Face-to-face Interview Protocols

NOTE: Only administer this protocol in a face-to-face interview and if there is sufficient time and the end of the interview.

RESEARCH QUESTIONS:

1. Do respondents understand and answer the alternative question correctly?
2. How do the alternative questions perform compared to the NTEWS versions? Is it the same, better, or worse?

MATERIALS:

GENERAL PROBING:

- In your own words, what do you think this question is asking?
- If I were not here, how would you answer this question?
- You mentioned _____. Can you tell me more about that?
- How did you come up with your answer?
- What were you including in that answer? What were you excluding?

Alternative Question: Principal Job Title

NOTE: This question is an alternative way of collecting the same information in Question 12 of the NTEWS questionnaire.

General Observations and Probing:

- Note any problems with any question/response options/response.
- Note if respondents seem to read the examples. Are they helpful or problematic?
- Note whether respondents follow the skip pattern(s).
- All specified probes should be asked of all respondents.
- In general, probe this question retrospectively, unless the respondent is stuck.
- Use general probes and any necessary follow-ups as needed.

Have them read and answer it.)

Observe:

- Thinking about this question and the question about your main job (point out question again), are these questions different or the same to you? Can you tell me about what makes them (the same/different)?
- Do you have a preference for one question over the other or no preference? Can you tell me about that?
