**SUPPLEMENTARY INFORMATION:** The BLM prepared the Northwest Colorado Greater Sage-Grouse Proposed RMP Amendment and Final EIS to enhance cooperation with States by improving alignment with State management plans and strategies for Greater Sage-Grouse, while continuing to conserve, enhance, and restore Greater Sage-Grouse and its habitat.

The BLM developed the proposed land use plan amendment in collaboration with Colorado Governor John Hickenlooper, State wildlife managers, and other concerned organizations and individuals, largely through the Western Governors Association's Sage-Grouse Task Force. Using its discretion and authority under the FLPMA, the BLM proposes amending land use plans that address Greater Sage-Grouse management to improve alignment with State of Colorado plans and management strategies, in accordance with the BLM's multiple use and sustained yield mission.

This Proposed RMP Amendment and Final EIS is one of six separate planning efforts that are being undertaken in response to the Secretary's Order (SO) 3353 (*Greater Sage-grouse Conservation and Cooperation with Western States*) and in accordance with SO 3349 (*American Energy Independence*). The proposed plans refine the previous management plan adopted in 2015 and aims to strike a regulatory balance and build greater trust among neighboring interests in Western communities. The Proposed RMP Amendment and Final EIS proposes to amend the RMPs for field offices on BLM-administered lands within Colorado. The current management decisions for resources are described in the following RMPs:
