CCI Evaluation Survey for Museums, Libraries, Other Grantees (C2 Baseline)

[Note to reviewers of survey: All text within square brackets refers to information that will be pre-populated with project-specific information prior to survey administration.]

This survey is part of a cross-grantee evaluation of the Community Catalyst Initiative (CCI), funded by the Institute for Museum and Library Services (IMLS). The evaluation is being led by ORS Impact, an independent consulting firm. You received this survey because you were identified by members of the CCI project team for [project name] as a person in your organization who knows the project well. Some of the questions ask for responses that represent all staff in your organization who are involved in the project. We encourage you to complete the survey along with them and/or to gather ideas from them.

In all results summaries based on this survey, responses will not be linked with any identifying information, such as names of organizations. Only summaries of combined results will be shared outside of ORS Impact, including with IMLS, ABCD Institute, the ABCD site consultants who are providing support and coaching to grantees as part of this initiative, and other audiences who may be interested in the results. Identified information will be shared beyond ORS Impact only if it is required by law, based on a specific request.

At the end of the survey, there is a place where you can enter comments about your experience of the project, explain any of your responses, or provide feedback on the survey.

In this survey, this is what we mean when we refer to...

Community: The geographical area that is the focus of [project name]

Community organizations: organizations and institutions within the <u>community</u> that are involved in the design or activities of [project name]

Community members: residents, citizens, actors, members of resident or citizen associations within the <u>community</u> that are involved in the design or activities of [project name]--does not include staff members of <u>community organizations</u>

Community partners: community organizations AND community members (as described above)

Community-driven: based on what community members care about

CC	I Evaluation Survey	/ for Museums, L	ibraries, Other	Grantees (C2 I	Baseline)	
Con activ Con in [p	nis survey, this is what we nonunity: The geographica nonunity organizations: or vities nonunity members: reside project name] planning or anonunity partners: community partners: commununity-driven: based on	I area that is the focus or ganizations and institut nts, citizens, actors, me ctivitiesdoes not include inity organizations AND	of the [project name itions within the come embers of resident of the staff members of community membe	r citizen associations community organizat	within the communi	
	1. <u>Prior to involvemen</u>			ution who are invo	olved in the proje	ct believed that

		Strongly Disagree	Disagree	Disagree	Agree	Strongly Agree
	Goal setting (deciding what needs to change in the community)				0	
	Planning (deciding what needs to be done to create the desired changes in the community)					
	Implementation (doing the planned activities intended to create the desired changes in the community)					

In this survey, this is what we mean when we refer to... Community: The geographical area that is the focus of the [project name] Community organizations: organizations and institutions within the community that are involved in [project name] planning or activities Community members: residents, citizens, actors, members of resident or citizen associations within the community that are involved in [project name] planning or activities—does not include staff members of community organizations Community partners: community organizations AND community members (as described above) Community-driven: based on what community members care about 2. Prior to involvement in this project staff in our organization who are involved in the project believed that: Strongly Disagree Disagree Disagree Obisagree Agree Strongly Agree community change efforts will be more successful if community members; control project-related desisting members control project-related

	Disagree	Disagree	or Disagree	Agree	Strongly Agree
community change efforts will be more successful if community members control project-related decision-making, rather than community organizations.					
every community has more assets than one person or group knows about.					
community change efforts are more likely to results in lasting change if they build on community assets, including assets of individual <u>community members</u> .					
community members who can mobilize assets should be at the center of community change efforts.					
community assets are discovered through relationships.					
community change efforts are more likely to succeed if strategies adapt to address what <u>community members</u> most want to change.					
people's willingness to act on what they care about is one of the most important assets in a community.
