42 CFR § 457.450).--These are professional or technical laboratory and radiological services that are:

- Ordered and provided by or under the direction of a physician or other licensed practitioner of the healing arts within the scope of his or her practice as defined by State law or ordered and billed by a physician but provided by referral laboratory;

- Provided in an office or similar facility other than a hospital inpatient or outpatient department or clinic; and

- Provided by a laboratory that meets the requirements for participation in Medicare.

X-ray services provided by dentists are reported under dental services.

13. **Sterilizations (TOS Code=084)(See 42 CFR 441, Subpart F)**.--These are medical procedures, treatment or operations for the purpose of rendering an individual permanently incapable of reproducing.

14. **Home Health Services (TOS Code=016,017, 018, 019, 020, and 021)** (See 42 CFR 440.70; 42 CFR § 457.402; 42 CFR § 457.420; 42 CFR § 457.430; 42 CFR § 457.431; 457.440; 42 CFR § 457.450) .--These are services provided at the patient's place of residence, in compliance with a physician's written plan of care that is reviewed every 62 days. The following items and services are mandatory.

    - Nursing services, as defined in the State Nurse Practice Act that is provided on a part-time or intermittent basis by a home health agency (a public or private agency or organization, or part of any agency or organization that meets the requirements for participation in Medicare). If there is no agency in the area, a registered nurse who:

        - Is licensed to practice in the State;

        - Receives written orders from the patient's physician;

        - Documents the care and services provided; and

        - Has had orientation to acceptable clinical and administrative record keeping from a health department nurse;

    - Home health aide services provided by a home health agency; and

    - Medical supplies, equipment, and appliances suitable for use in the home.

    The following therapy services are optional: physical therapy, occupational therapy, or speech pathology and audiology services provided by a home health agency or by a facility licensed by the State to provide these medical rehabilitation services. (See 42 CFR 441.15.)

    Place of residence is normally interpreted to mean the patient's home and does not apply to hospitals or NFs. Services received in a NF that are different from those normally provided as part of the institution's care may qualify as home health services. For example, a registered nurse may provide short-term care for a recipient in a NF during an acute illness to avoid the recipient's transfer to another NF.

Personal Services

15. Personal Support Services.--Report total unduplicated recipients and payments for services defined in 15a through 15i.

15a. Personal Care Services (TOS Code=051) (See 42 CFR 440.167).--These are services furnished to an individual who is not an inpatient or resident of a hospital, nursing facility, intermediate care facility for individuals with intellectual disabilities, or institution for mental health conditions that are:

- Authorized for the individual by a physician in accordance with a plan of treatment or (at the option of the State) otherwise authorized for the individual in accordance with a service plan approved by the State; and

- Provided by an individual who is qualified to provide such services and who is not a member of the individual's family.

15b. Targeted Case Management Services (TOS Code=053) (See 42 CFR § 440.169; 42 CFR § 457.402; 42 CFR § 457.420; 42 CFR § 457.430; 42 CFR § 457.431; 457.440; 42 CFR § 457.450).--These are services that are furnished to individuals eligible under the plan to gain access to needed medical, social, educational, and other services. The agency may make available case management services to:

- Specific geographic areas within a State, without regard to statewide requirement in 42 CFR 431.50; and

- Specific groups of individuals eligible for Medicaid, without regard to the comparability requirements in 42 CFR 440.240.

The agency must permit individuals to freely choose any qualified Medicaid provider except when obtaining case management services in accordance with 42 CFR 431.51.

15c. Rehabilitative Services (TOS Code=043) (See 42 CFR 440.130).--These include any medical or remedial services recommended by a physician or other licensed practitioner of the healing arts within the scope of his/her practice under State law for maximum reduction of physical or mental health condition and restoration of a recipient to his/her best possible functional level.

15d. Physical Therapy, Occupational Therapy, and Services For Individuals With Speech, Hearing, and Language Disorders (TOS Codes=030, 031, and 032)(See 42 CFR 440.110; 42 CFR § 457.402; 42 CFR § 457.420; 42 CFR § 457.430; 42 CFR § 457.431; 457.440; 42 CFR § 457.450).--These are services prescribed by a physician or other licensed practitioner within the scope of his or her practice under State law and provided to a recipient by, or under the direction of, a qualified physical therapist, occupational therapist, speech pathologist, or audiologist. It includes any necessary supplies and equipment.

15e. Hospice Services (TOS Code=087) (See 42 CFR 418.202; 42 CFR § 457.402; 42 CFR § 457.420; 42 CFR § 457.430; 42 CFR § 457.431; 457.440; 42 CFR § 457.450).--Whether received in a hospice facility or elsewhere, these are services that are:

- Furnished to a terminally ill individual, as defined in 42 CFR 418.3;

- Furnished by a hospice, as defined in 42 CFR 418.3, that meets the requirements for participation in Medicare specified in 42 CFR 418, Subpart C or by others under an arrangement made by a hospice program that meets those requirements and is a participating Medicaid provider; and

- Furnished under a written plan that is established and periodically reviewed by:

  - The attending physician;

  - The medical director or physician designee of the program, as described in 42 CFR 418.54; and

  - The interdisciplinary group described in 42 CFR 418.68.

15f. Nurse Midwife (TOS Code=025) (See 42 CFR 440.165; 42 CFR § 457.402; 42 CFR § 457.420; 42 CFR § 457.430; 42 CFR § 457.431; 457.440; 42 CFR § 457.450).--These are services that are concerned with management and the care of mothers and newborns throughout the maternity cycle and are furnished within the scope of practice authorized by State law or regulation.

15g. Nurse Practitioner (TOS Code=026) (See 42 CFR 440.166; 42 CFR § 457.402; 42 CFR § 457.420; 42 CFR § 457.430; 42 CFR § 457.431; 457.440; 42 CFR § 457.450).--These are services furnished by a registered professional nurse who meets State's advanced educational and clinical practice requirements, if any, beyond the 2 to 4 years of basic nursing education required of all registered nurses.

15h. Private Duty Nursing (TOS Code=022) (See 42 CFR 440.80; 42 CFR § 457.402; 42 CFR § 457.420; 42 CFR § 457.430; 42 CFR § 457.431; 457.440; 42 CFR § 457.450).--When covered in the State plan, these are services of registered nurses or licensed practical nurses provided under direction of a physician to recipients in their own homes, hospitals or nursing facilities (as specified by the State).

15i. Religious Non-Medical Health Care Institutions (TOS Code=058) (See 42 CFR 440.170).--These are non-medical health care services equivalent to a hospital or extended care level of care provided in facilities that meet the requirements of Section 1861(ss)(1) of the Act.

Other Care

16. Other Care (See 42 CFR 440.120(b), (c), and (d), and 440.170(a)).--Report total unduplicated recipients and payments for services in sections 16a, 16b, and 16c. Such services do not meet the definition of, and are not classified under, any of the previously described categories.

16a. Transportation (TOS Code=056) (See 42 CFR 440.170; 42 CFR § 457.402; 42 CFR § 457.420; 42 CFR § 457.430; 42 CFR § 457.431; 457.440; 42 CFR § 457.450).--Report totals for services provided under this title to include transportation and other related travel services determined necessary by you to secure medical examinations and treatment for a recipient.

NOTE: Transportation, as defined above, is furnished only by a provider to whom a direct vendor payment can appropriately be made. If other arrangements are made to assure transportation under 42 CFR 431.53, FFP is available as an administrative cost.

16b. Other Pregnancy-related Procedures (TOS Code=086) (See 42 CFR 441, Subpart E; 42 CFR § 457.402; 42 CFR § 457.420; 42 CFR § 457.430; 42 CFR § 457.431; 457.440; 42 CFR § 457.450).--In accordance with the terms of the DHHS Appropriations Bill and 42 CFR 441, Subpart E, FFP is available for other pregnancy-related procedures:

- When a physician has certified in writing to the Medicaid agency that, on the basis of his or her professional judgment, the life of the mother would be endangered if the fetus were carried to term; or

- When the other pregnancy-related procedure is performed to terminate a pregnancy resulting from an act of rape or incest. FFP is not available for the other pregnancy-related procedure under any other circumstances.

16c. Other Services (TOS Code= 035, 036, 037, 062, 063, 064, 065, 066, 067, 068, 069, 073, 074, 075, 076, 077, 078, 079, 080, 081, 082, 083).--These services do not meet the definitions of any of the previously described service categories. They may include, but are not limited to:

- Prosthetic devices (see 42 CFR 440.120; 42 CFR § 457.402; 42 CFR § 457.420; 42 CFR § 457.430; 42 CFR § 457.431; 457.440; 42 CFR § 457.450) which are replacement, corrective, or supportive devices prescribed by a physician or other licensed practitioner of the healing arts within the scope of practice as defined by State law to:

  - Artificially replace a missing portion of the body;

  - Prevent or correct physical deformity or malfunctions; or

  - Support a weak or deformed portion of the body.

- Eyeglasses (see 42 CFR 440.120; 42 CFR § 457.402; 42 CFR § 457.420; 42 CFR § 457.430; 42 CFR § 457.431; 457.440; 42 CFR § 457.450). Eyeglasses mean lenses, including frames, and other aids to vision prescribed by a physician skilled in diseases of the eye or an optician. It includes optician fees for services.

- Home and Community-Based Waiver services (See §1915(c) of the Act and 42 CFR 440.180) that cannot be associated with other TYPE-OF-SERVICE codes (e.g., community homes for the disabled and adult day care.)

17. Capitated Care (See 42 CFR Part 434).--This includes enrollees and capitated payments for the plan types defined in 17 a and b below. Report unduplicated enrolled eligibles and payments for 17 a and b.

17a. Health Maintenance Organization (HMO) and Health Insuring Organization (HIO) (TOS Code=119).--These include plans contracted to provide capitated comprehensive services. An HMO is a public or private organization that contracts on a prepaid capitated risk basis to provide a comprehensive set of services and is federally qualified or State-plan defined. An HIO is an entity that provides for or arranges for the provision of care and contracts on a prepaid capitated risk basis to provide a comprehensive set of services.

17b. Prepaid Health Plans (PHP) (TOS Code=122).--These include plans that are contracted to provide less than comprehensive services. Under a non-risk or risk arrangement, the State may contract with (but not limited to these entities) a physician, physician group, or clinic for a limited range of services under capitation. A PHP is an entity that provides a non-comprehensive set of services on either capitated risk or non-risk basis or the entity provides comprehensive services on a non-risk basis.

NOTE: Include dental, mental health, and other plans covering limited services under PHP.

18. Primary Care Case Management (PCCM) (TOS Code=120) (See §1915(b)(1) of the Act).--The State contracts directly with primary care providers who agree to be responsible for the provision and/or coordination of medical services to Medicaid recipients under their care. Currently, most PCCM programs pay the primary care physician a monthly case management fee. Report these recipients and associated PCCM fees in this section.

NOTE: Where the fee includes services beyond case management, report the enrollees and fees under prepaid health plans (17b).

Appendix E: Program Type Reference

Definitions of Program Type Reference

The following definitions describe special Medicaid/CHIP programs that are coded independently of type of service for MSIS purposes. These programs tend to cover bands of services that cut across many types of service.

Program Type 1-3

Program Type 01. Early and Periodic Screening, Diagnosis, and Treatment (EPSDT) (See 42 CFR 440.40(b)).--This includes either general health screening services and vision, dental, and hearing services furnished to Medicaid eligibles under age 21 to fulfill the requirements of the EPSDT program or services rendered based on referrals from EPSDT visits. The Act specifies two sets of EPSDT screenings:

- Periodic screenings, which are provided at distinct intervals determined by the State, and which must include the following services:
    - A comprehensive health and developmental history assessment (including assessment of both physical and mental health development);
    - A comprehensive unclothed physical exam;
    - Appropriate immunizations according to the Advisory Committee on Immunization Practices schedule;
    - Laboratory tests (including blood lead level assessment); and
    - Health education (including anticipatory guidance); and
- Interperiodic screenings, which are provided when medically necessary to determine the existence of suspected physical or mental illness or conditions.

Program Type 02. Family Planning (See 42 CFR 440.40(c)).-- Only items and procedures clearly provided or performed for family planning purposes and matched at the 90 percent FFP rate should be included as Family Planning. Services covered under this program include, but are not limited to:

- Counseling and patient education and treatment furnished by medical professionals in accordance with State law;

- Laboratory and X-ray services;

- Medically approved methods, procedures, pharmaceutical supplies, and devices to prevent conception;

- Natural family planning methods; and

- Diagnosis and treatment for infertility.

NOTE: CMS's Revised Financial Management Review Guide for Family Planning Services describes items and procedures eligible for the enhanced match as family planning services.

Program Type 03. Rural Health Clinics (RHC)(See 42 CFR 440.20(b)).--These include services (as allowed by State law) furnished by a rural health clinic which has been certified in accordance with the conditions of 42 CFR Part 491 (certification of certain health facilities). Services performed in RHCs include, but are not limited to:

- Services furnished by a physician within the scope of his or her profession as defined by State law. The physician performs these services in or away from the clinic and has an agreement with the clinic providing that he or she will be paid for these services;

- Services furnished by a physician assistant, nurse practitioner, nurse midwife, or other specialized nurse practitioner (as defined in 42 CFR 405.2401 and 491.2) if the services are furnished in accordance with the requirements specified in 42 CFR 405.2412(a);

  - Services and supplies provided in conjunction with professional services furnished by a physician, physician assistant, nurse practitioner, nurse midwife, or specialized nurse practitioner. (See 42 CFR 405.2413 and 405.2415 for the criteria determining whether services and supplies are included here.); or

  - Part-time or intermittent visiting nurse care and related medical supplies (other than drugs and biologicals) if:

    - The clinic is located in an area in which the Secretary has determined that there is a shortage of home health agencies (see 42 CFR 405.2417);

    - The services are furnished by a registered nurse or licensed practical or vocational nurse employed, or otherwise compensated for the services, by the clinic;

    - The services are furnished under a written plan of treatment that is either established and reviewed at least every 60 days by a supervising physician of the clinic, or that is established by a physician, physician's assistant, nurse practitioner, nurse midwife, or specialized nurse practitioner and reviewed and approved at least every 60 days by a supervising physician of the clinic; and

- The services are furnished to a homebound patient. For purposes of visiting nurse services, a homebound recipient means one who is permanently or temporarily confined to a place of residence because of a medical or health condition and leaves the place of residence infrequently. For this purpose, a place of residence does not include a hospital or nursing facility.

Program Type 4-5

Program Type 04. Federally Qualified Health Center (FQHC) (See §1905(a)(2) of the Act).--FQHCs are facilities or programs more commonly known as community health centers, migrant health centers, and health care for the homeless programs. A facility or program qualifies as a FQHC providing services covered under Medicaid if:

- They receive grants under §§329, 330, or 340 of the Public Health Service Act (PHS);

- The Health Resources and Services Administration, PHS, certifies the center as meeting FQHC requirements; or

- The Secretary determines that the center qualifies through waiver of the requirements.

Services performed in FHQCs are defined the same as the services provided by rural health clinics. They may include physician services, services provided by physician assistants, nurse practitioners, clinical psychologists, clinical social workers, and services and supplies incident to such services as are otherwise covered if furnished by a physician or as incident to a physician's services. In certain cases, services to a homebound Medicaid patient may be provided. Any other ambulatory service included in the State's Medicaid plan is considered covered by a FQHC program if the center offers it.

Program Type 05. Indian Health Services (See §1911 of the Act) (See 42 CFR 431.110).—

Indian Health Services (See §1911 of the Act) (See 42 CFR 431.110).--These are services provided by a program of the Indian Health Services (IHS), tribe or tribal organization under the Indian Self-Determination and Education Assistance Act, and an urban Indian organization under title V of the Indian Health Care Improvement Act. A State plan must provide that an IHS, tribal or urban facility, meeting State plan requirements for Medicaid participants, must be accepted as a Medicaid provider on the same basis as any other qualified provider.

Program Type 6-10

Program Type 06. Home and Community-Based Services for Disabled and Elderly (See §1929 of the Act) and for Individuals Age 65 and Older (MSIS) (See 42 CFR 441, Subpart H).--This program is for §1915(d) recipients of home and community-based services for individuals age 65 or older. This is an option within the Medicaid program to provide home and community-based care to functionally disabled individuals age 65 or older who are otherwise eligible for Medicaid or for non-disabled elderly individuals.

Program Type 07. Home and Community Based Waivers (See §1915(c) of the Act and 42 CFR 440.180).--This program includes services furnished under a waiver approved under the provisions in 42 CFR Part 441, Subpart G (home and community-based services; waiver requirements).

Program Type 08. Money Follows Patient (MFP) service package (established by Section 6071 of Deficit Reduction Act of 2005 [Public Law 109-171] and extended by Section 2403 off the Patient Protection and Affordable Care Act of 2010 [Public Law 111-148]) helps States rebalance their long-term care systems through the development of transition programs that move people with Medicaid from institutional-based long-term care to community-based long-term care. To qualify for MFP, Medicaid recipients need to have been in institutional care for at least 90 days, exclusive of Medicare-paid rehabilitation days. Upon the initial transition to community-based long-term care, MFP participants are eligible for MFP benefits for up to 365 days. At the conclusion of MFP eligibility, the person continues as a typical Medicaid beneficiary. While eligible for MFP benefits, the restricted benefits flag in the eligibility file should be set to value 08 whenever the beneficiary has a single day of MFP eligibility during the month.

Any service financed with MFP grant funds is considered an MFP service. MFP services are home- and community-based services (HCBS) financed with MFP grant funds. They can be 1915(c) waiver services or HCBS state plan services. The program has three classes of HCBS, including qualified HCBS (HCBS that the person would have been eligible for regardless of participation in MFP), demonstration HCBS (HCBS that are above and beyond what they would have qualified for as a regular Medicaid beneficiary), and supplemental services (which are typically one-time services someone needs to make the transition to community-based long-term care). States received enhanced matching funds for the qualified and demonstration services, and their regular mating rate for the supplemental services. Examples of MFP-financed services include, but are not limited to:

- 1915(c) waiver services
- Personal care assistance services provided through the state plan
- Behavioral health services, including psychosocial rehabilitation

Program Type 10. Balancing Incentive Payments (BIP). The Balancing Incentive Program authorizes grants to States to increase access to non-institutional long-term services and supports (LTSS) as of October 1, 2011.

The Balancing Incentive Program will help States transform their long-term care systems by:

- Lowering costs through improved systems performance & efficiency
- Creating tools to help consumers with care planning & assessment
- Improving quality measurement & oversight

The Balancing Incentive Program also provides new ways to serve more people in home and community-based settings, in keeping with the integration mandate of the Americans with Disabilities Act (ADA), as required by the Olmstead decision. The Balancing Incentive Program was created by the Affordable Care Act of 2010 (Section 10202).

Program Type 11-13

Program Type 11. Community First Choice (1915(k). The "Community First Choice Option" lets States provide home and community-based attendant services to Medicaid enrollees with disabilities under their State Plan.

This option became available on October 1, 2011 and provides a 6 % increase in Federal matching payments to States for expenditures related to this option.

Program Type 12. Psychiatric Rehab Facility For Children. Under the authority of section 2707 of the Patient Protection and Affordable Care Act of 2010 (Affordable Care Act), the Centers for Medicare & Medicaid Services (CMS) is funding the Medicaid Emergency Psychiatric Demonstration, which will be conducted by participating States. This is a 3-year Demonstration that permits participating States to provide payment under the State Medicaid plan to certain non-government psychiatric hospitals for inpatient emergency psychiatric care to Medicaid recipients aged 21 to 64 who have expressed suicidal or homicidal thoughts or gestures, and are determined to be dangerous to themselves or others.

Program Type 13. Home and Community-Based Services (HCBS) State Plan Option (1915(i)). States can offer a variety of services under a State Plan Home and Community-Based Services (HCBS) benefit. People must meet State-defined criteria based on need and typically get a combination of acute-care medical services (like dental services, skilled nursing services) and long-term services (like respite, case management, supported employment and environmental modifications).

1915(i) State plan HCBS: State Options

- Target the HCBS benefit to one or more specific populations
- Establish separate additional needs-based criteria for individual HCBS
- Establish a new Medicaid eligibility group for people who get State plan HCBS
- Define the HCBS included in the benefit, including State- defined and CMS-approved "other services" applicable to the population
- Option to allow any or all HCBS to be self-directed

Program Type 14

Program Type 14 (a)–(m)

Program Type 14. State Plan CHIP (See 42 CRF 457) 'This program is for Title XXI recipients (children age 0 through 18, children receiving prenatal care through the conception to birth option, pregnant women), "Child health assistance" services (as allowed by State law and defined at § 457.402) means payment for part or all of the cost of health benefits coverage provided to targeted low-income children for the following services:

(a) Inpatient hospital services.

(b) Outpatient hospital services.

(c) Physician services.

(d) Surgical services.

(e) Clinic services (including health center services) and other ambulatory health care

services.

(f) Prescription drugs and biologicals and the administration of these drugs and biologicals, only if these drugs and biologicals are not furnished for the purpose of causing, or assisting in causing, the death, suicide, euthanasia, or mercy killing of a person.

(g) Over-the-counter medications.

(h) Laboratory and radiological services.

(i) Prenatal care and pre-pregnancy family planning services and supplies.
(j) Inpatient mental health services, other than services described in paragraph (r) of this section but including services furnished in a state-operated mental health hospital and including residential or other 24-hour therapeutically planned structured services.

(k) Outpatient mental health services, other than services described in paragraph (s) of this section but including services furnished in a State-operated mental health hospital and including community-based services.

(l) Durable medical equipment and other medically-related or remedial devices (such as prosthetic devices, implants, eyeglasses, hearing aids, dental devices and adaptive devices).

(m) Disposable medical supplies.

Program Type 14 **(n)–(bb)**

(n) Home and community-based health care services and related supportive services (such as home health nursing services, personal care, assistance with activities of daily living, chore services, day care services, respite care services, training for family members and minor modification to the home.)

(o) Nursing care services (such as nurse practitioner services, nurse midwife services, advanced practice nurse services, private duty nursing, pediatric nurse services and respiratory care services) in a home, school, or other setting.

(p) Other pregnancy-related procedure only if necessary to save the life of the mother or if the pregnancy is the result of rape or incest.

(q) Dental services.

(r) Inpatient substance abuse treatment services and residential substance abuse treatment services.

(s) Outpatient substance abuse treatment services.

(t) Case management services.

(u) Care coordination services.

(v) Physical therapy, occupational therapy, and services for individuals with speech, hearing and language disorders.

(w) Hospice care.

(x) Any other medical, diagnostic, screening, preventive, restorative, remedial, therapeutic, or rehabilitative services (whether in a facility, home, school, or other setting) if recognized by State law and only if the service is—

(1) Prescribed by or furnished by a physician or other licensed or registered practitioner within the scope of practice as defined by State law;

(2) Performed under the general supervision or at the direction of a physician; or

(3) Furnished by a health care facility that is operated by a State or local government or is licensed under State law and operating within the scope of the license.

(y) Premiums for private health care insurance coverage.

(z) Medical transportation.

(aa) Enabling services (such as transportation, translation, and outreach services) only if designed to increase the accessibility of primary and preventive health care services for eligible low-income individuals.

(bb) Any other health care services or items specified by the Secretary and not excluded under this subchapter.

Program Type 15-16

Program Type 15. Psychiatric Residential Treatment Facilities Demonstration Grant Program. The Community Alternatives to Psychiatric Residential Treatment Facilities (PRTF) Demonstration Grant Program was authorized by Section 6063 of the Deficit Reduction Act of 2005 to provide up to $218 million to up to 10 states to develop 5-year demonstration programs that provide home and community-based services to children as alternatives to PRTF's. Nine states implemented demonstration grants. These projects were designed to test the cost-effectiveness of providing services in a child's home or community rather than in a PRTF and whether the services improve or maintain the child's functioning.

Program Type 16. 1915(j) (Self-directed personal assistance services/personal care under State Plan or 1915(c) waiver). Self-directed personal assistance services (PAS) are personal care and related services provided under the Medicaid State plan and/or section 1915(c) waivers the State already has in place.

- Participation in self-directed PAS is voluntary
- Participants set their own provider qualifications and train their PAS providers Participants determine how much they pay for a service, support or item

Appendix I: MBES CBES Category of Service Line Definitions for the 64.9 Base Form

Line	Line - Form Display	Line - Definition
1A	Inpatient Hospital - Reg. Payments	1A. - Inpatient Hospital Services.-- Regular Payments.--Other than services in an institution for mental health conditions. (See 42 CFR 440.10). These are services that: - Are ordinarily furnished in a hospital for the care and treatment of inpatients; - Are furnished under the direction of a physician or dentist (except in the case of nurse-midwife services under 42 CFR 440.165); and - Are furnished in an institution that: - Is maintained primarily for the care and treatment of patients with disorders other than mental health conditions; - Is licensed and formally approved as a hospital by an officially designated authority for State standard setting; - Meets the requirements for participation in Medicare (except in the case of medical supervision of nurse-midwife services under 42 CFR 440.165); and, - Has, in effect, a utilization review plan (that meets the requirements under 42 CFR 482.30 applicable to all Medicaid patients, unless a waiver has been granted by DHHS. NOTE: Inpatient hospital services do not include NF services furnished by a hospital with swing-bed approval. However, include services provided in a psychiatric wing of a general hospital if the psychiatric wing is not administratively separated from the general hospital.
1B	Inpatient Hospital - DSH	1.B. Inpatient Hospital Services -- DSH Adjustment Payment. - Other than services in an institution for mental health conditions. DSH payments are for the express purpose of assisting hospitals that serve a disproportionate share of low-income patients with special needs and are made in accordance with section 1923 of the Act. Report the total payments that were determined to be disproportionate share payments to the hospital by entering the amounts on the pop-up feeder form which in turn will pre-fill the Form CMS-64.9D as well as the appropriate lines on the Forms CMS-64.9, CMS-64.9P, CMS-64.21, CMS-64.21P, CMS-6421U or CMS-64.21UPs.

1C	Inpatient Hospital - Sup. Payments	1C. - Inpatient Hospital Services.- Supplemental Payments.--Other than services in an institution for mental health conditions. (Refer to the definition on Line 1A above). These are payments made in addition to the standard fee schedule or other standard payment for those services. These payments are separate and apart from regular payments and are based on their own payment methodology. Payments may be made to all providers or targeted to specific groups or classes of providers. Groups may be defined by ownership type (state, county or private) and/or by the other characteristics, e.g., caseload, services or costs. The combined standard payment and supplemental payment cannot exceed the upper payment limit described in 42 CFR 447.272. Address supplemental payments for inpatient hospitals associated with (1) state government operated facilities, (2) non-state government operated facilities, and (3) privately operated facilities by entering payments on the pop-up feeder form.
1D	Inpatient Hospital - GME Payments	1D. - Inpatient Hospital Services.—Graduate Medical Education (GME) Payments.-- GME payments include supplemental payments for direct medical education (DME) (i.e. costs of training physicians such as resident and teaching physician salaries/benefits, overhead and other costs directly related to the program) and indirect medical education (IME) costs hospitals incur for operating teaching programs. Report all supplemental payments for DME and IME that are provided for in the State plan.
2A	Mental Health Facility Services - Reg. Payments	2.A. Mental Health Facility Services - Report Institution for Mental Disease (IMD) (or mental health conditions) services for individuals age 65 or older and/or under age 21 (See 42 CFR 440.140 and 440.160.). Report Other Mental Services which are not provided in an inpatient setting in the Other Appropriate Service categories, e.g., Physician Services, Clinic Services. 1. Mental Health Hospital Services for the Aged.--Refers to those inpatient hospital services provided under the direction of a physician for the care and treatment of recipients in an institution for mental health conditions that meets the Conditions of Participation under 42 CFR Part 482. Institution for mental health conditions means an institution that is primarily engaged in providing diagnosis, treatment, or care of individuals with mental health conditions, including medical care, nursing care, and related services. (See 42 CFR 440.140(a)(2).) 2. NF Services for the Aged.--Means those NF services (as defined at 42 CFR 440.40) and those ICF services (as defined at 42 CFR 483, Subpart B) provided in an institution for mental health conditions to recipients determined to be in need of such services. (See 42 CFR 440.140.) 3. Inpatient Psychiatric Facility Services for Individuals Age 21 and Under. (See 42 CFR 441.151) --Means those services that: • Are provided under the direction of a physician; • Are provided in a facility or program accredited by the Joint Commission on the Accreditation of Health Care Organizations; and • Meet the requirements set forth at Subpart D of Part 441 (Inpatient Psychiatric Services for Individuals Age 21 and under in Psychiatric Facilities or Programs).

7A1	Drug Rebate Offset - National	7.A.1. Drug Rebate Offset.--This is a refund from the manufacturer to the State Medical Assistance plan for single source drugs, innovator multiple source drugs, and non-innovator multiple source drugs that are dispensed to Medicaid recipients. Rebates are to take place quarterly. Report these offsets as (1) National Agreement or (2) State Sidebar Agreement. National Agreement refers to rebates manufacturers pay your State pursuant to the manufacturers' agreements with CMS under OBRA 1990 provisions. State Sidebar Agreements refer to rebates manufacturers pay under an agreement directly with your State. These may have been entered into before January 1, 1991, the effective date of the OBRA rebate program. Or they may represent agreements your State entered into with a given manufacturer on or after January 1, 1991, under which the manufacturer pays at least as great a rebate as it would under the National Agreement. All States receive rebates under the National Agreements. A few States receive most of their rebates under the National Agreement, but some States receive other rebates under their State Sidebar Agreement with specific manufacturers. All manufacturer rebates received under CMS's National Agreement are reported on Line 7.A.1, National Agreement. All rebates received under State Sidebar Agreements are reported on Line 7.A.2, State Sidebar Agreement. NOTE: Vaccines are not subject to the rebate agreements.
7A2	Drug Rebate Offset - State Sidebar Agreement	7A2. Drug Rebate Offset.--This is the rebate collected under a separate State agreement Sidebar Agreement. These are rebates received that do not fall under 7A1 (National Drug Rebate).
7A3	MCO - National Agreement	7.A.3. National Agreement 7A3. 7A5	Increased ACA OFFSET - Fee for Service - 100%	Brand name drugs that are blood clotting factors and drugs approved by the FDA exclusively for pediatric indications are subject to a minimum rebate percentage of 17.1 percent of AMP: • If the difference between AMP and BP is less than or equal to 15.1 percent of AMP, then we plan to offset the full 2 percent of AMP (the difference between 17.1 percent of AMP and 15.1 percent of AMP). • If the difference between AMP and BP is greater than 15.1 percent of AMP, but less than 17.1 percent of AMP, then we plan to offset the difference between 17.1 percent of AMP and AMP minus BP. • If the difference between AMP and BP is greater than or equal to 17.1 percent of AMP, then we do not plan to take any offset amount. For a drug that is a line extension of a brand name drug that is an oral solid dosage form, we plan to apply the same offset calculation as described above to the basic rebate. Further, we plan to offset only the difference in the additional rebate of the reformulated drug based on the calculation methodology of the additional rebate for the drug preceding the requirements of the Affordable Care Act and the calculation of the additional rebate for the reformulated drug, if greater, in accordance with the Affordable Care Act. If there is no difference in the additional rebate amount in accordance with the Affordable Care Act, then we do not plan to take any offset amount. For a noninnovator multiple source drug, we plan to offset an amount equal to two percent of the AMP (the difference between 13 percent of AMP and 11 percent of AMP).

7A6	Increased ACA OFFSET - MCO - 100%	7.A.6. Increased ACA OFFSET - MCO - 100% 7A6. Increased ACA OFFSET – MCO: Similar to the increased ACA offset for fee-for-service, for covered outpatient drugs that are dispensed to Medicaid MCO enrollees, the Affordable Care Act also required that amounts “attributable” to the increased rebates be remitted to the Federal Government. Below is a description of how the offset is calculated: Brand name drugs other than blood clotting factors and drugs approved by the Food and Drug Administration (FDA) exclusively for pediatric indications are subject to a minimum rebate percentage of 23.1 percent of AMP: • If the difference between AMP and BP is less than or equal to 15.1 percent of AMP, then we plan to offset the full 8 percent of AMP (the difference between 23.1 percent of AMP and 15.1 percent of AMP). • If the difference between AMP and BP is greater than 15.1 percent of AMP, but less than 23.1 percent of AMP, then we plan to offset the difference between 23.1 percent of AMP and AMP minus BP. • If the difference between AMP and BP is greater than or equal to 23.1 percent of AMP, then we do not plan to take any offset amount. Brand name drugs that are blood clotting factors and drugs approved by the FDA exclusively for pediatric indications are subject to a minimum rebate percentage of 17.1 percent of AMP: • If the difference between AMP and BP is less than or equal to 15.1 percent of AMP, then we plan to offset the full 2 percent of AMP (the difference between 17.1 percent of AMP and 15.1 percent of AMP). • If the difference between AMP and BP is greater than 15.1 percent of AMP, but less than 17.1 percent of AMP, then we plan to offset the difference between 17.1 percent of AMP and AMP minus BP. • If the difference between AMP and BP is greater than or equal to 17.1 percent of AMP, then we do not plan to take any offset amount. For a drug that is a line extension of a brand name drug that is an oral solid dosage form, we plan to apply the same offset calculation as described above to the basic rebate. Further, we plan to offset only the difference in the additional rebate of the reformulated drug based on the calculation methodology of the additional rebate for the drug preceding the requirements of the Affordable Care Act and the calculation of the additional rebate for the reformulated drug, if greater, in accordance with the Affordable Care Act. If there is no difference in the additional rebate amount in accordance with the Affordable Care Act, then we do not plan to take any offset amount. For a noninnovator multiple source drug, we plan to offset an amount equal to two percent of the AMP (the difference between 13 percent of AMP and 11 percent of AMP).

14	Other Pregnancy-related Procedures	14. Other Pregnancy-related Procedures (See 42 CFR 441, Subpart E.).--FFP is available when a physician has certified, in writing, to the Medicaid agency, that on the basis of professional judgment the woman suffers from a physical disorder, physical injury, or physical illness, including a life-endangering physical condition caused by or arising from the pregnancy itself, that would, as certified by a physician, place the woman in danger of death unless a termination is performed. The certification must contain the name and address of the patient. The revision to the Hyde Amendment, P.L. 103-112, Health and Human Services Appropriations Bill, made FFP available for expenditures for other pregnancy-related procedures when the pregnancy is a result of an act of rape or incest. This reimbursement is effective for dates of service October 1, 1993 and thereafter. Provide a breakout of the number of other pregnancy-related procedures and associated expenditures in the following cases: • Procedures performed to save the life of the mother, • Procedures performed in the case of pregnancies resulting from incest, and • Procedures performed in the case of pregnancies resulting from rape. NOTE 1: Report all other pregnancy-related procedures on this line regardless of the type of provider. For prior period adjustments, only include any entry in number of procedures if, for increasing claims, it is a new pregnancy-related procedure that has not been previously reported, or, for decreasing claims, you want to remove a procedure previously claimed. Make no entry in number of procedures if all you are changing is the dollar amount claimed. NOTE 2: The "morning after pill" (ECP) is not considered a termination as it is a contraceptive to prevent pregnancy. However, the drug Mifepristone (RU486) should be counted as another pregnancy-related procedure as long as all Hyde amendment and other federal requirements are met.

42	Freestanding Birth Center	Line 42 - Freestanding Birth Center --COVERAGE FOR FREESTANDING BIRTH CENTER SERVICES Section 2301 of the Affordable Care Act amended section 1905(a) of the Social Security Act (the Act) to provide coverage for freestanding birth center services, as defined in section 1905(l)(3)(A) of the Act. In that provision, the benefit is defined as services furnished at a freestanding birth center, which is defined in new subparagraph 1905(l)(3)(B) as a health facility: • that is not a hospital; • where childbirth is planned to occur away from the pregnant woman's residence; • that is licensed or otherwise approved by the State to provide prenatal, labor and delivery, or postpartum care and other ambulatory services included in the State plan; and • that must comply with a State's requirements relating to the health and safety of individuals receiving services delivered by the facility. In addition to payment for freestanding birth center facilities, section 1905(l)(3)(C) of the Act requires separate payment for the services furnished by practitioners providing prenatal, labor and delivery, or postpartum care in a freestanding birth center facility, such as nurse midwives and birth attendants. Payment must be made to these practitioners directly, regardless of whether the individual is under the supervision of, or associated with, a physician or other health care provider. It is important to note that section 2301 of the Affordable Care Act does not require States to license or otherwise recognize freestanding birth centers or practitioners who provide services in these facilities if they do not already do so. Coverage and payment are limited to only those facilities and practitioners licensed or otherwise recognized under State law.

Line	Line - Form Display	Line - Definition
42	Freestanding Birth Center	Prior to passage of the Affordable Care Act, only nurse midwife services were mandatory services under section 1905(a)(17) of the Act and implementing regulations at 42 CFR 440.165. In addition, States had the option to cover the services of other practitioners who are licensed by the State to provide midwifery services such as Certified Professional Midwives (CPM) under section 1905(a)(6) of the Act and implementing regulations at 42 CFR 440.60. These practitioner services are now mandatory when provided in a freestanding birth center as defined above. Further, other practitioner services, such as those furnished by so-called direct entry or lay midwives or birth attendants, who are not licensed but are recognized under State law to provide these services, are now required to be covered when provided in the freestanding birth center. Submission of State Plan Amendments These provisions became effective with the enactment of the Affordable Care Act, beginning March 23, 2010. To implement these provisions, States will need to submit amendments to their State plans that specify coverage and separate reimbursement of freestanding birth center facility services and professional services. Unless the compliance exception discussed below applies, or the State does not license or otherwise recognize freestanding birth centers or practitioners who provide services in these facilities, States must submit a State plan amendment (SPA) not later than the end of the next calendar quarter that follows the date of this guidance. In accordance with section 2301(c) of the Affordable Care Act, States that require State legislation (other than appropriation legislation) to meet the new requirements related to their Medicaid coverage of freestanding birth center services will not be regarded as out of compliance with the standards governing this coverage option as long as they come into compliance not later than the first day of the first calendar quarter beginning after the close of the first regular session of the State legislature that begins after the date of the enactment of the Affordable Care Act. For example, if the next regular legislative session beginning after March 23, 2010, is from January 1 through April 30, 2011, then the State would have until September 30, 2011, to submit the required SPA with an effective date of July 1, 2011. In the case of the State that has a 2-year legislative session, each year is treated as a separate regular session of the State legislature. For example, if a legislature is in session from January 1, 2010, through December 31, 2012, then the State would have until March 31, 2011, to submit a SPA with an effective date that is no later than January 1, 2011. A State should promptly notify its CMS regional office if this compliance exception is applicable.

Appendix M: Crosswalk of T-MSIS, MSIS and MMA Dual Eligible Code

Coding requirement on the DUAL-ELIGIBLE-CODE data element

When populating the DUAL-ELIGIBLE-CODE data element, States should ignore the coding requirement regarding Medicare Modernization Act. ("This field should be populated from the same data that were used to populate the State's submission of the Medicare Modernization Act ("State MMA File") monthly file to CMS. In other words, the data values from the State MMA File should match this dual eligible data element.")

CMS has already incorporated the MMA valid values into MSIS and carried them forth into T-MSIS, as can be seen in the crosswalk below.

Appendix N: Coding Specific Data Elements for Claim Files

Clarification of the use of the PROCEDURE-CODE, REVENUE-CODE, HCPCS-RATE, BEGINNING-DATE-OF-SERVICE, and ENDING-DATE-OF-SERVICE fields in the CLAIMOT File.

Because the CLAIMOT file is a catch-all file that includes outpatient facility claims, professional claims and financial transactions, states are having confusion over when to populate the PROCEDURE-CODE, REVENUE-CODE, HCPCS-RATE , BEGINNING-DATE-OF-SERVICE, ENDING-DATE-OF-SERVICE, PROCEDURE-CODE-DATE, PROCEDURE-CODE-FLAG, and PROCEDURE-CODE-MOD-1 thru -4 fields. To assist them we have prepared the following guidelines.

For professional claims:

- **REVENUE-CODE** should be 8-filled, left blank or space-filled.
- **HCPCS-RATE** should be 8-filled, left blank or space-filled.
- **PROCEDURE-CODE-FLAG** should be populated with either "01 (CPT-4), "06" (HCPCS), or "10" through "87" (to indicate other coding schemas).
- **PROCEDURE-CODE** should be used to capture the CPT/HCPCS service codes.
- **PROCEDURE-CODE-MOD-1 thru -4** should be populated as needed.
- **BEGINNING-DATE-OF-SERVICE** should show the 1st DOS associated with the service code in the PROCEDURE-CODE field.
- **ENDING-DATE-OF-SERVICE** should show the last DOS associated with the service code in the PROCEDURE-CODE field.
- **PROCEDURE-CODE-DATE** should be 8-filled, left blank or space-filled (This field is superfluous. Beginning-/Ending-Date-of-Service captures the same information and provides more flexibility if the service is provided repeatedly over a period of time.)

*For institutional claims for ambulatory care (**reported on CLAIMOT file**):*

- **REVENUE-CODE** should be used to capture the services provided.
- **HCPCS-RATE** should be used to capture HCPCS details whenever they are needed to support the value in the REVENUE-CODE field. Otherwise, the field should be 8-filled, left blank or space-filled.
- **PROCEDURE-CODE-FLAG** should be 8-filled, left blank or space-filled.
- **PROCEDURE-CODE** field should be 8-filled, left blank or space-filled.
- **PROCEDURE-CODE-MOD-1 thru -4** should be 8-filled, left blank or space-filled.
- **BEGINNING-DATE-OF-SERVICE** should show the 1st DOS associated with the service code in the REVENUE-CODE field.

- **ENDING-DATE-OF-SERVICE** should show the last DOS associated with the service code in the REVENUE-CODE field.
- **PROCEDURE-CODE-DATE** should be 8-filled, left blank or space-filled (This field is superfluous. Beginning-/Ending-Date-of-Service captures the same information and provides more flexibility if the service is provided repeatedly over a period of time.)

For financial transactions[1]*:*

- **REVENUE-CODE** field should be 8-filled, left blank or space-filled.
- **HCPCS-RATE** should be 8-filled, left blank or space-filled.
- **PROCEDURE-CODE-FLAG** should be 8-filled, left blank or space-filled, or populated with "10" through "87" (to indicate other coding schemas if state-specific codes are used).
- **PROCEDURE-CODE** field should be 8-filled, left blank or space-filled unless the State has state-specific codes it uses to provide further detail (e.g., codes to split capitation payments into subcategories).
- **PROCEDURE-CODE-MOD-1 thru -4** should be 8-filled, left blank or space-filled.
- **BEGINNING-DATE-OF-SERVICE** should show the 1st day of the time period covered by this financial transaction.
- **ENDING-DATE-OF-SERVICE** should show the last day of the time period covered by this financial transaction.
- **PROCEDURE-CODE-DATE** should be 8-filled, left blank or space-filled (This field is superfluous. Beginning-/Ending-Date-of-Service captures the same information and provides more flexibility if the service is provided repeatedly over a period of time.)

Appendix O: TYPE-OF-SERVICE Hierarchy Table

When a claim has multiple claim lines that could be reported in more than one CLAIMS file, <u>in any combination as represented in columns A, B, C, or D</u>, please report all claim lines in the CLAIMS file type represented by the green highlight in the table below, and report the TYPE-OF-SERVICE as follows:

1. ***For claim lines that would have been reported in the MSIS the LT, OT, and RX files,***
   They are now to be reported in
   - ***the T-MSIS CLAIMIP file as a complete claim, and***
   - ***code the TYPE-OF-SERVICE to reflect the type of service that represents the entire facility claim (****TYPE OF SERVICE CODE of 001, 060, 084, 086, 090, 091, 092, 093, 058, 123, 132, or 135, whichever is most appropriate for CLAIMIP record being reported).***

     Example – a multi-line claim that was reported in MSIS by the state as separate IP and OT records for the inpatient care, laboratory services, and emergency room services -is now to be reported in T-MSIS entirely as a single inpatient hospital facility claim *with every line containing a TYPE-OF-SERVICE – 001.*

2. For claim lines that would have been reported in the MSIS OT and RX files,
They are now to be reported in
- ***the T-MSIS CLAIMLT file as a complete claim,***
- ***and code the TYPE-OF-SERVICE to reflect the type of service that represents the entire facility claim (TYPE-OF-SERVICE 009, 044, 045, 046, 047, 048, 050, 059, or 133 whichever is most appropriate for CLAIMLT claim record being reported)***

3. For claim lines that would have been reported the RX and OT files in MSIS,
They are now to be reported in
- ***the T-MSIS CLAIMRX file as a complete claim billed by a pharmacy or pharmacist (through a pharmacy point-of-sale system),and***
- ***code the TYPE-OF-SERVICE to reflect the type of service that was provided***

Appendix P.01: Submitting Adjustment Claims to T-MSIS

Brief Issue Description

There are two ways original claims and their subsequent adjustments can be linked into a claim family – either through all adjustments linking back to the original claim or each subsequent adjustment linking back to the prior claim (i.e. "daisy chain"). Identifying the members of a claim family is necessary in order to evaluate the changes to a claim that occur throughout its life.

Background Discussion

Before delving into CMS' guidance on how to populate the ICN-ORIG and ICN-ADJ fields, some background discussion is needed on terminology and concepts.

What claim transactions should be submitted to T-MSIS?

Every "final adjudicated version of the claim/encounter" should be submitted to T-MSIS.

A "final adjudicated version of the claim/encounter" is a claim that has completed the adjudication process and the paid/denied process. The claim and each claim line will have one of the finalized claim status categories listed in Table 1, below. The actual disposition of the claim can be either "paid" or "denied."

Table 1: Finalized Claim Status Categories

Code	Finalized Claim Status Category Description
F0	Finalized-The encounter has completed the adjudication cycle and no more action will be taken. (Used on encounter records)
F1	Finalized/Payment-The claim/line has been paid.
F2	Finalized/Denial-The claim/line has been denied.
F3	Finalized/Revised - Adjudication information has been changed.

Both original claims (or encounters) and adjusted claims (or encounters) can be a "final adjudicated version of the claim/encounter." Whenever a claim/encounter flows through the adjudication and payment processes (if applicable) and falls into one of the claim status categories in Table 1, the state should send the claim/encounter to T-MSIS.

If a claim flows through the adjudication and payment processes and falls into one of the finalized claim status categories multiple times within a single T-MSIS reporting period, CMS expects each of these final adjudicated versions of the claim/encounter to be submitted to T-MSIS, not just the one effective on the last day of the reporting period.

If the claim has not been through the final adjudication process or is "pending" (or in "suspense"), the claim should not be sent to T-MSIS until disposition has been settled to one of the finalized claim status categories. Table 2 provides examples and CMS' expectations.

Table 2: Scenarios for When to Submit Claims

Claim Submission Scenario	CMS' Expectation
Adjudicated and paid in the same reporting month	CMS expects the claim to be sent to T-MSIS in the reporting month.
Adjudicated in one reporting period, but paid in another reporting month	CMS expects the claim to be sent to T-MSIS in the month that the claim was paid.
Adjudicated and paid in one reporting month, and then re-adjudicated and paid in a subsequent month	The claim should be reported in the month it is paid, regardless of whether it is an original claim or an adjustment. Therefore, in this scenario, CMS expects the original to be reported in month one and the adjustment to be reported in the subsequent month.
Adjudicated and paid, and then re-adjudicated and paid in the same reporting month	In this scenario, if a claim flows through the adjudication and payment processes and falls into one of the claim status categories in Table 1 multiple times within a single T-MSIS reporting period, CMS expects each of these final adjudicated versions of the claim/encounter to be submitted to T-MSIS, not just the one effective on the last day of the reporting period.
Re-adjudicated and paid multiple times in the same reporting month	In this scenario, if a claim flows through the adjudication and payment processes and falls into one of the claim status categories in Table 1 multiple times within a single T-MSIS reporting period, CMS expects each of these final adjudicated versions of the claim/encounter to be submitted to T-MSIS, not just the one effective on the last day of the reporting period.

What is a claim family?

A "claim family" (a.k.a. "adjustment set")is defined as a set of post-adjudication claim transactions in paid or denied status that relate to the same provider/enrollee/services/dates of service. This grouping of the original claim and all of its subsequent adjustment and/or void claims shows the progression of changes that have occurred since it was first submitted.

How should ADJUSTMENT-IND codes be used?

The table below lists each of the adjustment indicator codes contained in the T-MSIS Data Dictionary version 1.1 and describes when it should be used.

Table 3: Adjustment Indicator Codes and Their Uses

Code	Description of Use
0	Original Claim/Encounter/Payment – Indicates that this is the first (and, when applicable, only) fully adjudicated transaction in a claim family (one or more claims with the related ICN-ORIG and/or ICN-ADJ and typically the same MSIS ID and provider ID(s) also).

Code	Description of Use
1	Void/Reversal/Cancel of a prior submission – Use this code to convey that the purpose of the transaction is to void/reverse/cancel a previously paid/approved claim/encounter/payment where the claim/encounter/payment is not being replaced by a new paid/approved version of the claim/encounter/payment. Typically this would be the last claim/encounter/payment that would ever be associated with a given claim family. These records must have the same ICN-ORIG or ICN-ADJ as the claim/encounter being voided. CMS expects a void transaction to also have the same MSIS ID and provider ID(s) as the claim/encounter/payment being voided/reversed/canceled.
4	Replacement/Resubmission of a previously paid/approved claim/encounter/payment – Use when the purpose of the transaction is to replace a previously paid/approved claim/encounter/payment with a new paid/approved version of the claim/encounter/payment. These records must have the same ICN-ORIG or ICN-ADJ as the claim/encounter being replaced. CMS expects a replacement transaction to also have the same MSIS ID and provider ID(s) as the claim/encounter/payment being replaced/resubmitted.
5	Credit Gross Adjustment – Use this code to indicate an aggregate provider-level recoupment of payments (e.g., not attributable to a single beneficiary). Amounts on these claims should be expressed as negative numbers. If a credit gross adjustment is reported with an ICN that is related to an ICN(s) of another gross adjustment (credit or debit) then CMS will interpret this to mean that the credit gross adjustment with the more recent adjudication date should completely replace the preceding related gross adjustment. If the ICNs of a credit gross adjustment are not related to any other gross adjustments (credit or debit) then the credit gross adjustment will always be treated as a distinct financial transaction.
6	Debit Gross Adjustment – Use this code to indicate an aggregate provider-level payment to a provider (e.g., not attributable to a single beneficiary). Amounts on these claims should be expressed as positive numbers. If a debit gross adjustment is reported with an ICN that is related to an ICN(s) of another gross adjustment (credit or debit) then CMS will interpret this to mean that the credit gross adjustment with the more recent adjudication date should completely replace the preceding related gross adjustment. If the ICNs of a debit gross adjustment are not related to any other gross adjustments (credit or debit) then the debit gross adjustment will always be treated as a distinct financial transaction.

Are gross adjustments considered claims/encounters?

While the gross adjustment adjudication indicator codes (values “5” and “6” in Table 3) are reported to T-MSIS in the CLAIM-OT file, they are not technically “claims” or “encounters.” Each of these transactions does not relate to a specific service-provider/enrollee episode of care. Instead, these transactions represent payments made by the state for services rendered to multiple enrollees (as in the case of a provider providing screening services for a group of enrollees), DSH payments, or a recoupment of funds previously dispensed in a debit gross adjustment. Therefore, the concept of “claims family” does not apply. Each of these transactions stands on its own, and does not constitute a subsequent transaction being a replacement of the earlier transaction.

What alternatives are there for tying the members of a claim family together?

The Original ICN Approach

Under this approach, the state assigns an ICN to the initial final adjudicated version of the claim/encounter and records this identifier in the ICN-ORIG field. If adjustment claims subsequently are created, the ICN assigned to the initial final adjudicated version of the claim/encounter is carried forward on every subsequent adjustment claim. Table 4 illustrates how the ICN-ORIG and ICN-ADJ values on the members of a claim family are populated when the original ICN approach is used.

Table 4: ICN-ORIG/ICN-ADJ Relationships Under the Original ICN Approach

Event	ADJUDICATION-DATE	ICN-ORIG	ICN-ADJ	ADJUSTMENT-IND
On 5/1/2014, the state completes the adjudication process on the initial version of the claim	5/1/2014	1	-	0
On 7/15/2014, the state completes a claim re-adjudication / adjustment	7/15/2014	1	2	4
On 8/12/2014, the state completes a 2nd claim re-adjudication / adjustment	8/12/2014	1	3	4
On 9/5/2014, the state completes a 3rd claim re-adjudication / adjustment	9/5/2014	1	4	4

The Daisy-Chain ICN Approach

Under this approach, the state records the ICN of the previous final adjudicated version of the claim/encounter in the ICN-ORIG field of the adjustment claim record. If additional adjustment claims are subsequently created, the ICN-ORIG on the new adjustment claim only points back one generation. Table 5 illustrates how the ICN-ORIG and ICN-ADJ values on the members of a claim family are populated when the daisy-chain ICN approach is used.

Table 5: ICN-ORIG/ICN-ADJ Relationships Under the Daisy-Chain ICN Approach

Event	ADJUDICATION-DATE	ICN-ORIG	ICN-ADJ	ADJUSTMENT-IND
On 6/1/2014, the state completes the adjudication process on the initial version of the claim	6/1/2014	11	-	0
On 8/15/2014, the state completes a claim re-adjudication/adjustment	8/15/2014	11	12	4
On 9/12/2014, the state completes a 2nd claim re-adjudication/adjustment	9/12/2014	12	13	4
On 10/5/2014, the state completes a 3rd claim re-adjudication/adjustment	10/5/2014	13	14	4

How are ICN-ORIG and ICN-ADJ fields impacted when voids are submitted?

The primary purpose of void transactions (ADJUSTMENT-IND = 1) is to nullify a claim/encounter from T-MSIS when the state does not wish to replace it with an adjusted claim/encounter record. These records must have the same claim key data element values as the claim/encounter being voided. Dollar and quantity fields should be set to zero. The ADJUDICATION-DATE on these records should be set to the date that the state voided the claim. Table 6 illustrates how the ICN-ORIG and ICN-ADJ values on the members of a claim family are populated when the state wishes to void a claim.

Table 6: ICN-ORIG/ICN-ADJ – Impact of Voids

Event	ADJUDICATION-DATE	ICN-ORIG	ICN-ADJ	ADJUSTMENT-IND	Dollar Fields	Quantity Fields
On 6/1/2014, the state completes the adjudication process on the initial version of the claim	6/1/2014	51	-	0	100.00	5
On 8/15/2014, the state completes a claim re-adjudication/adjustment	8/15/2014	51	52	4	80.00	5
On 8/19/2014, the claim is voided	8/19/2014	51	52	1	0.00	0

If a state uses a process to record adjustments whereby they void the previous version of the claim and then follow-up with the creation of a new original transaction, and the state can identify that the void and the new original claim are from the same adjudication set, the state should link them together into one claims family using the ICN-ORIG. CMS recognizes that some states may not be able to link a resubmitted claim after a void to the original claim. Table 7 illustrates how CMS is expecting the states to populate the ICN-ORIG/ICN-ADJ fields when the state processes a void/new original when adjusting claims.

*Table 7: ICN-ORIG/ICN-ADJ – Keeping the Claim Family Intact When the "*Void/New Original" Scenario Occurs

Event	ADJUDICATION-DATE	ICN-ORIG	ICN-ADJ	ADJUSTMENT-IND	Dollar Fields	Quantity Fields
On 6/1/2014, the state completes the adjudication process on the initial version of the claim	6/1/2014	51	-	0	100.00	5
On 8/15/2014, the state completes the adjudication process of a void and associated new original	8/15/2014	51	-	1	0.00	0
	8/15/2014	51	52	0	80.00	5
On 9/20/2014, the state completes the adjudication process of a void and associated new original	9/20/2014	51	52	1	0.00	0
	9/20/2014	51	53	0	60.00	5

How Adjustment Records will be Applied by CMS

There is an inherent limitation in the way that CMS can interpret what to do with two claim transactions having the same ICN-ORIG and ADJUDICATION-DATE when both transactions are received in a single submission file. The processing rules that T-MSIS will follow are outlined below. It is up to each state to assure that claim transactions are processed in the appropriate sequence. If the rules below do not result in the sequence of transactions that the state desires, it is up to the state to submit transactions in separate files so that the desired sequence is attained.

Rules for inserting claim transactions into the T-MSIS database

When two or more claim transactions with the same ICN-ORIG and ADJUDICATION-DATE are in the same submission file

If two or more transactions in an incoming claim file have the same ICN-ORIG and ADJUDICATION-DATE values, T-MSIS will evaluate the ADJUSTMENT-IND values and insert the transactions into the T-MSIS database as follows:

1. If more than two transactions in the incoming claim file have the same ICN-ORIG and ADJUDICATION-DATE values, then T-MSIS will reject all of the incoming transactions;
2. If the ADJUSTMENT-IND values of both incoming transactions are the same (but not '5' or '6'), then T-MSIS will reject both incoming transactions;
3. If the ADJUSTMENT-IND values of both incoming transactions are some combination of '5' and '6' and if there is no active existing transaction in the T-MSIS DB, then T-MSIS will insert both incoming transactions into the T-MSIS DB (note, since neither transaction supersedes the other, the order in which they are inserted does not matter);
4. If the ADJUSTMENT-IND values of both incoming transactions are some combination of '5' and '6' and if there is an active existing transaction in the T-MSIS DB with an ADJUSTMENT-IND value of '5' or '6', then T-MSIS will insert both incoming transactions into the T-MSIS DB (note, since neither transaction supersedes the other, the order in which they are inserted does not matter);
5. If the ADJUSTMENT-IND values of both incoming transactions is a '5' or '6' and if there is an active existing transaction in the T-MSIS DB with an ADJUSTMENT-IND value of '0', '1', or '4', then T-MSIS will reject both the incoming transactions;
6. If the ADJUSTMENT-IND value of one incoming transaction is a '5' or '6' and the ADJUSTMENT-IND of the other transaction is '0', '1', or '4' and if there is an active existing transaction in the T-MSIS DB with an ADJUSTMENT-IND value of '5' or '6', then T-MSIS will insert the incoming transaction with ADJUDICATION-IND of '5' or '6' and reject the incoming transaction with ADJUSTMENT-IND value '0', '1', or '4';
7. If the ADJUSTMENT-IND value of one incoming transaction is a '5' or '6' and the ADJUSTMENT-IND of the other transaction is '0', '1', or '4' and there is an active existing transaction in the T-MSIS DB with an ADJUSTMENT-IND value of '0', '1', or '4', then T-MSIS will reject the incoming transaction with ADJUSTMENT-IND value '5' or '6' and evaluate the remaining incoming transaction as follows:
    a. ADJUSTMENT-IND of the remaining incoming transaction is '0' and the ADJUSTMENT-IND of the active existing transaction is '0', then T-MSIS will reject the incoming transaction;
    b. ADJUSTMENT-IND of the remaining incoming transaction is '0' and the ADJUSTMENT-IND of the active existing transaction is '1', then T-MSIS will insert the incoming transaction;
    c. ADJUSTMENT-IND of the remaining incoming transaction is '0' and the ADJUSTMENT-IND of the active existing transaction is '4', then T-MSIS will reject the incoming transaction;
    d. ADJUSTMENT-IND of the remaining incoming transaction is '1' and the ADJUSTMENT-IND of the active existing transaction is '0', then T-MSIS will insert the incoming transaction;
    e. ADJUSTMENT-IND of the remaining incoming transaction is '1' and the ADJUSTMENT-IND of the active existing transaction is '1', then T-MSIS will reject the incoming transaction;

f. ADJUSTMENT-IND of the remaining incoming transaction is ‘1’ and the ADJUSTMENT-IND of the active existing transaction is ‘4’, then T-MSIS will insert the incoming transaction;

g. ADJUSTMENT-IND of the remaining incoming transaction is ‘4’ and the ADJUSTMENT-IND of the active existing transaction is ‘0’, then T-MSIS will insert the incoming transaction;

h. ADJUSTMENT-IND of the remaining incoming transaction is ‘4’ and the ADJUSTMENT-IND of the active existing transaction is ‘1’, then T-MSIS will insert the incoming transaction;

i. ADJUSTMENT-IND of the remaining incoming transaction is ‘4’ and the ADJUSTMENT-IND of the active existing transaction is ‘4’, then T-MSIS will insert the incoming transaction;

8. If the ADJUSTMENT-IND value of one incoming transaction is ‘1’ and the ADJUSTMENT-IND of the other transaction is ‘0’ or ‘4’ and the ADJUSTMENT-IND of the active existing transaction in the T-MSIS DB is ‘0’ or ‘4’, then T-MSIS will insert the incoming transaction with ADJUSTMENT-IND = ‘1’ first, and then insert the other transaction;

9. If the ADJUSTMENT-IND value of one incoming transaction is ‘1’ and the ADJUSTMENT-IND of the other transaction is ‘0’ or ‘4’ and the ADJUSTMENT-IND of the active transaction in the T-MSIS DB is ‘1’, then T-MSIS will insert the incoming transaction with ADJUSTMENT-IND value of ‘0’ or ‘4’ first and then insert the incoming transaction with ADJUSTMENT-IND = ‘1’;

10. If the ADJUSTMENT-IND value of one incoming transaction is ‘0’ and the ADJUSTMENT-IND value of the other incoming transaction is ‘4’ and there is no active existing transaction in the T-MSIS DB, then T-MSIS will insert the incoming transaction with ADJUSTMENT-IND value of ‘0’ first and then insert the incoming transaction with ADJUSTMENT-IND = ‘4’;

11. If any other combination of ADJUSTMENT-IND values occurs, then T-MSIS will reject all of the transactions.

CMS Guidance

The state can use either the original ICN approach or the daisy-chain ICN approach to populate the ICN-ORIG field on each member of the claims family. T-MSIS will group claim transactions into claim families as part of the ETL process.

Appendix P.02: Reporting Financial Transactions in T-MSIS

How to populate T-MSIS claim files when reporting non-claim expenditures and recoupments

Brief Issue Description:

The purpose of this guidance document is to clarify the appropriate way to report non-claim expenditure and recoupment transactions, since many of the data elements on the claim records (CLAIMIP, CLAIMLT, CLAIMOT, and CLAIMRX) do not seem appropriate for these types of transactions.

Background Discussion

Definition of a financial transaction:

For purposes of this guidance, CMS defines a financial transaction as an expenditure transaction or a recoupment of a previously made expenditure that does not flow through the usual claim adjudication/adjustment process.

The cause or effect of this may be that these types of transactions do not contain the same level of detail as other types of transactions in the state's system. For example, a state might not assign a service code to a capitation claim. Payments made in lump sums, such as Disproportionate Share Hospital (DSH) payments, because they cannot be attributed to a single beneficiary would not contain a beneficiary identifier.

For some states, examples of financial transactions might include capitation payments made to managed care organizations, supplemental payments (i.e., payments that are above a capitation fee or for a sum above a negotiated rate, such as an FQHC additional reimbursement), drug rebates, DSH payments, cost settlements (e.g., program cost reconciliations and settlements, year-end reconciliation of risk pools), aggregate-level payments to providers (e.g., for a set of enrollees, claims, etc.) rather than payments made on a specific claim.

Financial Transactions may be reported on CLAIMIP, CLAIMLT, CLAIMOT, or CLAIMRX depending on the type and circumstances of the financial transaction. "Table 1 – Financial Transactions and the appropriate T-MSIS file for reporting them" identifies which T-MSIS files are appropriate for the various types of financial transactions.

Table 1 – *Financial transactions and the appropriate T-MSIS file for reporting them*

Financial transactions can be contained within the same files as fee-for-service claims and encounter records.

CMS Guidance

When and how to populate data elements for financial transactions:

The data elements listed on the following pages are ones that should be populated on financial transactions. Additional verbiage is provided for those data elements that CMS believes need explicit instructions for building T-MSIS files. States should contact their T-MSIS technical assistant or state liaison if they have questions or concerns. Data elements not specifically listed below can be 8-filled, left blank or space-filled.

CLAIM-HEADER-RECORD data elements

a. RECORD-ID
b. SUBMITTING-STATE
c. RECORD-NUMBER
d. MSIS-IDENTIFICATION-NUM – Populate with beneficiary's MSIS ID for any beneficiary-specific financial transactions. Otherwise first character of MSIS-IDENTIFICATION-NUM must be "&" to indicate that any characters that might follow do not represent an individual beneficiary's identifier.
e. ICN-ORIG – See the document entitled CMS Guidance: T-MSIS Adjustment Claim Records-Populating ICN-ORG and ICN-ADJ Fields posted on 2/18/2014 to the T-MSIS State Support.
f. ICN-ADJ – See the document entitled CMS Guidance: T-MSIS Adjustment Claim Records-Populating ICN-ORG and ICN-ADJ Fields posted on 2/18/2014 to the T-MSIS State Support
g. ADJUDICATION-DATE – Date the transaction's approval and payment processes were completed.
h. CHECK-EFF-DATE – Populate with the date that Medicaid funds were disbursed. (Note: Even though the TOT-MEDICAID-PAID-AMT field may be set to zero in some circumstances, Medicaid funds were disbursed – and are captured in the SERVICE-TRACKING-PAYMENT-AMT data element.)
i. ADMISSION-DATE – Populate with the first day of the time period covered by this financial transaction (CLAIMIP and CLAIMLT).
j. DISCHARGE-DATE – Populate with the last day of the time period covered by this financial transaction (CLAIMIP and CLAIMLT).
k. BEGINNING-DATE-OF-SERVICE – Populate with the first day of the time period covered by this financial transaction (CLAIMOT).
l. ENDING-DATE-OF-SERVICE – Populate with the last day of the time period covered by this financial transaction (CLAIMOT).
m. DATE-PRESCRIBED – Populate with the first day of the time period covered by this financial transaction (CLAIMRX).
n. PRESCRIPTION-FILL-DATE – Populate with the last day of the time period covered by this financial transaction (CLAIMRX).
o. WAIVER-TYPE – Populate if applicable and available
p. WAIVER-ID – Populate if applicable and available
q. PLAN-ID-NUMBER – Populate with the managed care plan ID for capitation payments made to managed care plans. 8-fill, leave blank or space-fill if transaction does not involve a manage care plan.

r. BILLING-PROV-NPI-NUM – Populate with the provider or entity that the financial transaction was addressed to. 8-fill, leave blank or space-fill if transaction involves a manage care plan.
s. TOT-MEDICAID-PAID-AMT – If TYPE-OF-CLAIM is 4, D, or X, then set to zero – service tracking payment amount will be populated instead. Otherwise populate with the amount paid to the provider or health plan.
t. SERVICE-TRACKING-PAYMENT-AMT – If TYPE-OF-CLAIM is 4, D, or X, then populate this with the amount paid, otherwise 0-fill.
u. TYPE-OF-CLAIM – valid values appropriate for each type of financial transaction are shown in Table 2. (The descriptions of the TYPE-OF-CLAIM values are shown in Table 3. The values appropriate for financial transactions are highlighted in yellow.)

Claim Type (col. 1-3)

Medicaid or Medicaid Expansion	Separate CHIP (Title XXI)	Other	Description	Purpose
1	A	U	Fee-For-Service Claim	Used to report services billed & payments made for specific services rendered to a specific enrollee by a specific provider during a specific period of time. Payment is made only for services actually rendered.
2	B	V	Capitation Payment	Used to report periodic payments made in return for a contractual commitment by the recipient to provide a specified set of services to a specified set of enrollees for a specified period of time. The volume of services actually provided to any given individual is not a factor in the amount of the capitation payment.
3	C	W	Encounter Record	Used to report services provided under a capitated payment arrangement. This includes billing records submitted by providers to non-state entities (e.g., MCOs, health plans) for which the State has no financial liability, since the risk entity has already received a capitated payment from the State.
4	D	X	Service Tracking Claim	Use to report payments made for services rendered to enrollees when the services are not billed and paid at the single enrollee/provider/visit level of detail.
5	E	Y	Supplemental Payment	Used to identify payments that are above a capitation fee or for a sum above a negotiated rate, such as an FQHC additional reimbursement.

CMS Guidance: Revised and Consolidated Guidance for Building Non-Claims T-MSIS Files

Brief Issue Description

CMS has made systems upgrades in T-MSIS data storage and file processing methodologies to reduce the complexity and size of full historical refresh data for months in which no data have changed. Essentially, we have removed the necessity for states to resubmit data month-after-month even though nothing changed. This has several benefits:

- Significant reduction of non-claim file sizes;
- Significant reduction in the logic necessary to compile the data required to populate the non-claim files.

There are now two methods that states can use when building their non-claim files – the "full-file refresh" method and the "changed-segments-only" method (both described below) and states can use either method. States can also change from one method to the other if they determine that it is to their advantage to do so. States that have already constructed their T-MSIS non-claim-file-building processes to generate rolling history records and wish to continue with this approach may do so as long as it is in full conformance with CMS' T-MSIS non-claims files expectations as delineated in this document.

CMS Guidance: Building Non-Claim Records

Methods for Submiting non-claim files to T-MSIS

States can utilize either the "full-file refresh" method or the "changed-segment-only" method for submitting non-claim files to T-MSIS.

Full-File Refresh Method

As the name suggests, "full-file refresh" files contain a complete set of historical segments for each record, regardless of whether the data on a segment has changed since the last submission, or not. The only exception to this is archived records. Archived records are ones the state considers to be permanently static, are no longer actively used in the state's system, and which the state has moved to a separate data storage area for long-term retention. Once the state archives a record, it no longer needs to report the record in the state's T-MSIS files. Even though these records are no longer included in the state's "full-file refresh" submissions, they will be maintained in the underlying T-MSIS repository as active records.

Changed-Segment-Only Method

States that chose to use the "changed-segment-only" method only need to submit a segment when one or more of its data element values changes. Under the "changed-segment-only" method, once submitted, a segment will remain active in the T-MSIS data repository until the state takes some action to inactivate it. Under the "changed-segment-only" method, it is not necessary for a state to include unchanged segments in its T-MSIS submissions month after month.

Important Concepts Governing the Submission of Non-Claim Files – *REGARDLESS OF SUBMISSION METHOD*

Regardless of the chosen approach, all states need to keep five important concepts in mind:

1. T-MSIS makes no changes to segment effective and end dates of its own volition.
2. If the state does not set segment effective- and end-dates appropriately, unintended overlapping segments with ambiguous data will occur.
3. It is the state's responsibility to tell T-MSIS the revised segment end date on existing segments whenever values on the segment change.
4. Every instance of a segment has a primary key that uniquely identifies it. ***To do anything to an existing segment***, the primary key field values (***which includes the segment effective date***) on the incoming segment MUST MATCH the primary key field values of the existing segment in T-MSIS. The primary key of each segment is listed in the "Rec Segment Keys & Constraints" tab of the *T-MSIS Data Dictionary*. (See Appendix A: Examples of Non-Claim File Segment and/or Record Modification Scenarios for more information on using primary keys.)
5. Record segments that are not applicable to a state or to a particular entity (i.e., an eligible person, provider, managed care entity, or TPL instance) do not need to be submitted.

Amount of Historical Data That Must Be Submitted

CMS no longer requires states to submit seven years of rolling history in its non-claim T-MSIS files. *Table A: Minimum Historical Record Expectations for Non-Claim File Submissions* outlines CMS' revised expectations. This is true for submissions under both the "Full-File Refresh" method and "Changed-Segment-Only" method for submitting non-claim files. If a state wishes to submit more historical data than is outlined in Table A, it may do so.

Appendix P.05: Populating Qualifier Fields and Their Associated Value Fields

Brief Issue Description

The purpose of this guidance document is to when record segments need to be created for all valid values in a qualifier field's valid value set and when it is appropriate to create a record segment for only one of the valid values.

Background Discussion

Definitions

Simple Qualifier Field – is a data element that contains a code (a.k.a. "flag") that defines/qualifies the coding schema used when populating a set of corresponding data elements. This is necessary because there are several different schemas that a state could use and it needs to be clear which of the schemas is actually used.
Examples of "simple qualifier fields" are the DIAGNOSIS-CODE-FLAG-1 through -12 on the CLAIM-HEADER-RECORD-IP record segment (CIP00002). The valid value set for these fields is:

1 ICD-9
2 ICD-10
3 Other

The state would indicate which coding schema is being used to populate the corresponding data elements DIAGNOSIS-CODE-1 through -12.

Complex Qualifier Field – is a data element that not only defines/qualifies the contents of its corresponding data elements (similar to a "simple qualifier field"), but also represents a situation where the state needs to create a record segment for each valid value that applies to the record's subject.
An example of a "complex qualifier field is LICENSE-TYPE on the PROV-LICENSING-INFO record segment (PRV00004). The valid value set for this field is:

1. State, county, or municipality professional or business license
2. DEA license
3. Professional society accreditation
4. CLIA accreditation
5. Other

The state would create a PROV-LICENSING-INFO record segment and populate the corresponding data elements for each LICENSE-TYPE valid value that applies to the provider.

Corresponding Data Elements – Are data elements that contain values as defined by the qualifier field.

Fully Populated Record Segment – Means that all data elements in the record segment will be populated, not just the qualifier field and its corresponding data elements. These additional data elements are necessary to enable CMS to tie the record segment to its parent segment. These data elements comprise the segment's natural key. Generally these data elements are the ones bulleted below, but there could potentially be additional ones, depending on the record segment. See the "Record Keys & Constraints" tab in the T-MSIS Data Dictionary if there are questions concerning a record segment's natural key.

- RECORD-ID
- SUBMITTING-STATE
- RECORD-NUMBER
- MSIS-IDENTIFICATION-NUM / STATE-PLAN-ID-NUM / SUBMITTING-STATE-PROV-ID

Record Subject – This is the individual/entity around which the record segments in a file are built. The Medicaid/CHIP enrollee is the subject of Eligible Files. In Provider Files, the subject is the provider. The managed care entity is the subject of Managed Care Files, and third party payers and their associated beneficiaries are the subjects of TPL Files.

Overview

The complex qualifier fields are included in the T-MSIS record layouts so that a given record segment layout can be used to capture a standard set of data elements (i.e., the corresponding data elements) for a category of data (i.e., the complex qualifier field's valid values list) when more than one category may be applicable to the record subject.

The complex qualifier fields' valid values lists are not "select one value from the valid values list and provide the corresponding data element values (which is the case for simple qualifier fields)." A separate record segment should be created and fully populated for every "complex qualifier field" valid value or unique combination of "complex qualifier field" valid value and corresponding data element value (in accordance with the Record Keys & Constraints) that applies to the record subject. Table 1 illustrates what CMS is expecting, using LICENSE-TYPE in the PROV-LICENSING-INFO record segment (PRV00004) as an example.

Example Scenario

The purpose of the PROV-LICENSING-INFO segment is to capture licensing and accreditation information relevant to a provider. The valid value list for the LICENSE-TYPE data element shows the types of information that CMS is interested in collecting in this record segment:

1. State, county, or municipality professional or business license
2. DEA license
3. Professional society accreditation
4. CLIA accreditation
5. Other

For our example, assume three of these categories are applicable to provider # P0123: (a) a professional license issued by the state's Board of Physicians (valid value # 1); (b.1) a board certification from the ABMS (valid value # 3); (b.2) a board certification from the AOA (also valid value # 3); and (c) a DEA number (valid value # 2). Table 1 and 1a lists the data elements in the PRV00004 record segment, and shows the contents of each data element in the four PRV00004 segments that would be required by this example.

Table 1: Examples of fully populated record segments supplying "complex qualifier field" corresponding data. While these data elements aren't strictly "corresponding data elements," they are necessary to tie the segments to their parent segment.

CMS Guidance

CMS is instructing States to provide information corresponding to each of a complex qualifier field's valid values to the extent that the valid value is applicable to the record subject. Additionally, States should fully populate the affected record segments.

In its first four columns, Table 2 displays the T-MSIS file name, record segment name, complex qualifier field name and the complex qualifier field's list of valid values for each of the complex qualifier fields in the T-MSIS data set. The last two columns identify the corresponding data elements (along with the file segments where they reside) that need to be populated for every applicable valid value in the "complex qualifier field's" valid value list.

Appendix P.06: IIFI (Inter/Intra-File Indices)

How to use this guidance document

This guidance document is intended to provide clarification on previous guidance or clarification to requirement areas that states need to assist in the development and implementation of T-MSIS file submissions.

Brief Issue Description

This document provides information about T-MSIS Inter/Intra-File Indices (IIFI) data elements and an additional set of important data elements; both comprise a subset of the overall T-MSIS data elements.

Background Discussion

The IIFI data elements are made up of three groups.

1. Ten ***Logical Record Keys*** and eleven ***File Header Keys***. ***Logical Keys*** are keys that are used in parent child relationship queries and in the creation of the logical records in the Federal T-MSIS data model. ***File Header Keys*** are keys that are required on the T-MSIS File header segments.

   Source-to-target matrices submitted by states ideally should report each of these corresponding twenty-one data elements with a Data Source Availability of "Always". We expect that 100 percent of the twenty-one group one IIFI data elements are to be reported as “Always” when CMS compares the files submitted to the State’s Source-to-Target Mapping document. CMS envisions that no problem will exist in compliance to the reporting of group one elements.

2. Twenty ***Program Specific Segment keys***. ***Program Specific Segment keys*** comprise of data elements that are keys used in identifying records uniquely in a ***Program Specific*** segment in the T-MSIS files. These are also keys are used for updating the records in the data warehouse for those ***Program specific*** segments. ***Program Specific*** data refer to whether states are participating in any of five Medicaid/CHIP program areas (1115A demonstration, Money-Follows-the-Person (MFP), Lock-In-Providers, Health Home SPAs, and Managed Care participation). There are twenty ***Program Specific segment keys*** – applicable to specific programs.

   Regarding this second group of ***Program Specific*** *data elements*, *the presence or absence of these data* elements in the State’s T-MSIS submission, of course, depends on whether the State is participating in one or more of the five Medicaid/CHIP program areas (1115A demonstration, Money-Follows-the-Person (MFP), Lock-In-Providers,

Health Home SPAs, and Managed Care participation). When States participate in one or more of the 'Medicaid/CHIP Program areas', the source-to-target matrices ideally should report each of the corresponding ***Program Specific*** data elements with a Data Source Availability of "Always" or "Sometimes".

When States do not participate in a 'program area', their source-to-target matrices ideally should report each of the corresponding ***Program Specific*** data elements with a Data Source Availability of "Never".

3. 211 ***Segment keys***. These segment keys only differ from the second group in that they are non-program specific, and are relevant to all states, regardless if they are included in the second group. ***Segment keys*** comprise of data elements that are keys used in identifying records uniquely in a segment in the T-MSIS files. These are also keys are used for updating the records in the data warehouse for those segments.

States should follow these guidelines when building records.

- States must provide primary keys (as listed below) in all segments irrespective of segment being applicable to the state.
- States are not required to code segments which are 'not applicable' for all records;

  Example – if the State does not operate a HEALTH-HOME, the State should not populate a record in the HEALTH-HOME-SPA-PARTICIPATION-INFORMATION-ELG00006 segment for each enrollee in the file.
- Coding segments which are 'not applicable' for some records and 'applicable' for other records;

  Example - when a state operates a HEALTH-HOME for **enrollees who are not enrolled** in a HEALTH-HOME - code segments which are 'not applicable';

  If the State has an approved HEALTH-HOME SPA, the State must populate one record in the HEALTH-HOME-SPA-PARTICIPATION-INFORMATION-ELG00006 segment with key values for SUBMITTING-STATE and MSIS-IDENTIFICATION-NUM and '8-fill', leave blank or space-fill all other elements in the segment. This should be completed for every enrollee in the file that is not enrolled in a HEALTH HOME.

Data Elements by File Name

Tables 1-8 below contain 448 IIFI data elements with their data element number. These tables represent a duplicated list of the IIFI data element subset found in groups 1-3. Table 9 is the unduplicated listing of 21 IIFI data elements.

Tables 10 –15 contain data elements with their data element number. This represents the 20 Program Specific data elements found in the 2nd group (***Program Specific segment keys*** subset). Table 16 is the unduplicated list of 20 Program Specific data elements.

The unique data element number (DE No), data element name, file name, and file segment are listed in each chart.

Note that data element names in these tables are duplicated on multiple file segments and multiple files.

IIFI Data Element Names

Table 9 contains a listing of unique data element names that represent the IIFI subset. While 448 total IIFI data elements exist, only 122 unique data element names exist. This data element name duplication

is due to data element names that are required in each file segment, such as 'Submitting-State' and 'Record-Number'.

CMS Guidance

Since the IIFI and Program Specific data elements are of such fundamental importance to file integrity and data analysis, the state will be asked to review how IIFI and Program Specific data elements marked with “never” or “sometimes” availability can be upgraded to “always”(when applicable). Therefore, states should review each IIFI and Program Specific (when applicable) data element and reevaluate its ability to provide these data elements in its final consolidated 8 file submission.

Appendix P.07: Finding Provider Roles on STD Transactions

How to use this guidance document

This guidance document is not intended to slow down or derail existing state development initiatives. The intent is to provide clarification and standardization across the nation in key areas raised by state partners. Should guidance introduce rework in ongoing development, please bring this to the attention of your TA and CMS analyst to direct you to the most appropriate path that minimizes impact to your progress.

Brief Issue Description

Some States have requested assistance with identifying where to find in the X-12 claim transaction sets the NPIs and taxonomy codes of providers who performed various roles associated with the claim/encounter.

Background Discussion

Definitions

Provider role – The function that a specific provider performed for a particular patient on specified dates of service, and which are contained on fee-for-service claims or reported on encounter records. The particular roles that CMS would like to track on T-MSIS claims are:

- Admitting (attending) provider
- Billing provider
- Dispensing provider
- Operating provider
- Prescribing provider
- Referring provider
- Servicing (rendering) provider
- Under supervision of provider

Provider role information needed for the T-MSIS claim files can be extracted from the standard X-12 transactions. The five tables in the "CMS Guidance" section of this document provide T-MSIS-toX-12 crosswalks for each provider role. The five tables are:

Table A: Provider roles on T-MSIS CLAIMIP files and their corresponding locations on the X-12 transactions

Table B: Provider roles on T-MSIS CLAIMLT files and their corresponding locations on the X-12 transactions

Table C: Provider roles on T-MSIS CLAIMOT (*facility claims*) files and their corresponding locations on the X-12 transactions

Table D: Provider roles on T-MSIS CLAIMOT (*professional claims*) files and their corresponding locations on the X-12 transactions

Table E: Provider roles on T-MSIS CLAIMOT (*dental claims*) files and their corresponding locations on the X-12 transactions

Table F: Provider roles on T-MSIS CLAIMRX files and their corresponding locations on the X-12 transactions

In each table, the first column identifies the provider role. The second and third columns identify the specific T-MSIS record segments and data elements used to capture the NPI and taxonomy of the provider performing the specified role. The fourth, fifth, sixth, and seventh columns in tables "A" through "E" provide the X-12 transaction name, data element identifier, data element description and loop id that map to the T-MSIS data element. The fourth, fifth, sixth, and seventh columns in table "F" provide the segment name, field identifier, field name and definition of the applicable NCPDP D.0 data set fields.

CMS Guidance

Use tables "A" through "F" to map the provider roles that are contained in the T-MSIS claim record layouts to their corresponding X-12 standard transaction data elements.
If the T-MSIS data element does not exist in the X-12 transaction set (shown as "N/A" in the tables below), 8-fill, leave blank or space-fill the T-MSIS data element when building T-MSIS claim files.
