

Privacy Statement Provided by the FAA Privacy Office to the FAA Office of Airports, Airports Improvement Program (APP-520) on June 12, 2019.

Pursuant to 5 U.S.C. §552a (e) (3) agencies are required to provide a Privacy Act Statement to all persons asked to provide personal information about themselves, which will go into a system of records (i.e., the information will be stored and retrieved using the individual's name or other personal identifier such as a Social Security Number).

I have reviewed and discussed the forms listed below with you earlier today. All forms with the exception of FAA Form 5100-138 collect information such as airport or company name. The FAA Form 5100-138 collects contact information about the person completing the form. The FAA Form 5100-138 pertains to an airport and not an individual. In addition, retrieval is by airport name and not the individual's name. Privacy Act Statements **are not required** for any of the forms, because the form collects information about airport or company and not an individual. In the case, of the FAA Form 5100-138, it is not retrieved by an identifier and therefore is not a Privacy Act System of Records.

Form Number	Form Number	Form Number
5100-100	2100-129	5100-136
5100-101	2100-130	5100-137
5100-108	5100-131	5100-138
5100-110	5100-132	5100-139
5100-126	5100-133	5100-140
5100-127	5100-134	5100-141
5100-128	5100-135	5100-142
